

12F4 Emissions Exposure

Description

Aviation emissions contribute 50 percent less to significant health impacts and are on a trajectory for carbon neutral growth using a 2005 baseline. FY 2012 Target: TBD

Commentary (06/2012)

Continuing simulations and analysis of air quality, health and climate impacts of aircraft emissions under PARTNER and ACCRI projects.

Period Table

	Actual	Target	Target Lines - Index	Target Lines - Index Range
10/2011	No Data	No Data	---	---
11/2011	3	3	---	Green
12/2011	3	3	---	Green
01/2012	3	3	---	Green
02/2012	3	3	---	Green
03/2012	3	3	---	Green
04/2012	3	3	---	Green
05/2012	3	3	---	Green
