SECTION B

B.1. 301-6a

ESTIMATED COST AND INCENTIVE FEE (INCREMENTALLY FUNDED
CONTRACTS)(MAY 1998)

- (a) It is estimated that the total cost to the Government for full performance of this contract will be \$_____ of which \$_____ represents the estimated cost and \$ _____ represents the target fee (if any). The fee payable under this contract shall be the target fee adjusted in accordance with paragraph (e) of clause 52.216-10, Incentive Fee and _____ of this contract.
- (b) Sufficient funds are not presently available to cover the total estimated cost of this contract; however, this contract will follow the concepts of incremental funding described in FAR clause 52.232-22, "Limitation of Funds". Funds currently available for payment and allotted to this contract are \$_____ of which \$ _____ represents the limitation of reimbursable costs and \$_____ represents the amount set aside for fee (if any).
- (c) If and when the contract is fully funded, as specified in paragraph (a) of this clause, the "Limitation of Cost" clause shall become applicable.
- (d) The Contracting Officer may allot additional funds to the contract without the concurrence of the Contractor.

B.2. 52.216-10

INCENTIVE FEE (MAR 1997)

- (a) General. The Government shall pay the Contractor for performing this contract a fee determined as provided in this contract.
- (b) Target cost and target fee. The target cost and target fee specified in the Schedule are subject to adjustment if the contract is modified in accordance with paragraph (d) of this clause.
- (1) "Target cost," as used in this contract, means the estimated cost of this contract as initially negotiated, adjusted in accordance with paragraph (d) below.
- (2) "Target fee," as used in this contract, means the fee initially negotiated on the assumption that this contract would be performed for a cost equal to the estimated cost initially negotiated, adjusted in accordance with paragraph (d) of this clause.
- (c) Withholding of payment. Normally, the Government shall pay the fee to the Contractor as specified in the Schedule. However, when the Contracting Officer considers that performance or cost indicates that the Contractor will not achieve target, the Government shall pay on the basis of an appropriate lesser fee. When the Contractor demonstrates that performance or cost clearly indicates that the Contractor will earn a fee significantly above the target fee, the Government may, at the sole discretion of the Contracting Officer, pay on the basis of an appropriate higher fee. After payment of 85 percent of the applicable fee, the Contracting Officer may withhold further payment of fee until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed 15 percent of the applicable fee or \$100,000, whichever is less. The

SECTION B

Contracting Officer shall release 75 percent of all fee withholds under this contract after receipt of the certified final indirect cost rate proposal covering the year of physical completion of this contract, provided the Contractor has satisfied all other contract terms and conditions, including the submission of the final patent and royalty reports, and is not delinquent in submitting final vouchers on prior years' settlements. The Contracting Officer may release up to 90 percent of the fee withholds under this contract based on the Contractor's past performance related to the submission and settlement of final indirect cost rate proposals.

(d) Equitable adjustments. When the work under this contract is increased or decreased by a modification to this contract or when any equitable adjustment in the target cost is authorized under any other clause, equitable adjustments in the target cost, target fee, minimum fee, and maximum fee, as appropriate, shall be stated in a supplemental agreement to this contract.

(e) Fee payable. (1) The fee payable under this contract shall be the target fee increased by _____ cents for every dollar that the total allowable cost is less than the target cost or decreased by _____ cents for every dollar that the total allowable cost exceeds the target cost. In no event shall the fee be greater than _____ percent or less than _____ percent of the target cost.

(2) The fee shall be subject to adjustment, to the extent provided in paragraph (d) of this clause, and within the minimum and maximum fee limitations in paragraph (e)(1) of this clause, when the total allowable cost is increased or decreased as a consequence of (i) payments made under assignments or (ii) claims excepted from the release as required by paragraph (h)(2) of the Allowable Cost and Payment clause.

(3) If this contract is terminated in its entirety, the portion of the target fee payable shall not be subject to an increase or decrease as provided in this paragraph. The termination shall be accomplished in accordance with other applicable clauses of this contract.

(4) For the purpose of fee adjustment, "total allowable cost" shall not include allowable costs arising out of--

(i) Any of the causes covered by the Excusable Delays clause to the extent that they are beyond the control and without the fault or negligence of the Contractor or any subcontractor;

(ii) The taking effect, after negotiating the target cost, of a statute, court decision, written ruling, or regulation that results in the Contractor's being required to pay or bear the burden of any tax or duty or rate increase in a tax or duty;

(iii) Any direct cost attributed to the Contractor's involvement in litigation as required by the Contracting Officer pursuant to a clause of this contract, including furnishing evidence and information requested pursuant to the Notice and Assistance Regarding Patent and Copyright Infringement clause;

(iv) The purchase and maintenance of additional insurance not in the target cost and required by the Contracting Officer, or claims for reimbursement for liabilities to third persons pursuant to the Insurance Liability to Third Persons clause;

(v) Any claim, loss, or damage resulting from a risk for which the Contractor has been relieved of liability by the Government Property clause; or

(vi) Any claim, loss, or damage resulting from a risk defined in the contract as unusually hazardous or as a nuclear risk and against which

SECTION B

the Government has expressly agreed to indemnify the Contractor.

(5) All other allowable costs are included in "total allowable cost" for fee adjustment in accordance with this paragraph (e), unless otherwise specifically provided in this contract.

(f) Contract modification. The total allowable cost and the adjusted fee determined as provided in this clause shall be evidenced by a modification to this contract signed by the Contractor and Contracting Officer.

(g) Inconsistencies. In the event of any language inconsistencies between this clause and provisioning documents or Government options under this contract, compensation for spare parts or other supplies and services ordered under such documents shall be determined in accordance with this clause.

(End of clause)

B.3Optional Task Unit Pricing

H.14. 316-1

ACCESSIBILITY OF SOFTWARE (JUNE 1997)

The Department of Education (ED) considers universal accessibility to information a priority for all its employees and external customers, including individuals with disabilities. Under Sections 504 and 508 of the Rehabilitation Act of 1973 (29 U.S.C. sections 794 and 794d, as amended), ED must ensure the accessibility of its programs and activities, specifically its obligation to acquire and use accessible electronic and information technology. ED maintains the manual, "Requirements for Accessible Software Design," to convey the accessibility needs of the Department to the developers and suppliers of computer applications. To comply with the provisions of this clause, the contractor may use the edition of the ED manual "Requirements for Accessible Software Design" in effect at the date of award of this contract or any more recent edition. A copy of the most recent edition of the manual may be found at <http://ocfo.ed.gov/coninfo/clibrary/software.htm>.

(a) Software developed for ED--The contractor shall ensure that any software developed under this contract for use by ED's employees or external customers is accessible to individuals with disabilities. At a minimum, such software must meet all the requirements the ED manual "Requirements for Accessible Software Design." However, in accordance with paragraph (d) of this clause, the contracting officer may waive a particular requirement.

(b) Software enhanced or modified for ED--Any enhancements and other modifications, made under this contract to software for use by ED's employees or external customers, are subject to the requirements of paragraph (a) of this clause, regardless of where or how the software was first developed. Except as otherwise specified elsewhere in the contract schedule, the contractor is only required to ensure that enhancements or modifications (not other features or parts of the software) of the software fully comply with the accessibility requirements of paragraph (a), as well as suggest solutions to ensure the software complies.

(c) Other software delivered under this contract--The contractor shall consider accessibility to individuals with disabilities as a significant factor when selecting or purchasing any software that will be delivered under this contract for use by ED's employees or external customers.

Unless otherwise specified elsewhere in the contract schedule, the contractor is not required to obtain a waiver when it is not feasible for particular software not developed under this contract to fully meet the accessibility requirements of paragraph (a) of this clause.

However--

(1) In accordance with subparagraphs (c)(2) and (c)(3) of this clause, the contractor shall give the contracting officer an opportunity to review and potentially reject the selection or purchase of any software that will be delivered under this

SECTION H
SPECIAL CONTRACT REQUIREMENTS

contract for use by ED's employees or external customers that does not meet all the requirements of the ED manual "Requirements for Accessible Software Design" and

(i) that has an aggregate total estimated cost or price of over \$500,000 for all copies or licenses of the software, or

(ii) that the contractor anticipates will be used by more than ten ED employees or external customers.

