Current Trend: Support Services Waivers

Characterized By:

- **A low dollar cap on the total amount of HCBS Waiver services authorized for each beneficiary**
- **Flexibility in the selection of services within the dollar cap**
- **Expectation that unpaid family caregivers will provide significant support to Waiver participants**

Innovations in State HCBS Waivers

- **Vermont's Section 1115 Research and Demonstration Waiver builds upon the State's Comprehensive Waiver and is a model for managing supports for participants**
- **Connecticut's HCBS Waiver is flexible in terms of individual budgeting and self-determination**
- **Washington State's four Waivers are tailored to individual needs**
- **Indiana is one of 16 states with Supports Waivers, emphasizing employment, support brokers, financial management services and person-directed goods and services**
- **Participant States' information at:**

- Where to live, with whom and which lifestyle

2. Ownership by other than the service provider

- Individual owns or rents;
- Family owns or holds lease;
- Housing cooperative owns

3. Individual Support

- Focus on individual's changing needs over time;
- Individualized support plan or support contract

Measuring States' Commitments to I/DD Services

FISCAL EFFORT is a ratio that can be utilized to rank states according to the proportion of their total statewide personal income devoted to the financing of I/DD services.

FISCAL EFFORT is defined as a state's spending for I/DD services per \$1,000 of total statewide personal income.

There is a 600% variance in the 50 states in I/DD Fiscal Effort
