Note: The rows of the table provide revenue by level of government, mode of transportation and revenue raising instruments. The columns provide the allocation of transportation revenue classified into transportation and non-transportation purposes. Transportation uses are further provided by mode of transportation and the non-transportation portion are divided into revenue directed to the general fund, and revenue for all other uses.

Notes: Local government outlays for highway are not included in 2007.

Federal expenditure includes direct federal spending, excluding grants to state and local governments.

State and local expenditure includes outlays from all sources of funds including funds from federal grants

Notes: Local government outlays for highway are not included in 2007.

Expenditure includes outlays from all sources of funds including own source revenue, supporting revenue, funds from federal grants, and borrowing. It does include outlays for interest on debt, but not debt retirement.

Notes: Local government outlays for highway are not included in 2007.

Expenditure includes outlays from all sources of funds including own source revenue, supporting revenue, funds from federal grants, and borrowing.

Expenditure does include outlays for interest on debt, but not debt retirement.