(2) At least ten calendar days prior to final selection of any software that meets the criteria in subparagraph (c)(1) of this clause, the contractor shall notify the contracting officer in writing, listing the specific accessibility requirements that would not be met, explaining how the accessibility of a particular feature can be achieved by alternative means or why it is not feasible to make a feature of the software accessible, and explaining any trade-offs or other reasons for recommending selection of the software.

(3) Within ten calendar days of the contracting officer's receipt of a notice under subparagraph (c)(2), if selection of the software may significantly impair ED's ability to ensure accessibility of its programs and activities to all its employees and external customers, including individuals with disabilities, the contracting officer may reject selection of the software by written notice to the contractor.

(d) Waiver of requirements--It is recognized that new technologies may provide solutions that are not envisioned in or consistent with the provisions of the manual "Requirements for Accessible Software Design." Also, compliance with certain requirements of the manual may not be feasible for the particular software required. In such extraordinary circumstances, the contracting officer may grant a waiver, in writing, to any requirement of the manual or of this clause if it furthers a public interest of ED and will not significantly impair ED's ability to ensure accessibility of its programs and activities to all its employees and external customers, including individuals with disabilities. To request a waiver, the contractor shall notify the contracting officer in writing, listing the specific accessibility requirements that would not be met and explaining how the accessibility of a particular feature can be achieved by alternative means or why it is not feasible to make a feature of the software accessible.

(e) Condition of payment--The contractor agrees that compliance with the provisions of this clause upon delivery of the software to ED is a condition of payment under this contract.

COST ACCOUNTING STANDARDS (APR 1998)

(a) Unless the contract is exempt under 48 CFR 9903.201-1 and 9903.201-2, the provisions of 48 CFR, Part 9903 are incorporated herein by reference and the Contractor, in connection with this contract, shall--

(1) (CAS-covered Contracts Only) By submission of a Disclosure Statement, disclose in writing the Contractor's cost accounting practices as required by 48 CFR 9903.202-1 through 9903.202-5, including methods of distinguishing direct costs from indirect costs and the basis used for allocating indirect costs. The practices disclosed for this contract shall be the same as the practices currently disclosed and applied on all other contracts and subcontracts being performed by the Contractor and which contain a Cost Accounting Standards (CAS) clause. If the Contractor has notified the Contracting Officer that the Disclosure Statement contains trade secrets and commercial or financial information which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside of the Government.

(2) Follow consistently the Contractor's cost accounting practices in accumulating and reporting contract performance cost data concerning this contract. If any change in cost accounting practices is made for the purposes of any contract or subcontract subject to CAS requirements, the change must be applied prospectively to this contract and the Disclosure Statement must be amended accordingly. If the contract price or cost allowance of this contract is affected by such changes, adjustment shall be made in accordance with subparagraph (a)(4) or (a)(5) of this clause, as appropriate.

(3) Comply with all CAS, including any modifications and interpretations indicated thereto contained in 48 CFR Part 9904, in effect on the date of award of this contract or, if the Contractor has submitted cost or pricing data, on the date of final agreement on price as shown on the Contractor's signed certificate of current cost or pricing data. The Contractor shall also comply with any CAS (or modifications to CAS) which hereafter become applicable to a contract or

SECTION H
SPECIAL CONTRACT REQUIREMENTS

subcontract of the Contractor. Such compliance shall be required prospectively from the date of applicability to such contract or subcontract.

(4)(i) Agree to an equitable adjustment as provided in the Changes clause of this contract if the contract cost is affected by a change which, pursuant to subparagraph (a)(3) of this clause, the Contractor is required to make to the Contractor's established cost accounting practices.

(ii) Negotiate with the Contracting Officer to determine the terms and conditions under which a change may be made to a cost accounting practice, other than a change made under other provisions of subparagraph (a)(4) of this clause; provided that no agreement may be made under this provision that will increase costs paid by the United States.

(iii) When the parties agree to a change to a cost accounting practice, other than a change under subdivision (a)(4)(i) of this clause, negotiate an equitable adjustment as provided in the Changes clause of this contract.

(5) Agree to an adjustment of the contract price or cost allowance, as appropriate, if the Contractor or a subcontractor fails to comply with an applicable Cost Accounting Standard, or to follow any cost accounting practice consistently and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States, together with interest thereon computed at the annual rate established under section 6621 of the Internal Revenue Code of 1986 (26 U.S.C. 6621) for such period, from the time the payment by the United States was made to the time the adjustment is effected. In no case shall the Government recover costs greater than the increased cost to the Government, in the aggregate, on the relevant contracts subject to the price adjustment, unless the Contractor made a change in its cost accounting practices of which it was aware or should have been aware at the time of price negotiations and which it failed to disclose to the Government.

(b) If the parties fail to agree whether the Contractor or a subcontractor has complied with an applicable CAS in 48 CFR, Part 9904 or a CAS rule or regulation in 48 CFR, Part 9903 and as to any cost adjustment demanded by the United States, such failure to agree will constitute a dispute under the Contract Disputes Act (41 U.S.C. 601).

(c) The Contractor shall permit any authorized representatives of the Government to examine and make copies of any documents, papers, or records relating to compliance with the requirements of this clause.

(d) The Contractor shall include in all negotiated subcontracts which the Contractor enters into, the substance of this clause, except paragraph (b), and shall require such inclusion in all other subcontracts, of any tier, including the obligation to comply with all CAS in effect on the subcontractor's award date or if the subcontractor has submitted cost or pricing data, on the date of final agreement on price as shown on the subcontractor's signed Certificate of Current Cost or Pricing Data. If the subcontract is awarded to a business unit which pursuant to 48 CFR 9903.201-2 is subject to other types of CAS coverage, the substance of the applicable clause set forth in subsection 30.201-4 of the Federal Acquisition Regulation shall be inserted. This requirement shall apply only to negotiated subcontracts in excess of \$500,000, except that the requirement shall not apply to negotiated subcontracts otherwise exempt from the requirement to include a CAS clause as specified in 48 CFR

DISCLOSURE AND CONSISTENCY OF COST ACCOUNTING PRACTICES (APR 1998)

(a) The Contractor, in connection with this contract, shall--

(1) Comply with the requirements of 48 CFR 9904.401, Consistency in Estimating, Accumulating, and Reporting Costs; 48 CFR 9904.402, Consistency in Allocating Costs Incurred for the Same Purpose; 48 CFR 9904.405, Accounting for Unallowable Costs; and 48 CFR 9904.406, Cost Accounting Standard--Cost Accounting Period, in effect on the date of award of this contract as indicated in 48 CFR Part 9904.

(2) (CAS-covered Contracts Only) If it is a business unit of a company required to submit a Disclosure Statement, disclose in writing its cost accounting practices as required by 48 CFR 9903.202-1 through 9903.202-5. If the Contractor has notified the Contracting Officer that the Disclosure Statement contains trade secrets and commercial or financial information which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside of the Government.

(3)(i) Follow consistently the Contractor's cost accounting practices. A change to such practices may be proposed, however, by either the Government or the Contractor, and the Contractor agrees to negotiate with the Contracting Officer the terms and conditions under which a change may be made. After the terms and conditions under which the change is to be made have been agreed to, the change must be applied prospectively to this contract, and the Disclosure Statement, if affected, must be amended accordingly.

(ii) The Contractor shall, when the parties agree to a change to a cost accounting practice and the Contracting Officer has made the finding required in 48 CFR 9903.201-6(b), that the change is desirable and not detrimental to the interests of the Government, negotiate an equitable adjustment as provided in the Changes clause of this contract. In the absence of the required finding, no agreement may be made under this contract clause that will increase costs paid by the United States.

(4) Agree to an adjustment of the contract price or cost allowance, as appropriate, if the Contractor or a subcontractor fails to comply with the applicable CAS or to follow any cost accounting practice, and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States together with interest thereon computed at the annual rate of interest established under the Internal Revenue Code of 1986 (26 U.S.C. 6621), from the time the payment by the United States was made to the time the adjustment is effected.

(b) If the parties fail to agree whether the Contractor has complied with an applicable CAS, rule, or regulation as specified in 48 CFR, Parts 9903 and 9904 and as to any cost adjustment demanded by the United States, such failure to agree will constitute a dispute under the Contract Disputes Act (41 U.S.C. 601).

