Expedited	Simple	Complex
5.6 days	18.6 days	26.1 days

C. Brief description of why some requests are not granted.

Only 2% of all initial FOIA requests processed by this Agency were denied in full. Most of these requests were due to information dealing with Export Control, ITAR and Proprietary Commercial information.

Also, 29% of our initial FOIA requests were denied for other reasons such as "no records", referral to other agencies, withdrawn by the requester and duplicate requests.

B. Basic terms, expressed in common terminology:

FOIA/PA request - Freedom of Information Act/Privacy Act request. A FOIA request is generally a request for access to records concerning a third party, an organization, or a particular topic of interest. A Privacy Act request is a request for records concerning oneself; such requests are also treated as FOIA requests. (All requests for access to records, regardless of which law is cited by the requester, are included in this report.)

Initial Request - a request to a federal agency for access to records under the Freedom of Information Act.

Appeal – a request to a federal agency asking that it review at a higher administrative level a full denial or partial denial of access to records under the Freedom of Information Act, or any other FOIA determination such as a matter pertaining to fees.

Processed Request or Appeal – a request or appeal for which an agency has taken a final action on the request or the appeal in all respects.

Multi-track processing – a system in which simple requests requiring relatively minimal review are placed in one processing track and more voluminous and complex requests are placed in one or more other tracks. Requests in each track are processed on a first-in/first out basis. A requester who has an urgent need for records may request expedited processing (see below).

Expedited processing – an agency will process a FOIA request on an expedited basis when a requester has shown an exceptional need or urgency for the records which warrants prioritization of his or her request over other requests that were made earlier.

Simple request – a FOIA request that an agency using multi-track processing places in its fastest (nonexpedited) track based on the volume and/or simplicity of records requested.

Complex request – a FOIA request that an agency using multi-track processing places in a slower track based on the volume and/or complexity of records requested.

Grant - an agency decision to disclose all records in full in response to a FOIA request.

Partial grant - an agency decision to disclose a record in part in response to a FOIA request, deleting information determined to be exempt under one or more of the FOIA's exemptions; or a decision to disclose some records in their entireties, but to withhold others in whole or in part.

Denial - an agency decision not to release any part of a record or records in response to a FOIA request because all the information in the requested records is determined by the agency to be exempt under one or more of the FOIA's exemptions, or for some procedural reason (such as because no record is located in response to a FOIA request).

Time limits - the time period in the Freedom of Information Act for an agency to respond to a FOIA request (ordinarily 20 working days from proper receipt of a "perfected" FOIA request).

"Perfected" request - a FOIA request for records that adequately describes the records sought, which has been received by the FOIA office of the agency or agency component in possession of the records, and for which there is no remaining question about the payment of applicable fees.

Exemption 3 statute - a separate federal statute prohibiting the disclosure of a certain type of information and authorizing its with holding under FOIA subsection (b)(3).

Median number - the middle, not average, number. For example, of 3, 7, and 14, the median number is 7.

Average number - the number obtained by dividing the sum of a group of numbers by the quantity of numbers in the group. For example, of 3, 7, and 14, the average number is 8.

IV. **Exemption 3 Statutes**

D. Other statistics significant to agency:

On February 1, 2003 the world witnessed a major catastrophe that had an immediate impact on NASA's FOIA program. That day the <u>Columbia Space Shuttle</u> was lost over Texas, while returning from its mission in space. The influx of requests caused this agency to create a separate electronic reading room for documents that were responsive to those specific requests about mission STS-107 and the Space Shuttle Program. This agency received 51 requests for expeditious processing and we granted 51 of those requested actions; none were declined, most related to the Columbia Accident involving media requesters.

E. Other narrative statements describing agency efforts to improve timeliness of FOIA performance and to make records available to the:

Additional resources were added to the reviewing of responsive agency records after February 1^{st} . NASA uploaded over 210 responsive records to the agency's web site, relating to the <u>Columbia Space Shuttle</u> and its STS-107 mission. The Agency also decided to waive, on a discretionary basis, the (b)(5) exemption as applied to pre-accident records and placed these on the web site.
