

CONTENTS

Executive Summary	viii
--------------------------------	-------------

Chapter 1 Introduction	1
-------------------------------------	----------

Developing the <i>Dietary Guidelines for Americans, 2010</i>	2
A Roadmap to the <i>Dietary Guidelines for Americans, 2010</i>	4
Sources of Information	5
Importance of the Dietary Guidelines for Health Promotion and Disease Prevention	5
Uses of the <i>Dietary Guidelines for Americans, 2010</i>	6
Development of Educational Materials and Communications	6
Development of Nutrition-Related Programs.....	6
Development of Authoritative Statements.....	7

Chapter 2 Balancing Calories to Manage Weight	8
--	----------

Key Recommendations	9
An Epidemic of Overweight and Obesity.....	9
Contributing to the Epidemic: An Obesogenic Environment	10
Current Dietary Intake	11
Calorie Balance: Food and Beverage Intake.....	13
Understanding Calorie Needs	13
Carbohydrate, Protein, Fat, and Alcohol	14
Does Macronutrient Proportion Make a Difference for Body Weight?	
Individual Foods and Beverages and Body Weight	15
Placing Individual Food Choices Into an Overall Eating Pattern	16
Calorie Balance: Physical Activity	17
Principles for Promoting Calorie Balance and Weight Management	17
Improving Public Health Through Diet and Physical Activity	19

Chapter 3 Foods and Food Components to Reduce	20
--	-----------

Key Recommendations	21
Supporting the Recommendations	21
Sodium.....	21
Fats	24
Saturated Fatty Acids	
<i>Trans</i> Fatty Acids	
Cholesterol	
Calories From Solid Fats and Added Sugars	27
Solid Fats	
Added Sugars	
Why Solid Fats and Added Sugars Are a Particular Concern	
Refined Grains	29
Alcohol	30
Chapter Summary	32

Chapter 4 Foods and Nutrients to Increase.....	33
Key Recommendations	34
Recommendations for Specific Population Groups	34
Supporting the Recommendations	35
Vegetables and Fruits	35
Grains.....	36
Whole Grains	
Milk and Milk Products	38
Protein Foods	38
Seafood	
Oils	39
Nutrients of Concern	40
Potassium	
Dietary Fiber	
Calcium	
Vitamin D	
Additional Nutrients of Concern for Specific Groups	
Chapter Summary	42
Chapter 5 Building Healthy Eating Patterns.....	43
Key Recommendations	43
Research Informs Us about Healthy Eating Patterns	44
Research on Dietary Approaches to Stop Hypertension (DASH)	44
Research on Mediterranean-Style Eating Patterns	44
Research on Vegetarian Eating Patterns.....	45
Common Elements of the Healthy Eating Patterns Examined	45
Principles for Achieving a Healthy Eating Pattern	46
Focus on Nutrient-Dense Foods	46
Remember that Beverages Count.....	47
Follow Food Safety Principles	48
Consider the Role of Supplements and Fortified Foods.....	49
Putting the Principles for a Healthy Eating Pattern Into Action	50
USDA Food Patterns	50
Vegetarian Adaptations of the USDA Food Patterns	52
DASH Eating Plan	53
Chapter Summary	53
Chapter 6 Helping Americans Make Healthy Choices	55
A Call to Action	57
Ensure that All Americans Have Access to Nutritious Foods and Opportunities for Physical Activity	57
Facilitate Individual Behavior Change Through Environmental Strategies	58
Set the Stage for Lifelong Healthy Eating, Physical Activity, and Weight Management Behaviors.....	58
Chapter Summary	59
Resource List	59

Appendices

Appendix 1 Guidance for Specific Population Groups.....	61
Appendix 2 Key Consumer Behaviors and Potential Strategies for Professionals to Use in Implementing the 2010 Dietary Guidelines.....	62
Appendix 3 Food Safety Principles and Guidance for Consumers.....	69
Appendix 4 Using the Food Label to Track Calories, Nutrients, and Ingredients.....	73
Appendix 5 Nutritional Goals for Age-Gender Groups, Based on Dietary Reference Intakes and Dietary Guidelines Recommendations.....	76
Appendix 6 Estimated Calorie Needs per Day by Age, Gender, and Physical Activity Level (Detailed)	78
Appendix 7 USDA Food Patterns.....	79
Appendix 8 Lacto-Ovo Vegetarian Adaptation of the USDA Food Patterns.....	81
Appendix 9 Vegan Adaptation of the USDA Food Patterns	82
Appendix 10 The DASH Eating Plan at Various Calorie Levels.....	83
Appendix 11 Estimated EPA and DHA and Mercury Content in 4 Ounces of Selected Seafood Varieties.....	85
Appendix 12 Selected Food Sources Ranked by Amounts of Potassium and Calories per Standard Food Portion.....	87
Appendix 13 Selected Food Sources Ranked by Amounts of Dietary Fiber and Calories per Standard Food Portion	88
Appendix 14 Selected Food Sources Ranked by Amounts of Calcium and Calories per Standard Food Portion.....	89
Appendix 15 Selected Food Sources Ranked by Amounts of Vitamin D and Calories per Standard Food Portion.....	90
Appendix 16 Glossary of Terms	91

List of Tables

Table 2-1 Obesity in America...Then and Now	10
Table 2-2 Top 25 Sources of Calories Among Americans Ages 2 Years and Older, NHANES 2005-2006.....	12
Table 2-3 Estimated Calorie Needs per Day by Age, Gender, and Physical Activity Level.....	14
Table 2-4 Recommended Macronutrient Proportions by Age.....	15
Table 2-5 2008 Physical Activity Guidelines	18
Table 5-1 Eating Pattern Comparison: Usual U.S. Intake, Mediterranean, DASH, and USDA Food Patterns, Average Daily Intake at or Adjusted to a 2,000 Calorie Level.....	51
Table 5-2 USDA Food Patterns—Food Groups and Subgroups	52
Table 5-3 Average Daily Amounts in the Protein Foods Group in the USDA Food Pattern at the 2,000 Calorie Level and its Vegetarian Adaptations	53

List of Figures

Figure 3-1 Estimated Mean Daily Sodium Intake, by Age-Gender Group, NHANES 2005-2006	22
Figure 3-2 Sources of Sodium in the Diets of the U.S. Population Ages 2 Years and Older, NHANES 2005-2006.....	22
Figure 3-3 Fatty Acid Profiles of Common Fats and Oils.....	25
Figure 3-4 Sources of Saturated Fat in the Diets of the U.S. Population Ages 2 Years and Older, NHANES 2005-2006.....	26
Figure 3-5 Sources of Solid Fats in the Diets of the U.S. Population Ages 2 Years and Older, NHANES 2003-2004.....	28
Figure 3-6 Sources of Added Sugars in the Diets of the U.S. Population Ages 2 Years and Older, NHANES 2005-2006.....	29
Figure 3-7 Sources of Refined Grains in the Diets of the U.S. Population Ages 2 Years and Older, NHANES 2003-2004.....	30
Figure 4-1 Three Ways to Make at Least Half of Total Grains Whole Grains.....	37
Figure 5-1 How Do Typical American Diets Compare to Recommended Intake Levels or Limits?.....	46
Figure 5-2 Examples of the Calories in Food Choices that are not in Nutrient- Dense Forms and the Calories in Nutrient-Dense Forms of these Foods.....	47
Figure 6-1 A Social-Ecological Framework for Nutrition and Physical Activity Decisions.....	56