(c) The Contractor shall permit any authorized representatives of the Government to examine and make copies of any documents, papers, and records relating to compliance with the requirements of this clause.

SECTION H
SPECIAL CONTRACT REQUIREMENTS

(d) The Contractor shall include in all negotiated subcontracts, which the Contractor enters into, the substance of this clause, except paragraph (b), and shall require such inclusion in all other subcontracts of any tier, except that--

(1) If the subcontract is awarded to a business unit which pursuant to 48 CFR 9903.201-2 is subject to other types of CAS coverage, the substance of the applicable clause set forth in subsection 30.201-4 of the Federal Acquisition Regulation shall be inserted.

(2) This requirement shall apply only to negotiated subcontracts in excess of \$500,000.

COST ACCOUNTING STANDARDS--EDUCATIONAL INSTITUTION (APR 1998)

(a) Unless the contract is exempt under 48 CFR 9903.201-1 and 9903.201-2, the provisions of 48 CFR 9903 are incorporated herein by reference and the Contractor, in connection with this contract, shall--

(1) (CAS-covered Contracts Only). If a business unit of an educational institution required to submit a Disclosure Statement, disclose in writing the Contractor's cost accounting practices as required by 48 CFR 9903.202-1 through 9903.202-5, including methods of distinguishing direct costs from indirect costs and the basis used for accumulating and allocating indirect costs. The practices disclosed for this contract shall be the same as the practices currently disclosed and applied on all other contracts and subcontracts being performed by the Contractor and which contain a Cost Accounting Standards (CAS) clause. If the Contractor has notified the Contracting Officer that the Disclosure Statement contains trade secrets, and commercial or financial information which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside of the Government.

(2) Follow consistently the Contractor's cost accounting practices in accumulating and reporting contract performance cost data concerning this contract. If any change in cost accounting practices is made for the purposes of any contract or subcontract subject to CAS requirements, the change must be applied prospectively to this contract and the Disclosure Statement, if required, must be amended accordingly. If an accounting principle change mandated under Office of Management and Budget (OMB) Circular A-21, Cost Principles for Educational Institutions, requires that a change in the Contractor's cost accounting practices be made after the date of this contract award, the change must be applied prospectively to this contract and the Disclosure Statement, if required, must be amended accordingly. If the contract price or cost allowance of this contract is affected by such changes, adjustment shall be made in accordance with subparagraph (a)(4) or (a)(5) of this clause, as appropriate.

(3) Comply with all CAS, including any modifications and interpretations indicated thereto contained in 48 CFR 9905 in effect on the date of award of this contract or, if the Contractor has submitted cost or pricing data, on the date of final agreement on price as shown on the Contractor's signed certificate of current cost or pricing data. The

Contractor shall also comply with any CAS (or modifications to CAS) which hereafter become applicable to a contract or subcontract of the Contractor. Such compliance shall be required prospectively from the date of applicability to such contract or subcontract.

(4)(i) Agree to an equitable adjustment as provided in the Changes clause of this contract if the contract cost is affected by a change which, pursuant to subparagraph (a)(3) of this clause, the Contractor is required to make to the Contractor's established cost accounting practices.

(ii) Negotiate with the Contracting Officer to determine the terms and conditions under which a change may be made to a cost accounting practice, other than a change made under other provisions of subparagraph (a)(4) of this clause; provided that no agreement may be made under this provision that will increase costs paid by the United States.

(iii) When the parties agree to a change to a cost accounting practice, other than a change under subdivision (a)(4)(i) or (a)(4)(iv) of this clause, negotiate an equitable adjustment as provided in the Changes clause of this contract.

(iv) Agree to an equitable adjustment as provided in the Changes clause of this contract, if the contract cost is materially affected by an OMB Circular A-21 accounting principle amendment which, on becoming effective after the date of contract award, requires the Contractor to make a change to the Contractor's established cost accounting practices.

(5) Agree to an adjustment of the contract price or cost allowance, as appropriate, if the Contractor or a subcontractor fails to comply with an applicable Cost Accounting Standard, or to follow any cost accounting practice consistently and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States, together with interest thereon computed at the annual rate established under section 6621 of the Internal Revenue Code of 1986 (26 U.S.C. 6621) for such period, from the time the payment by the United States was made to the time the adjustment is effected. In no case shall the Government recover costs greater than the increased cost to the Government, in the aggregate, on the relevant contracts subject to the price adjustment, unless the Contractor made a change in its cost accounting practices of which it was aware or should have been aware at the time of price negotiations and which it failed to disclose to the Government.

(b) If the parties fail to agree whether the Contractor or a subcontractor has complied with an applicable CAS or a CAS rule or regulation in 48 CFR 9903, and as to any cost adjustment demanded by the United States, such failure to agree will constitute a dispute under the Contract Disputes Act (41 U.S.C. 601).

(c) The Contractor shall permit any authorized representatives of the Government to examine and make copies of any documents, papers, or records relating to compliance with the requirements of this clause.

(d) The Contractor shall include in all negotiated subcontracts which the Contractor enters into, the substance of this clause, except paragraph (b), and shall require such inclusion in all other subcontracts, of any tier, including the obligation to comply with all applicable CAS in effect on the subcontractor's award date or, if the subcontractor has submitted cost or pricing data, on the date of final agreement on price as shown on the subcontractor's signed Certificate of Current Cost or Pricing

ADMINISTRATION OF COST ACCOUNTING STANDARDS (APR 1996)

For the purpose of administering the Cost Accounting Standards (CAS)

requirements under this contract, the Contractor shall take the steps outlined in paragraphs (a) through (g) of this clause:

(a) Submit to the Contracting Officer a description of any cost accounting practice change, the total potential impact of the change on contracts containing a CAS clause, and a general dollar magnitude of the change which identifies the potential shift of costs between CAS-covered contracts by contract type (i.e., firm-fixed-price, incentive, cost-plus-fixed fee, etc.) and other contractor business activity. As related to CAS-covered contracts, the analysis should identify the potential impact on funds of the various Agencies/Departments (i.e., Department of Energy, National Aeronautics and Space Administration, Army, Navy, Air Force, other Department of Defense, other Government) as follows:

(1) For any change in cost accounting practices required in accordance with subparagraph (a)(3) and subdivision (a)(4)(i) of the clause at FAR 52.230-2, Cost Accounting Standards; or subparagraph (a)(3) and subdivisions (a)(4)(i) or (a)(4)(iv) of the clause at FAR 52.230-5, Cost Accounting Standards--Educational Institution; within 60 days (or such other date as may be mutually agreed to) after award of a contract requiring this change.

(2) For any change in cost accounting practices proposed in accordance with subdivision (a)(4)(ii) or (iii) of the clauses at FAR 52.230-2, Cost Accounting Standards, and FAR 52.230-5, Cost Accounting Standards--Educational Institution; or with subparagraph (a)(3) of the clause at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices, not less than 60 days (or such other date as may be mutually agreed to) before the effective date of the proposed change.

(3) For any failure to comply with an applicable CAS or to follow a disclosed practice (as contemplated by subparagraph (a)(5) at FAR 52.230-2, Cost Accounting Standards, and FAR 52.230-5, Cost Accounting Standards--Educational Institution; or by subparagraph (a)(4) at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices):

(i) Within 60 days (or such other date as may be mutually agreed to) after the date of agreement with the initial finding of noncompliance, or

(ii) In the event of Contractor disagreement with the initial finding of noncompliance, within 60 days of the date the Contractor is notified by the Contracting Officer of the determination of noncompliance.

(b) After an ACO, or cognizant Federal agency official, determination of

SECTION H
SPECIAL CONTRACT REQUIREMENTS

materiality, submit a cost impact proposal in the form and manner specified by the Contracting Officer within 60 days (or such other date as may be mutually agreed to) after the date of determination of the adequacy and compliance of a change submitted pursuant to paragraph (a) of this clause. The cost impact proposal shall be in sufficient detail to permit evaluation, determination, and negotiation of the cost impact upon each separate CAS-covered contract and subcontract.

