Our Mission

Patient Access Network helps underinsured patients access needed medications through co-payment assistance.

Helping Underinsured Patients

Patient Access Network helps commercially and federally insured patients with copayment obligations associated with their healthcare treatments. In just six years, Patient Access Network has helped over 80,000 patients by providing nearly \$119 million in financial assistance.

For underinsured patients it is nearly impossible to pay for life-saving medications without PAN's assistance. PAN's impact is best reflected in the countless stories from patients who report that receiving assistance from PAN has reduced their stress, increased their physical activity and improved their quality of life. Our patient Mark from North Carolina told us, "Living on a fixed income I really had a problem, because I take 16 different drugs a day." For many patients like Mark, just a little assistance makes the difference between the healthy life each patient deserves and one of uncertainty about the future.

PAN provides individual grants of \$1,500 to \$10,000 annually to cover co-payments, deductibles, and co-insurance for underinsured patients.

To apply for PAN assistance or to learn more, call toll-free **1-866-316-PANF (7263)** or visit us at www.PANfoundation.org.

Partnering with Healthcare Providers

PAN believes that good relationships with physicians are essential to providing quality assistance to underinsured patients. PAN's Provider Portal makes it quick and easy for doctors' offices to submit patient enrollment and verify with an electronic signature, check the status of patient accounts, and process claims 24 hours a day, 7 days a week. By using PAN's Provider Portal doctors can focus more on providing quality care to patients rather than time-consuming paperwork.

"Often patients contemplate not getting treatment. Working with PAN has given us a speedy option in helping these patients get the financial assistance needed so they can start their treatment quickly."

- Jo Hancock, South Carolina Oncology Associates

How You Can Help

Each year, PAN depends on the generosity of our donors: individuals and corporations, pharmaceutical companies, and patient advocacy groups. PAN's commitment to efficiency keeps our administrative costs low, ensuring the maximum benefit to our patients. Our fundraising efforts continue year-round, and contributions are tax deductible and may be designated for specific disease funds.

To learn more about Patient Access Network, please call **202-384-1474** or visit us online at www.PANfoundation.org.

"PAN has helped me live rather than merely exist."

- Susan from Texas
