

**Table 1145. Telecommunications Industry—Carriers and Revenue: 2000 to 2008**

[Revenue in millions of dollars (292,762 represents \$292,762,000,000). Based on annual Telecommunications Reporting Worksheets (FCC Form 499-A) filed by telecommunications providers. Revenues are categorized as those billed to universal service contributors for resale (carrier's carrier revenues); and, those billed to telecommunication providers with annual contributions less than \$10,000 and end users (end user revenues). Does not include any revenues, such as from Internet access or other information services, customer premises equipment, inside wiring, or published directories, that are not assessable for contributions to universal service support and cost recovery mechanisms]