(1) Cost impact proposals submitted for changes in cost accounting practices required in accordance with subparagraph (a)(3) and subdivision (a)(4)(i) of the clause at FAR 52.230-2, Cost Accounting Standards; or subparagraph (a)(3) and subdivisions (a)(4)(i) or (a)(4)(iv) of the clause at FAR 52.230-5, Cost Accounting Standards--Educational Institution; shall identify the applicable standard or cost principle and all contracts and subcontracts containing the clauses entitled Cost Accounting Standards or Cost Accounting Standards--Educational Institution, which have an award date before the effective date of that standard or cost principle.

(2) Cost impact proposals submitted for any change in cost accounting practices proposed in accordance with subdivisions (a)(4)(ii) or (iii) of the clauses at FAR 52.230-2, Cost Accounting Standards, and FAR 52.230-5, Cost Accounting Standards--Educational Institution; or with subparagraph (a)(3) of the clause at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices; shall identify all contracts and subcontracts containing the clauses at FAR 52.230-2, Cost Accounting Standards, FAR 52.230-5, Cost Accounting Standards--Educational Institution, and FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices.

(3) Cost impact proposals submitted for failure to comply with an applicable CAS or to follow a disclosed practice as contemplated by subparagraph (a)(5) of the clauses at FAR 52.230-2, Cost Accounting Standards, and FAR 52.230-5, Cost Accounting Standards--Educational Institution; or by subparagraph (a)(4) of the clause at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices, shall identify the cost impact on each separate CAS covered contract from the date of failure to comply until the noncompliance is corrected.

(c) If the submissions required by paragraphs (a) and (b) of this clause are not submitted within the specified time, or any extension granted by the Contracting Officer, an amount not to exceed 10 percent of each subsequent amount determined payable related to the Contractor's CAS-covered prime contracts, up to the estimated general dollar magnitude of the cost impact, may be withheld until such time as the required submission has been provided in the form and manner specified by the Contracting Officer.

(d) Agree to appropriate contract and subcontract amendments to reflect adjustments established in accordance with subparagraphs (a)(4) and (a)(5) of the clauses at FAR 52.230-2, and 52.230-5; or with subparagraphs (a)(3) or (a)(4) of the Disclosure and Consistency of Cost Accounting Practices clause at FAR 52.230-3.

(e) For all subcontracts subject to the clauses at FAR 52.230-2, 52.230-3, or 52.230-5--

(1) So state in the body of the subcontract, in the letter of award, or in both (self-deleting clauses shall not be used); and

(2) Include the substance of this clause in all negotiated subcontracts. In addition, within 30 days after award of the subcontract, submit the following information to the Contractor's

SECTION H
SPECIAL CONTRACT REQUIREMENTS

cognizant contract administration office for transmittal to the contract administrative office cognizant of the subcontractor's facility:

- (i) Subcontractor's name and subcontract number.
- (ii) Dollar amount and date of award.
- (iii) Name of Contractor making the award.

(iv) Any changes the subcontractor has made or proposes to make to cost accounting practices that affect prime contracts or subcontracts containing the clauses at FAR 52.230-2, 52.230-3, or 52.230-5, unless these changes have already been reported. If award of the subcontract results in making one or more CAS effective for the first time, this fact shall also be reported.

(f) Notify the Contracting Officer in writing of any adjustments required to subcontracts under this contract and agree to an adjustment, based on them, to this contract price or estimated cost and fee. This notice is due within 30 days after proposed subcontract adjustments are received and shall include a proposal for adjusting the higher tier subcontract or the prime contract appropriately.

(g) For subcontracts containing the clauses at FAR 52.230-2 or 52.230-5, require the subcontractor to comply with all Standards in effect on the date of award or of final agreement on price, as shown on the subcontractor's signed Certificate of Current Cost or Pricing Data, whichever is earlier.

H.22. 52.232-33

PAYMENT BY ELECTRONIC FUNDS TRANSFER--CENTRAL CONTRACTOR REGISTRATION
(MAY 1999)

(a) Method of payment. (1) All payments by the Government under this contract shall be made by electronic funds transfer (EFT), except as provided in paragraph (a)(2) of this clause. As used in this clause, the term "EFT" refers to the funds transfer and may also include the payment information transfer.

(2) In the event the Government is unable to release one or more payments by EFT, the Contractor agrees to either--

- (i) Accept payment by check or some other mutually agreeable method of payment; or
- (ii) Request the Government to extend the payment due date until such time as the Government can make payment by EFT (but see paragraph (d) of this clause).

(b) Contractor's EFT information. The Government shall make payment to the Contractor using the EFT information contained in the Central Contractor Registration (CCR) database. In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the CCR database.

(c) mechanisms for EFT payment. The Government may make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR part 210.

(d) Suspension of payment. If the Contractor's EFT information in the CCR database is incorrect, then the Government need not make payment to the Contractor under this contract until correct EFT information is entered into the CCR database; and any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of

SECTION H
SPECIAL CONTRACT REQUIREMENTS

prompt payment under this contract. The prompt payment terms of the contract regarding notice of an improper invoice and delays in accrual of interest penalties apply.

(e) Contractor EFT arrangements. If the Contractor has identified multiple payment receiving points (i.e., more than one remittance address and/or EFT information set) in the CCR database, and the Contractor has not notified the Government of the payment receiving point applicable to this contract, the Government shall make payment to the first payment receiving point (EFT information set or remittance address as applicable) listed in the CCR database.

(f) Liability for uncompleted or erroneous transfers. (1) If an uncompleted or erroneous transfer occurs because the Government used the Contractor's EFT information incorrectly, the Government remains responsible for--

- (i) Making a correct payment;
- (ii) Paying any prompt payment penalty due; and

(2) If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect, or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and--

- (i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously directed funds; or
- (ii) If the funds remain under the control of the payment office, the Government shall not make payment, and the provisions of paragraph (d) of this clause shall apply.

(g) EFT and prompt payment. A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

(h) EFT assignment of claims. If the Contractor assigns the proceeds of this contract as provided for in the assignment of claims terms of this contract, the Contractor shall require as a condition of any such assignment, that the assignee shall register in the CCR database and shall be paid by EFT in accordance with the terms of this clause. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (d) of this clause.

(i) Liability for change of EFT information by financial agent. The Government is not liable for errors resulting from changes to EFT information made by the Contractor's financial agent.

(j) Payment information. (1) It has received certification by the Small Business Administration as a small disadvantaged business concern consistent with 13 CFR 124, Subpart B; and

(i) No material change in disadvantaged ownership and control has occurred since its certification;

(ii) Where the concern is owned by one or more disadvantaged individuals, the net worth of each individual upon whom the certification is based does not exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(iii) It is listed, on the date of its representation, on the register of small disadvantaged business concerns maintained by the Small Business Administration;

(2) It has submitted a completed application to the Small Business Administration or a Private Certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR 124, Subpart B, and a decision on that application is pending, and that no material change in disadvantaged ownership and control has occurred since its application was submitted. In this case, in order to receive the benefit of a price evaluation adjustment, an offeror must receive certification as a small disadvantaged business concern by the Small Business Administration prior to contract award; or

(3) Is a joint venture as defined in 13 CFR 124.1002(f).

"Historically black college or university" means an institution determined by the Secretary of Education to meet the requirements of 34 CFR 608.2. "Minority institution" means an institution of higher education meeting the requirements of Section 1046(3) of the Higher Education Act of 1965 (20 U.S.C. 1135d-5(3)) which, for purposes of this clause, includes a Hispanic-serving institution of higher education as defined in Section 316(b)(1) of the Act (20 U.S.C. 1059c(b)(1)).

(2) The factor shall be applied on a line item basis or to any group of items on which award may be made. Other evaluation factors described in the solicitation shall be applied before application of the factor. The factor may not be applied if using the adjustment would cause the contract award to be made at a price that exceeds the fair market price by more than the factor in paragraph (b)(1) of this clause.

(c) Waiver of evaluation adjustment. A small disadvantaged business concern may elect to waive the adjustment, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraph (d) of this clause do not apply to offers that waive the adjustment.

