lire and wheel comple the tire and wheel components can cause
torce．If struck to separate with an explodits explosive force．If struck by an exploding tire，wheeel
component，or the air blast，you or some－ component，or the air blast，you or some－
one else may be seriously injured or killed．

## HOW TO USE THESE TABLES

## HOW TO MATCH RIM PARTS

Find the stamped identification on the rim base and ring（s）．Refer to the pictures（see pictures bottom right）to help find the locations of the stamps．Identify the parts based on the stamps themselves－DO NOT identify the
If you cannot find the identification stamp－STOP！NEVER use a rim part that you cannot identify from the stamp． Match the markings found on the rim base with those shown in the＂Rim Base Identification Stamping＂column in the tables below．
Continue reading the same line across the table to find the proper markings for the matching side ring（or lock
ring and flange）． ring and flange）．
NEVER assemble mismatched rim parts（see WARNINGS above）．If the identification stamps on the parts do
not match－STOP！Select serviceable replacement parts from stock or obtain them from a rim supplier． not match－SN Select serviceabl replacement parts from stock or obtain them from a rim supplier If you are working on a rim／wheel assembly of discontinued parts that are cracked，bent，worn，pitted by corro－
sion，or unserviceable in any way，for whatever reason－STOP！You must replace the entire discontinued assem－ sion，or unserviceabe in any way，for whatever reason－ 1 nservicauble parts are shown the in the photos above．
bly with one that is in current production．Examples of unser

how to read these tables

Example A－Two－Piece Rim／Side Ring Assembly
The rim base and side ring to be assembled have identification stamps ike
the ones shown to the right． the ones shownto the inght
 $20 \times 7.5$ LL in the＂Rim Base Identification Stamping＂column．
Continue reading the same line arosss the table．Find the matching side
ring markings in the＂ Side Re Ring Identification Stamping
column．
 side ring shon in the photo．These parts are matched and will make a proper assembly
xample B－Three－Piece Rim／Side Ring Assembly
Follow Steps 1 and 2 in Example A －Two－Piece Assembly．
Read across the table in the same row to find the proper mated in the
TLock Ring Identification Stamping and FFlange Identificate
