

Emergency Kits

Preparedness Empowers You It saves lives, property, and time.

Emergencies happen, often with little or no notice. By taking action beforehand you can be prepared for any emergency.

Be Ready Navy!
I am. Are you?

To fully prepare your family for an emergency, create one or more emergency kits well in advance of a crisis that include enough supplies for at least three days. If you live in a disaster-prone area (hurricanes, floods, earthquakes) consider extending your capability to five days. Throughout the year, your kit should expand and evolve depending on your family's needs, the season, and the situation.

Because emergencies can happen with little to no advance notice, you may need to evacuate quickly and may not have time to gather or shop for supplies. It is recommended that you not only have kits at home, but portable versions that you can maintain in your car or at work. These kits will enable you and your family to respond to an emergency quickly and will be useful whether you have to shelter in place or evacuate.

What to Put in Your Basic Home Kit

Necessary

- Water—at least one gallon per person per day for at least three days
- Food—nonperishable food to support everyone in the household for at least three days (*Include canned goods with low salt and high liquid content.*)
- Manual can opener
- First aid kit
- Prescription medications—enough for at least three days
- Dust masks or cotton t-shirts for every member of the household to help filter the air
- Personal sanitation supplies—items such as moist towelettes (*one container for every two people in the household*), garbage bags, and plastic ties
- Flashlight—one flashlight for every two people in the household

- Battery-powered or hand-crank radio
- All-hazards NOAA (*National Oceanic and Atmospheric Administration*) weather radio
- Extra batteries—sizes and quantities based on flashlights, radios, and other items in kit
- Money (*at a minimum, \$100 in local currency, small denomination bills*)
- Wrench or pliers for turning off utilities
- Local maps and your family emergency plan
- Your command muster information
- Important personal and financial documents—printed copies or electronic copies on a durable storage media such as a thumb drive and stored in waterproof container

Additional

- Infant formula—enough for at least three days
- Diapers—enough for at least three days
- Food and water for your pet—enough for at least three days
- Items for individuals with special needs, such as wheelchair batteries or other medical equipment or supplies
- Paper plates, paper cups, plastic utensils, paper towels
- Disinfectant
- Matches in a waterproof container
- Whistle to signal for help
- Sturdy shoes
- Hats and gloves
- Sleeping bag or other weather-appropriate bedding for each person
- A weather-appropriate change of clothes for each person

Emergency Kits

Additional (Continued)

- Coats, jackets, and rain gear
- Fire extinguisher
- Paper and pencil
- Books, games, puzzles, toys, and other activities for children
- Any items necessary for a specific type of disaster and to assist you during electricity, gas, water, and sewage outages. Additionally, you may want to consider having supplies for sheltering for up to two weeks.

Portable Emergency Kit

- Take this kit with you when you are ordered to evacuate.
- Place items in a designated area that will be easily accessible in the event of an emergency.
- Make sure every member of your family knows where the kit is.
- If you are required to shelter in place, keep this kit with you.

Workplace Emergency Kit

- This kit should be portable enough to be maintained at your workplace; you may have to evacuate from work or shelter up to 24 hours.
- Make sure you include comfortable walking shoes in case you have to walk long distances.
- This kit should include, at a minimum, food, water, and a first-aid kit.
- Make sure you include your family's communications plan.

Vehicle Emergency Kit

- In the event that you are stranded while driving, keep this kit in your vehicle at all times.
- This kit should contain at a minimum: food, water, flashlights and extra batteries, first aid kit and necessary medications, signal flares, repair tools, portable AM/FM radio, seasonal items (coat, rain gear, engine fluids, shovel, ice scraper, warm clothes, gloves), comfortable/sturdy shoes, and blankets or sleeping bags. Also consider: cell

- phone and phone charger, reflective triangle, and baby formula and diapers if you have a small child.
- Make sure you include your family's communications plan.

Maintaining your Kits

- Make sure to constantly evaluate your kit and their relevance to the threats in your area.
- Throw away and replace any expired or damaged medications, food, or water.