____ Offeror elects to waive the adjustment.

(d) Agreements. (1) A small disadvantaged business concern, that did not waive the adjustment, agrees that in performance of the contract, in the case of a contract for--

REPRESENTATION OF LIMITED RIGHTS DATA AND RESTRICTED COMPUTER SOFTWARE
(MAY 1999)

(a) This solicitation sets forth the work to be performed if a contract award results, and the Government's known delivery requirements for data (as defined in FAR 27.401). Any resulting contract may also provide the Government the option to order additional data under the Additional Data Requirements clause at 52.227-16 of the FAR, if included in the contract. Any data delivered under the resulting contract will be subject to the Rights in Data--General clause at 52.227-14 that is to be included in this contract. Under the latter clause, a Contractor may withhold from delivery data that qualify as limited rights data or restricted computer software, and deliver form, fit, and function data in lieu thereof. The latter clause also may be used with its Alternates II and/or III to obtain delivery of limited rights data or restricted computer software, marked with limited rights or restricted rights notices, as appropriate. In addition, use of Alternate V with this latter clause provides the Government the right to inspect such data at the Contractor's facility.

(b) As an aid in determining the Government's need to include Alternate II or Alternate III in the clause at 52.227-14, Rights in Data--General, the offeror shall complete paragraph (c) of this provision to either state that none of the data qualify as limited rights data or restricted computer software, or identify, to the extent feasible, which of the data qualifies as limited rights data or restricted computer software. Any identification of limited rights data or restricted computer software in the offeror's response is not determinative of the status of such data should a contract be awarded to the offeror.

(c) The offeror has reviewed the requirements for the delivery of data or software and states [offeror check appropriate block]--

/_/ None of the data proposed for fulfilling such requirements qualifies as limited rights data or restricted computer software.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of Part I of this provision.

CAUTION: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

Proposals which merely offer to conduct a program in accordance with

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

the requirements of the Government's scope of work will not be eligible for award. You must submit an explanation of the proposed technical approach in conjunction with the tasks to be performed in achieving the project objectives.

A detailed work plan must be submitted indicating how each aspect of the statement of work is to be accomplished. Your technical approach should be in as much detail as you consider necessary to fully explain your proposed technical approach or method. The technical proposal should reflect a clear understanding of the nature of the work being undertaken.

The technical proposal must include information on how the project is to be organized, staffed, and managed. Information should be provided which will demonstrate your understanding and management of important events or tasks. You must explain how the management and coordination of consultant and/or subcontractor efforts will be accomplished.

The technical proposal must include a list of names and proposed duties of the professional personnel, consultants, and key subcontractor employees assigned to the project. Their resumes should be included and should contain information on education, background, recent experience, and specific requirement related or technical accomplishments. The approximate percentage of time each individual will be available for this project must be included.

The proposed staff hours for each of the above individuals should be allocated against each task or subtask for the project. The technical proposal must provide the general background, experience, and qualifications of the organization. Similar or related contracts, subcontracts, or grants should be included and contain the name of the customer, contract or grant number, dollar amount, time of performance, and the names and telephone numbers of the project officer and contracting/grants officer.

The technical proposal must contain a discussion of present or proposed facilities and equipment which will be used in the performance of the contract.

The technical proposal must be prepared and submitted in the following format:

A.1 Technical Proposal

Offerors should provide a Technical Proposal for the entire project. This includes 1) the core tasks (Tasks 1-6) and 2) each of the optional studies and supplements. To be responsive, an offeror must address all optional special studies and supplements in their proposals. All special studies and supplements will be exercised at the discretion of the government.

The technical proposal shall be organized into the following sections:

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

Table of Contents, Introduction, General Approach, Statement of Work, Project Management, Proposed Staff Related Experience, and Related Corporate Experience. The authors of each section should be clearly identified in the proposal. Specific requirements for each section are discussed in greater detail in the following paragraphs.

A.1.1 Table of contents.

The Table of Contents should provide an easy means to identify major points of discussion.

A.1.2 Introduction.

This section shall present the offeror's conceptualization of the purposes, products, and methodologies of the study. This section should also include a short summary of the offeror's qualifications and strengths relevant to the work outlined in the Scope of Work. In describing the purposes of the project, offerors should discuss their current understanding of the design of the NAAL and how the study can be designed to answer questions relating to the National Education Goal for Adult Literacy and Lifelong Learning and adult literacy development.

A.1.3 General Approach.

The General Approach section should be organized into three parts. In the first part, the offeror is asked to describe its overall approach for successfully accomplishing the work and the rationale for the proposed approach. In the second part, the offeror should identify what it sees as the major challenges associated with:

- 1) maintaining communication and coordination among contractors and NCES,
- 2) maintaining quality control of data analysis and reporting,
- 3) optimizing the use of data for state, national, and international estimation,
- 5) evaluation and revision of the instruments related to content coverage, cognitive laboratory research, field test results, and project goals. The offeror should propose strategies for reviewing, revising, and evaluating the literacy assessment and background questionnaire instruments for use in state, national, and international assessments.
- 6) analysis, reporting, and dissemination of results with respect to state, national, and international data as well as trends, and
- 8) handling of missing data and the use of imputation or other approaches.

In the third section, the offeror should describe the methods and approaches it will use to respond to each of these challenges.

A.1.4 Statement of Work

The Statement of Work section should correspond to the Scope of Work in this document. The offeror's Statement of Work should expand upon each of the tasks outlined in the Scope of Work and discuss procedural issues related to completing each task. The offeror's plan for carrying out each task, including the naming of staff members who will play a major role in completing the task, should be clearly stated. Any variations to the tasks and subtasks defined herein should be accompanied by a rationale. If the variation affects the overall cost of the study, this should be indicated in the technical proposal and alternative designs should be separately costed out in the business or cost proposal. Offerors are encouraged to propose alternatives that, if adopted, would improve upon the study or reduce the costs. However, for evaluation purposes, the offeror should also submit a proposal to perform the work as specified in this document. Alternative proposals that deviate from any requirements of this RFP shall be clearly identified

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

(see section for alternate proposals).

Listed below are topics that the offeror should fully discuss when preparing its description of the work and methods it will use in completing specific tasks, special studies, and supplements.

Task 1. Project Planning, Management, and Oversight

Proposals in response to this procurement should demonstrate a clear understanding of the complexity of the tasks and present an effective management system for handling the complexity of the project; for coordinating work with state, national, and international bodies, expert panels, and other contractors; managing multiple timelines and schedules; and providing adequate quality control and oversight. Offerors shall list the key personnel proposed, their proposed responsibilities, percentage of time each is committed to the project, and other contractual obligations for each during the course of this award.

The offeror's proposal should include 1) a description of general project management and quality control procedures, 2) a sample agenda for the initial project planning meeting, 3) an example of the type of briefing materials that will be prepared, 4) an outline for a project brochure, and 5) a plan for securing master data files and documentation.

It is anticipated that the contractor's staff will meet about 3 times per year (other than the initial planning meeting) with the COTR over the life of the contract. Typically, two of the meetings per year will be one-day meetings and one will be a two-day meeting. The designation of attendees to each meeting should be made only after the meeting goals and agenda have been established. An average of three of the contractor's staff members shall typically attend each meeting.

Task 2. Relationship to Expert Review Panels

The proposal should describe the offeror's plans for working with the NAAL Technical Review Panel, State Forum, and other committees and panels needed for specific tasks or for on-going review and guidance throughout the project. The proposal should include: 1) a preliminary list of recommended Technical Review Panel members with justifications and 2) draft agendas, related to the contractor's work, for the first Technical Review Panel and State Forum meetings.

Offerors should assume that three outside review groups will be convened over the life of the contract. Each group will be comprised of up to six members and will meet for one day in Washington, D.C.

Task 3. Review and Revise Instruments

The offeror should describe its approach to 1) reviewing and revising literacy tasks and background questions, 2) managing the communication and information flow among all contractors and other relevant parties; 3) obtaining outside expert reviews of deliverables, 4) conducting the cognitive laboratory research and field test work, and 5) test design issues with regard to reporting on literacy status and trends. Offerors should provide a draft content outline of the instruments and constructs assessed.

Task 4. Technical Report

The offeror should offer a preliminary outline that summarizes the major components of the Technical Report.

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

This outline should reflect the proposed assessment framework, instrument content, and sample design.

Task 5. Analysis and Reporting

The offeror's proposal should describe its approach to developing user friendly public use data files;

and for preparing special population profile reports, trend reports on key population groups, and a Statistics in Brief type reports for use when adjudicating the NAAL public release data files.

The offeror should include a draft outline of these reports as examples.

The offeror should include multiple strategies for producing visually attractive and graphic-rich displays--in print and electronic media-- that effectively communicate data to various audiences.

