**General Certification of Conformity (“GCC”)
For
Consumer Product Safety Improvement Act**

Other Regular Products

INSTRUCTIONS

FIELD	INSTRUCTIONS
Manufacturer and Importer	Name, Full mailing Address, and Telephone Number of each of the named entities.
Product Description	Provide a reasonable and complete description of the Product. If the product has multiple colors, and all colors can be certified on the same GCC, then list all colors. If the product has multiple sizes, and all sizes can be certified on the same GCC, then list all sizes.
Importer PO #	List the Customer Purchase Order Number
Importer Item #	List the Customer Item Number (The Customer “SKN” Number)
UPC Code	List the UPC Code of the Product (optional)
Model #	List the Manufacturer’s Model Number of the Product (optional)
Color (if applicable)	If Lead testing is required for the Product, the color of the product being certified must be listed.
Facility where Product Manufactured	Name, Full mailing Address, and Telephone Number of the facility where the Product was actually manufactured, if the location is different from that identified above.
Month/Year of Manufacture	List the Month(s) and Year in which the lot of Product was actually manufactured.
Date of Testing	List the Date or Range of Dates over which the testing was performed on the Product.
Testing Performed By	List the name of the Laboratory where testing was performed
Facility Where Testing was Performed	Name, Full mailing Address, and Telephone Number of the facility where the Product was actually tested.
Location of Test Records	Name, Full Mailing Address, and Telephone Number of the entity (Person or Job Title) that maintains record copies of test reports for this Product.
Applicable Acts/Regulations/ Bans/Standards/etc.	Mark the Checkbox for each Act, Regulation, Ban, Standard or other requirement applicable to this Product. Use the “Other” blocks to list any applicable requirement not listed in the Chart.

****Importer: Direct Importer**

The following apply to Regular Products:

16 CFR 1303 - All products with painted or otherwise finished surfaces (powder-coated, stained, anodized, lacquered, varnished, etc) must be tested at the factory (in-house) or externally tested through a third party laboratory to certify that the product has been manufactured in accordance to 16 CFR 1303; the lead content of all scrapable surface coatings should not exceed the limit of 90ppm.

Lead H.R. 4040 Section 101 (Lead in substrate) 300ppm.
