SUPPLEMENTARY INFORMATION:

A. Purpose

Pursuant to section 3506(c)(2)(A) of the PRA, GSA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic,

mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, GSA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that GSA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for GSA?

You may find the following suggestions helpful for preparing your comments.

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by GSA, be sure to identify the ICR title on the first page of your response. You may also provide the **Federal Register** citation.

Data.gov is inspired by the President's program for "Open Government" and "Transparency". In response to the President's direction to improve the transparency of government, the Federal Chief Information Officer (CIO) Council created a Web site/portal that improves public access to a wide variety of U.S. Government data. Data.gov is a public-friendly Web site that provides descriptions of the federal datasets, information on how to access the datasets, points of contact information, metadata information, interactive datasets, "Communities" areas centered on specific topics, and links to publicly accessible applications that leverage the datasets. This information collection request is being submitted in order to fulfill the public feedback aspects of this important initiative. Data.gov visitors will be provided opportunities to provide feedback and ratings in the spirit of the President's open government and transparency initiative. Examples of feedback mechanisms are:

- (1) A five-star rating system to give visitors information about which datasets other visitors found most useful and interesting on the Data.gov Web page,

(2) A "Suggest Other Datasets" entry page for the public to submit ideas for datasets with an optional contact email address provided for those visitors wishing to identify themselves,

(3) A "Contact Us" entry page with an optional contact email address for those visitors wishing to identify themselves,

(4) Pages for visitors to advise how they leverage the datasets in new and different ways to build applications, conduct analysis, and perform research,

(5) Pages for visitors to rate the benefit of the reported new solutions, etc.