Task 6. Dissemination

The offeror's proposal should include multiple and creative strategies for disseminating findings from the NAAL to various stakeholder audiences.

Particular attention should be paid to informing the media and other public audiences through press releases, news items, and use of the World Wide Web, radio and television, print media and other venues.

Optional Studies and Supplements

A. Statewide Sample Supplements

The offeror should propose various strategies for including supplemental samples from states, compare these

approaches, and provide justifications for its recommended approach.

The number of states that choose to provide supplemental statewide samples for the NAAL will not be known until some months following contract award.

Thus, to provide the government a way to evaluate the offeror's understanding of the sampling, data collection, analysis, and reporting issues involved and to assess the merits of the offeror's approach to this option, the offeror should assume that the ten largest states will provide supplemental samples for the NAAL. Therefore, the offeror's approach to this option should be demonstrate its creativity, resourcefulness, and practicality as well as responsiveness to the need to provide data of value to policymakers at both the state and federal levels.

The offeror's proposal should include specific plans for ensuring that its approach to including state

supplemental samples will not compromise the precision of national estimates or the quality of national trends.

B. Alternative Data Collection and Estimation Methods

The offeror's proposal should include a discussion of the merits of obtaining proxy, or synthetic, estimates of the status and distribution of literacy proficiency at the state and local levels. This approach has been applied with the data from 1992,

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

and is presented at [www url]. The offeror's proposal should consider the merits of this approach, or variations of it, in terms of feasibility, quality of estimation, and usefulness of data to states that do not participate in statewide assessments of adult literacy. The offeror should consider the use of such proxy data for estimating literacy in the intervening years of the decade between national assessments.

The use of alternative data collection methods offers the potential for reducing the high costs of door-to-door household assessments while assessing broader dimensions of adult literacy knowledge. The offeror's proposal for this option should demonstrate its recognition of the potential value and shortcomings of an alternative method such as telephone and mail surveys to supplement or replace methods based on personal, face-to-face, interviews. It should identify and evaluate the key issues involved in using such methods relative to face-to-face personal interviews, particularly with respect to assessing adult literacy knowledge and evaluating the relationship of this such knowledge to adults' literacy development and attainment. The offeror's proposal should identify what kinds of adult literacy data collected in the 1992 National Adult Literacy Survey, for example, may be most suited to telephone and mail survey methods and provide an evaluation of the merits of examining this option for the NAAL.

The proposal should include the offeror's recommendations about proposed strategies as well as suggestions for studies that would be needed to validate such methods in light of the proposed uses. In particular, the proposal should include ways to evaluate the quality of estimated performance outcomes and relationships that could be obtained from data collected by telephone and assess the value added to the NAAL of using telephone surveys to supplement NAAL data collection.

A.1.5 Project Management

The complexity of the project requires that the contractor has in place an effective management system that enables tasks to be completed on schedule and within budget. The Project Management section includes discussions of the offeror's procedures for: coordinating and controlling project personnel, resources, and tasks; ensuring adherence to schedules and deadlines; ensuring high quality products and outcomes; identifying potential problems early; maintaining close communication with the COTR; and controlling project expenditures. This section outlines the offeror's specific plans for managing the NAAL and identifies how its proposed approach to project management will respond to the needs and complexities of the NAAL. Descriptions that are limited to the offeror's general approach to project management will be considered unacceptable.

The offeror should provide an organizational chart which indicates all personnel (key personnel should be so indicated), their time commitments to each task, and the proposed lines of responsibility and authority, coordination, and communication within the offering

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

organization and with subcontractors (if any), with consultants, and with NCES.

There should also be a staff skills matrix that identifies the project director and key project staff by skill area . All key staff of subcontractors should be identified and described in the same way and listed in the staff skills matrix. There should be sufficient detail on how each project staff member will be used. In all cases where personnel external to the offeror's organization are proposed, letters of agreement (with proposed staff) and letters of availability (endorsed by the primary institutions with which they are affiliated) shall be included. For purposes of the Work Statement, staff are defined as all personnel proposed to work on the study regardless of their primary affiliation or specific assignment.

A person-loading chart that shows the number of hours each key staff member will devote to each of the project tasks and the number of total hours each will devote to the core and optional tasks should be included in this section. The hours for other project staff (e.g., programmers, clerical staff, field staff) should be reported by labor category. A similar chart is required for each optional special study. All key staff of subcontractors proposed for the NAAL should be included in the person-loading chart. The offeror should describe in this section the management control system that is used internally for planning, scheduling, budgeting, managing, and reporting the accomplishments of the contract work. The offeror should submit both a schedule for task activities and for the delivery of products, and charts (e.g., GANTT charts) showing activities plotted on a time scale. The offeror should also provide the level of commitment to the NAAL and to other projects and administrative activities for each proposed key staff member. Offerors should clearly state how many hours equal one full-time equivalent.

Project schedule. The offeror should provide a project schedule for completing the 16 core tasks over each year of the study. Project schedules for completing the optional special studies and supplements should also be included in the offeror's technical proposal.

A.1.6 Qualifications and availability of project personnel

This section of the offeror's proposal should contain a summary for each proposed key staff member that indicates how his/her prior work experience and educational background relates to his/her proposed role on the NAAL. Primary areas of expertise should be clearly specified.

For all professional staff, resumes should be provided showing each person's professional background and including specialization and degrees held. The resumes should document directly relevant professional experience, educational background, publications, and professional activities. The resumes should list no more than four prior or current work or project experiences and no more than 10 publications and professional presentations. Resumes also should indicate reference contacts (including addresses and phone numbers for both Federal and non-federal COTRs). Include only individuals who have a significant time commitment on relevant tasks. Submitting general vitae or vitae that do not clearly identify the information identified above is unacceptable.

One of the single greatest determinants of project success is the quality of the contractor's staff. To plan, conduct and complete the NAAL

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

successfully requires staff who together have technical expertise, knowledge, and experience in all areas related to this study.

These areas include: adult literacy and learning, assessment of the cognitive abilities of adults, test development and psychometrics, survey design and research methods, complex statistical and sampling methods, imputation methods, the implementation of conversational CATI/CAPI systems, field staff and interviewer training, data processing, and computer applications. In addition to these areas, optional tasks require staff with different substantive and methodological expertise. The offeror's proposal should include a matrix that clearly identifies which of its proposed project staff possess each of the above skills and expertise.

The Proposed Project Director is critical to the study because this person sets the study's tone and direction. This person should have expertise and experience in designing, conducting, and managing large studies with multiple components such as the NAAL. The person should be knowledgeable in the development and assessment of adult literacy abilities. The individual's management experience and skills are of key importance in this study. First, the project director should be able to organize, oversee, manage, and control the quality of staff performance on many tasks simultaneously. Second, the project director should be a good leader: strong, confident, and capable of not only inspiring project staff to perform productively as team members, but of taking whatever corrective action is required to insure quality performance. Third, the project director is expected to be a problem solver and a good communicator, capable of identifying problems early or anticipating them before they occur. Once identified, the project director should not hesitate to share potential problems with the COTR for consideration and resolution. Finally, the project director should be a person who can feel comfortable working closely with the COTR and other members of the study team. In summary, the project director should have these skills and a demonstrated ability to meet deadlines, produce qualitatively sound products within budget, and keep the COTR informed of and involved in major decisions or events that are likely to affect the project's performance and products. The project director is expected to be committed to the study and to be prepared to maintain this commitment over the period of the contract.

NCES believes that the magnitude and complexity of the NAAL requires a full time commitment by the project director.

Task leaders and key project personnel should also be persons who can make a long-range commitment to the study. Their competencies should complement those of the project director and they should be individuals who can feel they are part of the project director's team. They should be people with demonstrated ability to meet deadlines and to produce high quality products and their expertise should match their assigned responsibilities on the project.

Key project staff includes the project director and any associate project directors. Any changes or substitutions of these key personnel requires advance approval by the Contracting Officer in consultation with the COTR

(see Key Personnel Clause).

A.1.7 Related Corporate Experience

This section of the offeror's proposal describes the offeror's capability and experience in the following areas: design and conduct of large-scale surveys and assessments; design and conduct of studies of adults and their abilities and skills; design and development of survey instruments, the conduct of large scale CATI/CAPI operations, design and development of large data bases; the imputation for missing data, and design and use of systems for processing, documenting, and maintaining large data bases, and preparation of materials that meet NCES standards.

