

March 6, 2009

Neil M. Barofsky Special Inspector General – TARP 1500 Pennsylvania Avenue, NW, Suite 1064 Washington, D.C. 20220

Dear Special Inspector General Barofsky,

AMB Financial Corporation (the Company), the holding corporation for American Savings, FSB (the Bank), filed a TARP Capital Purchase Program Application with the US Treasury through the Office of Thrift Supervision on November 12, 2008. The US Treasury approved the application and the funds in the amount of \$3,674,000 were dispersed to the Company on January 30, 2009. (See attachment A)

Upon receipt of the \$3,674,000 of TARP funds, the full amount was immediately deposited into the Company's money market account at the Bank. On February 5, 2009, \$2,674,000 was transferred to the Bank as a capital contribution, and \$1,000,000 was retained at the Company to cover future dividend payments specifically related to the TARP preferred stock. This activity is illustrated in the Company's January and February money market statements and the Bank's general ledger journal transaction sheet. (See attachments D, E and F)

The Company's anticipated use of TARP funds remains unchanged. The Company, through the Bank, intends to continue its prudent lending activities through its existing branch structure. At the same time, The Bank will purchase mortgage-backed securities and debt from government-sponsored entities such as FNMA and FHLMC, to the extent we are unable to invest the TARP funds in prudent loans. For the month of February, we closed \$4,900,000 of loans compared to \$2,400,000 for the month of January.

Prior to receiving TARP funds, the Bank was considered "well capitalized" by regulatory standards. Core Capital was 8.57% and Risk-based Capital was 13.01% on September 30, 2008. Based on the September 30 figures, after the injection of TARP funds, Core Capital rose to 9.94% and Risk-based Capital increased to 15.03%. (See attachment G)

Despite this level of capital, based on the current economic environment as well as the cash flow requirements of our borrowings, our board previously felt that our growth should be limited due to our capital level. The infusion in capital allows the Bank to increase its lending activity, to the extend demand is present in our marketplace. At the same time, the excess capital has allowed the Bank to introduce its new American Hope Program. (See attachments H and I) The American Hope Program allows the Bank to work with its mortgage customers to avoid foreclosure and help them remain in their primary residence while they attempt to get back on their feet. The Bank believes that it is imperative to bring relief to responsible homeowners struggling to make their mortgage payments, while preventing neighborhoods and communities from suffering the negative spillover effects of foreclosure, such as lower housing prices, increased crime and higher taxes.

The Board of Directors and the management team of the Company are aware of the compensation restrictions associated with the TARP program. Only two officers of the Company (President/ CEO Michael Mellon and Vice President/ CFO Steven Bohn) are compensated in excess of \$100,000 per year with neither officer compensated in excess of \$180,000. We note that currently our only discretionary compensation is an annual bonus plan and that, due to the recent difficult economic environment, neither officer received a cash bonus in 2007 or 2008.

(b) (4) The current compensation structure for the organization complies with the TARP program, and compensation breakdown for Mr. Mellon and Mr. Bohn is listed on the attached worksheet for 2008 compensation. (See attachment J)

The compensation committee of the Company is comprised of two outside directors. This committee is aware of their responsibility to review the Company's compensation structure within 90 days of receiving TARP funds to ensure that the Company's compensation plans do not encourage unnecessary and excessive risks. The committee intends to meet during the month of March 2008 to review all compensation plans in the organization. The Company does not currently utilize incentive compensation for senior executive officers that might pose unnecessary and excessive risks that threaten the value of the financial institution during the period that the Treasury holds an equity position in the Company. Finally, please note that, although we are a private company, we plan to include a "say on pay" proposal in our proxy statement for this year's annual meeting of stockholders.

I certify that, to the best of my knowledge, all of the statements made herein are in all material respects, accurate [subject to the requirements and penalties set forth in Title 18, U.S.C., Section 1001]

Please contact me a (b) (6) if you have any comments or require additional information

Sincerely,

Michael Mellon President AMB Financial Corp.

# American Savings, FSB American Hope Program March 2009

American Savings, FSB understands sometimes situations occur that make it difficult for you to make your monthly mortgage payments. Our American Hope Program was specifically created to help our customers who are experiencing these hardships.

To determine the need for hardship assistance, start with the following questions:

- Are you unemployed?
- Have you had a change in jobs that has caused a decrease in your income?
- Have you had to relocate due to loss of employment or a job transfer?
- Is illness affecting your ability to make your current mortgage payments?
- Has divorce affected your ability to make mortgage payments?
- Has there been a recent death in the family?
- Have you been impacted by a natural disaster?

If you answered "Yes" to any of the above questions, we may be able to assist you!

# Your Hardship Assistance Options

#### Options to Keep Your Home

#### Forbearance

A forbearance plan may be available if your financial situation is temporary and you will be able to make your mortgage payments within the near future, we may be able to approve a temporary forbearance – either delayed payments or reduced payments, or both – to allow you time to bring the account current.

#### **Repayment Plan**

A repayment plan may be available if you can make your regular payment plus an additional amount per month until the loan is brought current. This option may follow a temporary forbearance.

#### Modification

A modification plan may be available by modifying the terms of your loan in order to make the monthly payment affordable.

## Options to Sell Your Home

#### Short Sale

If you can no longer afford your home and the property's sales value is not sufficient to pay your loan in full, we may be able to accept less than the full payoff amount as settlement.

#### Loan Assumption

If you have a qualified buyer who would like to assume your mortgage loan, we may allow this transfer of ownership, even if your mortgage/deed of trust states that the loan is non-assumable.

#### Deed-in-Lieu

If you have had the property listed for sale at fair market value for 90 days with no activity, we can review the account for a deed-in-lieu. If you qualify, we would agree to accept title to the property by warranty deed as settlement of the account.

**Please note:** The approval of a hardship option will be based on the information submitted in the Hardship Assistance Package.

Please review the available options and then call our American Hope Program Team to request assistance. In order for American Savings, FSB to review your loan, you must provide us with some basic information.

Once you have reviewed our American Hope Program options please call to make an appointment with one of our American Hope Program specialists. The following supporting documentation will be needed in order to assist with your American Hope Program review:

- 2 recent consecutive pay stubs (or profit and loss statement), or
- 2 consecutive months of bank statements, or
- 2 consecutive tax returns, and

Part E General Questions (continued)

Please try to complete as many of the questions as possible. Additional information may be necessary and American Savings will need to speak with you during the assistance process.

Briefly explain the reason why you are behind on your mortgage payment(s) or are in imminent danger of default. (If needed, attach a separate sheet of paper for explanation.)

What is your proposal for repaying the arrearage?

#### Authorization to Release Information

In addition to this financial statement and its attachments, there may be times when additional information is needed to review the situation thoroughly, such as:

- 1) ordering credit reports
- 2) verifying bank accounts in this disclosure
- 3) obtaining any other information necessary to properly analyze this request

I acknowledge that everything I have stated in this disclosure is true and factual to the best of my ability. I also agree that if it is determined that I have provided information that is misrepresented and thereby caused actions to be taken which would not have been taken had the true facts been known, I shall be liable for any and all losses suffered by the lender of my mortgage loan.
