Table 1. Timelines for Coordination and Completion of DoD Issuances

 ² For issuances over 25 pages long, add 2 days for each additional 25 pages.
 ³ LORs and OSR clearance are not required for cancellation of DoD issuances.
 ⁴ Coordination of DoDIs, DoDMs, and AIs are based on issuance length. ≤ 24 pages will have a 20 working day suspense; 25-50 pages, 30 working days; 51+ pages, 45 working days.
 ⁴⁵ These time limits apply only if the originator has engaged OGC during adjudication of formal coordination comments as set forth in paragraph 8.b. of this enclosure.
 ⁵⁶ Unclassified issuances should be sent to OSR for review before being forwarded for signature, but NOT until after DD presignature and OGC LSRs are completed. OSR clearance is mandatory for the publication of unclassified issuances.