The offeror should include in its proposal a matrix that clearly identifies which of its prior and ongoing corporate projects are demonstrative of its expertise in each of the above areas.

The Corporate Experience section contains a description of the approach that the offeror will use to provide corporate oversight for the NAAL. This section includes detailed information on how project expenditures will be monitored and controlled.

The specific steps that the offeror will take to insure the quality of the work and products of its staff and to identify problems in performance should be clearly identified.

This section also describes the offeror's past experience in conducting studies of a similar nature and magnitude. One-page abstracts of related work should be included which clearly identify the topics or issues addressed, the study design, the sample size and sample design, data collection methodologies, the time frame of the study and its current status (complete, ongoing, etc.). The name, current affiliation, and current telephone number of the sponsor's COTR should be specified. In addition, the firm undertaking the work must have performed well on other projects of similar size and scope and demonstrate: low turnover of key staff, high quality control standards, adherence to budget limitations, responsiveness to the government contract specialist and NCES COTR, and timeliness and acceptability of project deliverables. The ability to meet deadlines and produce high quality products within budget is of utmost importance.

L.12. 314-1

PAST PERFORMANCE REPORT (MAR 1996)

Each offeror shall submit the following information as a separately bound part of its proposal for both the offeror and proposed major subcontractors. Major, as defined here and in the remainder of sections L and M regarding past performance, is any subcontractor that is subcontracted for a minimum of 25% of the total contract amount. Each major subcontractor shall identify the name of the prime contractor on each of its past performance forms. If the offeror has no relevant corporate or organizational past performance, the offeror may substitute past performance of a predecessor company or of the offeror's management or proposed key personnel who have relevant experience.

A. Each offeror shall submit information about its most recent four contracts, completed in the last three years or currently in process, which are of similar size, scope, complexity or, in any way, are relevant to the effort required by this solicitation. If the offeror's last four similar contracts are all currently in process, submit the last three similar contracts currently in process, and the most recent

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

similar contract completed within the last three years. Contracts listed may include those entered into by the Federal Government, agencies of State and local governments and commercial customers. Contracts with the parent or an affiliate of the offeror may not be used.

Include the following information for each contract and subcontract:

1. Identification
 - a. Name of the contracting activity
 - b. Program title or product name
 - c. Contract number
 - d. Contract type
 - e. Period of performance, including all option periods
 - f. Contract Value:
 - (1) Initial projected total contract amount including all option periods
 - (2) Final or current projected total contract amount including all option periods
 - g. Points of Contact
 - (1) Contracting officer and telephone and fax number and e-mail address (if known)
 - (2) Administrative contracting officer, if different from above, and telephone and fax number and e-mail address (if known)
 - (3) Program manager, COTR or technical officer and telephone and fax number and e-mail address (if known)
 2. Work performed and relevance
 - a. Brief synopsis of work performed
 - b. Brief discussion of how the work performed is relevant to the statement of work in this solicitation
 - c. Brief, specific examples of the offeror's high quality performance
 3. If any of the listed contracts are award-fee or incentive contracts, include a table showing fees awarded and the minimum and maximum available fee for each period.
 4. Paragraph E. below requires you to send a copy of the "Contractor Information Form" to each of your references. In your past performance report, include:
 - a. The date you sent the "Contractor Information Form" to each reference.
 - b. How you sent it (e.g., fax, mail, express delivery service, courier, e-mail, etc.).
 - c. To whom you sent it including telephone and fax number and e-mail address (if known).
- B. The offeror may provide information on problems encountered on the contracts and subcontracts identified in A above and corrective actions taken to resolve those problems. Other than the information

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

requested in A above, offerors should not provide general information on their performance on the identified contracts. General performance information will be obtained from the references.

C. Offerors should understand the difference between experience and past performance. Experience reflects the offeror's capability of performing a requirement. Past performance reflects how well it has performed similar requirements. In assessing past performance, the quality of the offeror's past performance is of primary significance, not the quantity of previous contracts performed. An offeror's experience will be evaluated in the technical proposal. For further guidance on including information on experience or how experience will be evaluated refer to the technical proposal instructions and evaluation criteria.

D. The offeror may describe any quality awards or certifications that indicate the offeror possesses a high-quality process for developing and producing the product or service required. Such awards or certifications include, for example, the Malcolm Baldrige Quality Award, other government quality awards, and private sector awards or certifications(e.g., the automobile industry's QS 9000, Sematech's SSQA, or ANSI/EIA-599).

Identify which segment of the company (one division or the entire company) received the award or certification. Describe when the award or certification was bestowed. If the award or certification is over three years old, present evidence that the qualifications still apply. Information about awards will be considered in evaluation of each of the past performance subfactors described in Section M. The offeror may describe how the award relates to one or more of the subfactors.

E. No later than the date proposals are due under this solicitation (see Block 9 of Standard Form 33), send a copy to each of your four references of the "Contractor Performance Information" form attached to this solicitation. Ask each reference to complete the form and return it to the contracting officer as prescribed on the form. Completed forms from references are due 10 calendar days after the date proposals are due under this solicitation. Request that the reference please return the completed form to the contracting officer by this date. Do not ask the reference to give you a copy of the completed form or any information therefrom. Beyond that initial request, you do not need to follow up with the reference; the contracting officer will contact the reference if necessary.

F. Each offeror will be evaluated on its performance under existing and prior contracts for similar products or services. Performance information will be used for both responsibility determinations and as an evaluation factor against which offerors' relative rankings will be compared to assure best value to the government. The government will focus on information that demonstrates quality of performance relative to the size and complexity of the procurement under consideration. The "Contractor Performance Information" form identified in Section J will be used to collect this information. References other than those identified by the offeror may be contacted by the Government with the information received in the evaluation of the offeror's past

performance.

L.13. 3452.232-71

INCREMENTAL FUNDING (AUG 1987)

(a) Sufficient funds are not presently available to cover the total cost of the complete project described in this solicitation. However, it is the Government's intention to negotiate and award a contract using the incremental funding concepts described in the clause titled 'Limitation of Funds' in FAR 52.232-22. Under that clause, which will be included in the resultant contract, initial funds will be obligated under the contract to cover an estimated base performance period. Additional funds are intended to be allotted to the contract by contract modification, up to and including the full estimated cost of the entire period of performance. This intent notwithstanding, the Government will not be obligated to reimburse the contractor for cost incurred in excess of the periodic allotments, nor will the contractor be obligated to perform in excess of the amount allotted.

(b) The Limitation of Cost clause in FAR 52.232-20 shall supersede the Limitation of Funds clause in the event the contract becomes fully funded.

REQUIREMENTS FOR COST OR PRICING DATA

OR INFORMATION OTHER THAN COST

PRICING DATA (OCT 1997)--ALTERNATE IV (OCT 1997)

(a) Submission of cost or pricing data is not required.

(b) Provide information described below:

As part of its business proposal, the offeror shall submit information to help the contracting officer determine the reasonableness of the proposed price and assess cost realism. The offeror should include at least the following information:

The estimated cost and fee (if any) for the base contract period and for any option periods;
Salaries of proposed key personnel;
Number of hours proposed for key personnel;
Indirect cost rates used in preparing the cost proposal;
Any property or equipment costing over \$1,000 proposed for purchase; and
Significant assumptions used, such as inflation rates for subsequent years.

The offeror may use the format indicated in Table 15-2 of 15.408 or its own format for this information. The offeror may include other information to show that the offeror can complete the work at the proposed price.

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

The contracting officer reserves the right to require cost or pricing data if the contracting officer subsequently determines that none of the exceptions under FAR 15.403-1 apply and that the contract amount exceeds the threshold at FAR 15.403-4(a)(1).

L.15. 52.215-1 I

INSTRUCTIONS TO OFFERORS--COMPETITIVE ACQUISITION (OCT 1997)--ALTERNATE I (OCT 1997)

(a) Definitions. As used in this provision--

"Discussions" are negotiations that occur after establishment of the competitive range that may, at the Contracting Officer's discretion, result in the offeror being allowed to revise its proposal.

