

Data Dictionary (NEH Grants)

AppNumber [string]: Unique identifier. The official tracking number assigned to each application and listed in all NEH reports.

ApplicantType [string]: One-character indicator of applicant type (I = individual, O = organization).

Firstname [string]: Grantee or project director's first name.

Middlename [string]: Grantee or project director's middle name or initial.

Lastname [string]: Grantee or project director's surname.

NameSuffix [string]: Grantee or project director's suffix (e.g. Jr., Sr., III).

Institution [string]: Name of institution with which grantee/project director is affiliated. If the grantee/project director is not affiliated with an institution, the institution is listed as "Unaffiliated Independent Scholar."

InstCity [string]: City of institution. NULL if project director/grantee is unaffiliated.

InstState [string]: State of institution. NULL if project director/grantee is unaffiliated.

InstPostalCode [string]: Postal code of institution. NULL if project director/grantee is unaffiliated.

InstCountry [string]: Country of institution. NULL if project director/grantee is unaffiliated.

CouncilDate [string]: Date of National Council for the Humanities meeting at which the grant was reviewed prior to the NEH Chairman's decision.

YearAwarded [unsignedShort]: Fiscal Year of grant.

ProjectTitle [string]: Title of project. Provided by applicant.

Category [string]: Field of project. Selected by applicant from a list of 100+ disciplinary categories.

Program [string]: NEH program through which grant was made.

Division [string]: NEH division through which grant was made.

ApprovedOutright [decimal]: Approved amount (outright funds). (Outright funds are not contingent on additional fundraising.)

ApprovedMatching [decimal]: Approved amount (matching funds). (Federal matching funds require a grantee to secure gift funds from third parties before federal funds are awarded. Except for Challenge Grants, NEH matching awards are made on a one-to-one basis.)

AwardOutright [decimal]: Amount actually awarded (outright funds).

AwardMatching [decimal]: Amount actually awarded (matching funds).

OriginalAmount [decimal]: Original amount of grant (minus any grant supplements).

BeginGrant [dateTime]: Beginning of grant period.

EndGrant [dateTime]: End of grant period.

ProjectDesc [string]: Project description supplied by applicant/grantee.

ToSupport [string]: NEH description (for annual report, press releases, etc.)

SuppCount [unsignedByte]: Number of supplements to original grant.

SupplementAmount [decimal]: Total amount of supplementary funds (outright + matching). A supplement is a type of award that provides an increase in funding in addition to the amount originally approved by the Chairman.

Supplement [complexType]: An optional element

SupplementDate [dateTime]: Date supplement was made.

OutrightAmount [decimal]: Amount of supplement (outright funds).

MatchAmount [decimal]: Amount of supplement (matching funds).
