Jamestown Settlement

Discover the Start of Colonial America

Experience the beginning and end of colonial America, by making Jamestown Settlement and Yorktown Victory Center part of your students' Williamsburg area tour! At Jamestown Settlement and the Yorktown Victory Center, your students will love discovering the sights and sounds of colonial history, where the seeds of the nation were planted and harvested. And you'll love the variety of standards-based education programs we offer – all taught by trained museum educators and adapted to your grade level.

Thirteen years before the Pilgrims landed in Massachusetts, a group of 104 English men and boys established America's first permanent English settlement on the banks of the James River in Virginia. Their goal of making a profit from New World resources for Virginia Company investors quickly took a back seat to pure survival as they confronted the harsh realities of life in their new colony.

Today at Jamestown Settlement, a museum of 17th-century Virginia, your students can:

- Witness the convergence of three cultures in Virginia – Powhatan Indian, English and west central African – as they view our introductory film *1607: A Nation Takes Root*.
- Explore expansive exhibition galleries, including rare period artifacts and other primary sources, to learn about the establishment of Jamestown as a business venture, the impact of European colonization on Powhatan Indian culture, and the origins of the first known Africans in Virginia.
- Scrape a deer hide, grind corn, examine stone and bone tools, weave natural fibers into cordage and step into a reed-covered house in the re-created Powhatan Indian village.
- Board one of three re-created 1607 ships to squeeze into a sailor's bunk, steer the ship with a whipstaff or tiller, and experience life aboard ship during the four-and-a-half month voyage to Virginia.
- Try on armor, watch a blacksmith forge iron tools, or role play the first meeting of the Virginia General Assembly of 1619 in the re-created James Fort.
- Participate in hands-on tours and programs.

Located adjacent to the original site, Jamestown Settlement's expansive living-history programming will immerse your students in 17th-century colonial American history.

Mission

The Jamestown-Yorktown Foundation, an educational institution of the Commonwealth of Virginia, shall foster through its living-history museums – Jamestown Settlement and Yorktown Victory Center – an awareness and understanding of the early history, settlement, and development of the United States through the convergence of American Indian, European, and African cultures and the enduring legacies bequeathed to the nation.

By combining programs at both museums, your students will experience two vital chapters in their nation's history!

explore 1781

Yorktown Victory Center

Witness the End of Colonial America

The Yorktown Victory Center continues to welcome visitors as it undergoes a transformation over the next few years into the American Revolution Museum at Yorktown® with a reconfigured site plan, a new facility featuring expanded, vibrant gallery exhibits, and enhanced interpretive programming in outdoor re-creations of a Continental Army encampment and Revolution-era farm.

On October 19, 1781, the decisive military campaign of the American Revolution culminated with the British surrender to combined American and French forces under the command of General George Washington. The Siege of Yorktown effectively ended the six-year struggle for American independence and set the stage for a new government — and nation.

Today at Yorktown Victory Center, a museum of the American Revolution, your students can:

- View a rare 1776 Declaration of Independence broadside in the exhibition galleries as they investigate political and economic issues that led to war between the colonies and Great Britain and how this radical document inspired decisive action.
- View the Revolution through eyewitness accounts of people who were there, learn about the three-week siege that ensured American independence, and trace the final steps in America's journey to nationhood with the development of the Constitution.
- Try on a military coat, participate in a musket drill, see how the army surgeon treated wounds and illnesses, and investigate soldiers' sleeping quarters and supply tents at the re-created Continental Army encampment.
- Weed and water crops, break flax, smell the pungent odor of drying tobacco, and experience 18th-century home life as they tour a re-created Tidewater Virginia farm complete with house, separate kitchen, tobacco barn, gardens and field crops.
- Participate in hands-on tours and programs.

Located within musket range of the battlefield, Yorktown Victory Center programs invite your students to step into the boots of ordinary soldiers and witness the Revolution from their perspective!

Jamestown Settlement and Yorktown Victory Center are essential elements of any Williamsburg tour and can easily fit into most itineraries. Allow a minimum of two-and-a-half-hours at each museum plus additional time for meals and gift shops, which feature an excellent selection of educational toys and games, books, reproduction artifacts, publications and souvenirs.