"In writing" or "written" means any worded or numbered expression which can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

"Proposal modification" is a change made to a proposal before the solicitation's closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

"Proposal revision" is a change to a proposal made after the solicitation closing date, at the request of or as allowed by a Contracting Officer as the result of negotiations.

"Time," if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) Amendments to solicitations. If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).

(c) Submission, modification, revision, and withdrawal of proposals.
(1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, proposals and modifications to proposals shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror. Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i) and (c)(1)(ii) of this provision.

(2) The first page of the proposal must show--

- (i) The solicitation number;
- (ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);
- (iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;

(iv) Names, titles, and telephone and facsimile numbers (and electronic addresses if available) of persons authorized to negotiate on the offeror's behalf with the Government in connection with this solicitation; and

(v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence that agent's authority, unless that evidence has been

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

previously furnished to the issuing office.

(3) Late proposals and revisions. (i) Any proposal received at the office designated in the solicitation after the exact time specified for receipt of offers will not be considered unless it is received before award is made and--

(A) It was sent by registered or certified mail not later than the fifth calendar day before the date specified for receipt of offers (e.g., an offer submitted in response to a solicitation requiring receipt of offers by the 20th of the month must have been mailed by the 15th);

(B) It was sent by mail (or telegram or facsimile, if authorized) or hand-carried (including delivery by a commercial carrier) if it is determined by the Government that the late receipt was due primarily to Government mishandling after receipt at the Government installation;

(C) It was sent by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee, not later than 5:00 p.m. at the place of mailing two working days prior to the date specified for receipt of proposals. The term "working days" excludes weekends and U.S. Federal holidays;

(D) It was transmitted through an electronic commerce method authorized by the solicitation and was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(E) There is acceptable evidence to establish that it was received at the activity designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers, and the Contracting Officer determines that accepting the late offer would not unduly delay the procurement; or

(F) It is the only proposal received.

(ii) Any modification or revision of a proposal or response to request for information, including any final proposal revision, is subject to the same conditions as in subparagraphs (c)(3)(i)(A) through (c)(3)(i)(E) of this provision.

(iii) The only acceptable evidence to establish the date of mailing of a late proposal or modification or revision sent either by registered or certified mail is the U.S. or Canadian Postal Service postmark both on the envelope or wrapper and on the original receipt from the U.S. or Canadian Postal Service. Both postmarks must show a legible date or the proposal, response to a request for information, or modification or revision shall be processed as if mailed late. "Postmark" means a printed, stamped, or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S. or Canadian Postal Service on the date of mailing. Therefore, offerors or respondents should request the postal clerk to place a legible hand cancellation bull's eye postmark on both the receipt and the envelope or wrapper.

(iv) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(v) The only acceptable evidence to establish the date of mailing of

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

a late offer, modification or revision, or withdrawal sent by Express Mail Next Day Service-Post Office to Addressee is the date entered by the post office receiving clerk on the "Express Mail Next Day Service-Post Office to Addressee" label and the postmark on both the envelope or wrapper and on the original receipt from the U.S. Postal Service. "Postmark" has the same meaning as defined in paragraph (c)(3)(iii) of this provision, excluding postmarks of the Canadian Postal Service. Therefore, offerors or respondents should request the postal clerk to place a legible hand cancellation bull's eye postmark on both the receipt and the envelope or wrapper.

(vi) Notwithstanding paragraph (c)(3)(i) of this provision, a late modification or revision of an otherwise successful proposal that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(vii) Proposals may be withdrawn by written notice or telegram (including mailgram) received at any time before award. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the provision entitled "Facsimile Proposals." Proposals may be withdrawn in person by an offeror or an authorized representative, if the representative's identity is made known and the representative signs a receipt for the proposal before award.

(viii) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office.

(4) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(5) Proposals submitted in response to this solicitation shall be in English and in U.S. dollars, unless otherwise permitted by the solicitation.

(6) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(d) Offer expiration date. Proposals in response to this solicitation will be valid for the number of days specified on the solicitation cover sheet (unless a different period is proposed by the offeror).

(e) Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall--

(1) Mark the title page with the following legend:

This proposal includes data that shall not be disclosed outside the

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

Government and shall not be duplicated, used, or disclosed--in whole or in part--for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of--or in connection with--the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets _____ and

(2) Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) Contract award. (1) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offer(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.

(2) The Government may reject any or all proposals if such action is in the Government's interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

(6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.

(7) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(8) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

(10) A written award or acceptance of proposal mailed or otherwise

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.

(11) The Government may disclose the following information in postaward debriefings to other offerors:

- (i) The overall evaluated cost or price and technical rating of the successful offeror;
- (ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;
- (iii) A summary of the rationale for award; and
- (iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

(a) Facilities capital cost of money will be an allowable cost under the contemplated contract, if the criteria for allowability in subparagraph 31.205-10(a)(2) of the Federal Acquisition Regulation are met. One of the allowability criteria requires the prospective contractor to propose facilities capital cost of money in its offer.

EVALUATION FACTORS FOR AWARD

M.1. 312-2

EVALUATION FACTORS FOR AWARD (FEB 1996)

(A) The Government will make award to the responsible offeror(s) whose offer conforms to the solicitation, has no deficiencies (as defined in FAR 15.301) and is most advantageous to the Government, cost or price and other factors considered. For this solicitation, price will be a substantial factor in source selection, however quality factors (including technical merit and past performance), considered together, are significantly more important than cost or price. The contracting officer will determine whether the difference in quality is worth the difference in cost or price.

(B) Past Performance

1. Each offeror's past performance will be evaluated based on the subfactors below. The past performance rating will be combined with the technical rating at a ratio of 36% past performance to technical to produce a combined quality rating. The relative importance of combined quality factors to cost or price is described in paragraph (A).
2. Past performance subfactors:
 - a. Quality of Product or Service - compliance with contract requirements - accuracy of reports - appropriateness of personnel - technical excellence.
 - b. Problem Resolution - anticipates and avoids or mitigates problems - satisfactorily overcomes or resolves problems - prompt notification of problems - pro-active - effective contractor-recommended solutions.
 - c. Cost Control - within budget - current, accurate and complete billings - costs properly allocated - unallowable costs not billed - relationship of negotiated costs to actual - cost efficiencies.
 - d. Timeliness of Performance - meets interim milestones - reliable - stays on schedule despite problems - responsive to technical direction - completes on time, including wrap-up and contract administration - no liquidated damages assessed.
 - e. Business Relations - effective management - use of performance-based management techniques - business-like concern for the customer's interests - effective management and selection of subcontractors - effective small/small disadvantaged business subcontracting program - reasonable/cooperative behavior - effective use of technology in management and communication - flexible - minimal staff turnover - maintains high employee morale - resolves disagreements without being unnecessarily litigious.
 - f. Customer Service - understands and embraces service and program goals - team approach with the customer - satisfaction of end users with the contractor's service - positive customer feedback - prompt responses - courteous interactions - effective escalations and referrals - initiative and proactive improvements - creative service

strategies.

Bonus Rating--Where the offeror has demonstrated an exceptional performance level in any of the above six subfactors, the contracting officer may give additional consideration for that factor. It is expected that this rating will be used in those rare circumstances when contractor performance clearly exceeds the performance level of "excellent."

3. Past performance evaluation will be based on information obtained from the awards and references listed in the offeror's proposal, other customers known to the Government, consumer protection organizations, and others who may have useful and relevant information. Information will also be considered regarding any major subcontractors, and key personnel records. The currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance will be considered. The contracting officer will give greater consideration to information about an offeror's past performance that the contracting officer considers either more reliable or more relevant to the effort required by this solicitation.
4. Evaluation of past performance may be quite subjective, based on consideration of all relevant facts and circumstances. It will include consideration of the offeror's commitment to customer satisfaction and will include conclusions of informed judgement.
5. An offeror will be given an opportunity to discuss adverse past performance information, if the offeror has not had a previous opportunity to comment on the information. The contracting officer may review recent contracts to ensure that corrective measures raised in discussions have been implemented. Prompt corrective action in an isolated instance might not outweigh an overall negative trend.
6. If no relevant information on past performance is available for an offeror, the offeror will not be evaluated favorably or unfavorably credit.

(C) Technical Evaluation Criteria: In accordance with the technical evaluation criteria, technical solutions that exceed any mandatory minimums will be given appropriate evaluation credit.
