FEDERAL RESERVE SYSTEM

Federal Open Market Committee; Domestic Policy Directive of November 2 and 3, 2010

In accordance with Section 271.25 of its rules regarding availability of information (12 CFR part 271), there is set forth below the domestic policy directive issued by the Federal Open Market Committee at its meeting held on November 2 and 3, 2010.¹

The Federal Open Market Committee seeks monetary and financial conditions that will foster price stability and promote sustainable growth in output. To further its long-run objectives, the Committee seeks conditions in reserve markets consistent with federal funds trading in a range from 0 to $\frac{1}{4}$ percent. The Committee directs the Desk to execute purchases of longer-term Treasury securities by the end of June 2011 in order to increase the total face value of domestic securities held in the System Open Market Account to approximately \$2.6 trillion. The Committee also directs the Desk to reinvest principal payments from agency debt and agency mortgagebacked securities in longer-term Treasury securities. The System Open Market Account Manager and the Secretary will keep the Committee informed of ongoing developments regarding the System's balance sheet that could affect the attainment over time of the Committee's objectives of maximum employment and price stability.

By order of the Federal Open Market Committee.

Dated: November 24, 2010.

William B. English,

Secretary, Federal Open Market Committee. [FR Doc. 2010–30863 Filed 12–8–10; 8:45 am] BILLING CODE 6210–01–P

FEDERAL TRADE COMMISSION

Granting of Request for Early Termination of the Waiting Period Under the Premerger Notification Rules

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

The following transactions were granted early termination of the waiting period provided by law and the premerger notification rules. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period.

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS. **ACTION:** Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve the proposed information collection project: "Improving Patient Safety System Implementation for Patients with Limited English Proficiency." In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501–3520, AHRQ invites the public to comment on this proposed information collection. DATES: Comments on this notice must be received by February 7, 2011. ADDRESSES: Written comments should be submitted to: Doris Lefkowitz, Reports Clearance Officer, AHRQ, by email at *doris.lefkowitz@AHRQ.hhs.gov*.

Copies of the proposed collection plans, data collection instruments, and specific details on the estimated burden can be obtained from the AHRQ Reports Clearance Officer.

FOR FURTHER INFORMATION CONTACT:

Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427–1477, or by e-mail at

SUPPLEMENTARY INFORMATION:

Proposed Project

Improving Patient Safety System Implementation for Patients with Limited English Proficiency

According to the 2009 American Community Survey (U.S. Census Bureau), approximately 57 million people 20% of the U.S. populationspeak a language other than English at home. Of that number, approximately 24 million (8.6% of the U.S. population) are defined as having Limited English Proficiency (LEP), meaning that they report speaking English less than "very well". Recent research suggests that adverse events affect LEP patients more severely than they affect Englishspeaking patients. In addition to linguistic barriers, LEP patients often face cultural barriers to care and low health literacy as well.

AHRQ proposes to develop a new training program to improve patient

safety system implementation for patients with limited English proficiency. The new training program is designed as a continuing education module within the TeamSTEPPS system. TeamSTEPPS is an evidencebased framework to optimize team performance across the healthcare delivery system with the goal of improving patient safety. This system has been successfully implemented in numerous hospitals across the United States. The TeamSTEPPS curriculum is an easy-to-use comprehensive multimedia kit that includes modules in text and presentation format, video vignettes to illustrate key concepts, and workshop materials, including a supporting CD and DVD, on change management, coaching, and implementation. Portions of the training module may also be useful for hospitals that have not implemented TeamSTEPPS. The new training module will show how TeamSTEPPS principles can be better implemented to improve the safety of patients with LEP.

AHRQ proposes to field-test this module by conducting case studies of its implementation in three hospitals. The primary goals of this field test are to identify needed changes in the training module content or format to increase the feasibility of implementation and improve module outcomes including audience response, learning, adoption of recommended team behaviors, and improved outcomes for LEP patients. Patient outcome measures for this project include the patient's access to an interpreter and how well they
