

contractors at \$3.5 million in annual receipts, either for the contractor's last fiscal year or as averaged over his last 3 fiscal years. In addition, special trade construction contractors, who are already receiving surety bond guarantee assistance and now have annual receipts in excess of \$3.5 million, will be eligible so long as their annual receipts do not exceed their old size standard of \$5 million. Furthermore, the Agency proposed that the \$3.5 million size standard be applied within the surety bond guarantee program to service contractors needing the program's assistance.

Since that time, the Agency has received three comments. Two of these favored, the other was against, the proposed size standard change. The negative comment was received from the Associated General Contractors of America which stated that: "The increase in the limit would permit more small firms, which lack the necessary expertise to secure bonding on the open market, to go into direct competition, buttressed with this SBA-created advantage, with self-sustaining contracting firms of similar size."

The SBA's position is that the increased size standard (1) provides a uniform measure as to what size of construction contractors are eligible for surety bond guarantee assistance; and, (2) the program provides the opportunity for many contractors, including minority contractors, to bid and (in many cases) obtain contracts, whereas before the SBA program's advent, they were totally excluded. The economic and social benefits of aiding the small business sector in general, and construction industry, individual contractors, small surety companies, and minorities in particular, weigh heavily in reflecting the overall soundness of the program. It is noted, also, that no objections to this proposal were received from any individual contractors, sureties, or any surety industry trade associations.

Accordingly, 13 CFR, part 121, is amended as follows:

§ 121.3-15 Definition of small business for the purpose of surety bond guarantee assistance.

A small business concern for the purpose of surety bond guarantee assistance is a concern that qualifies as a small business under § 121.3-10, with the following exceptions:

(a) *Construction.* Any construction concern (general and special trade) is small if its annual receipts for its preceding fiscal year or its average annual receipts for its preceding three fiscal years do not exceed \$3.5 million. Provided, that those special trade contractors now receiving surety bond guarantee assistance and having annual receipts in excess of \$3.5 million, will be

permitted to continue receiving surety bond guarantee assistance until such time as their annual receipts (or as averaged over the contractor's last 3 fiscal years) exceed \$5 million.

(b) *Service.* Any concern performing a contract for services (including but not limited to services set forth in Division I, Services, of the Standard Industrial Classification Manual) is classified as small if its annual receipts for its preceding fiscal year or its average annual receipts for its preceding 3 fiscal years do not exceed \$3.5 million.

CHAPTER II—CIVIL AERONAUTICS BOARD

[EDR-190C, PSDR-27C, Docket 22630,
Dated: August 8, 1978]

PART 221—CONSTRUCTION, PUBLICATIONS, FILING AND POSTING OF TARIFFS OF AIR CARRIERS AND FOREIGN AIR CARRIERS

PART 399—STATEMENTS OF GENERAL POLICY

Rules Pertaining to Group Fares on Scheduled Services; Notice of Termination of Rulemaking

AGENCY: Civil Aeronautics Board.

ACTION: Termination of rulemaking in docket 22630; EDR-190, PSDR-27.

SUMMARY: The Civil Aeronautics Board is terminating an inactive rulemaking proceeding involving amendments to the conditions relating to affinity group fares. This action is being taken on the Board's initiative, to close this inactive proceeding.

DATES: Adopted: August 8, 1978.

FOR FURTHER INFORMATION CONTACT:

Daniel Prywes, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5437.

SUPPLEMENTAL INFORMATION: In EDR-183, May 8, 1970, docket 22174, the Board proposed substantial revisions and extensions of its charter regulations aimed at preventing practices which had allegedly undermined

the charter concept. Objections were made that unless affinity group fares were brought under the same set of regulations as affinity charters, adoption of the proposals in EDR-183 would result in a substantial shift of affinity charter passengers to affinity group fare services provided by the scheduled carriers. In order to prevent an undue competitive advantage for the route carriers, the Board initiated the rulemaking in EDR-190, PSDR-27, October 6, 1970, docket 22630,¹ which would have provided that the conditions relating to affinity group fares should conform to the Board's regulations governing pro rata charters.

However, in ER-659, adopted January 29, 1971, the Board decided to defer action on the restrictive proposals in EDR-183 dealing with affinity charters. Since the Board failed to make the affinity charter regulations more restrictive, as had been anticipated, the need for preventing a competitive imbalance has disappeared.

Because the underlying basis for EDR-190 no longer exists, the Board is formally terminating this inactive proceeding.

Accordingly, the Civil Aeronautics Board terminates the proceeding in docket 22630; EDR-190, PSDR-27.
