

Affected model(s)	Airbus modification installed
A319 and A320	26717.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (e)(1) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To prevent erroneous navigational calculations, which could result in an increased risk of collision with terrain or other airplanes, accomplish the following:

Restatement of Requirements of AD 97-21-10

(a) Within 10 days after November 3, 1997 (the effective date of AD 97-21-10, amendment 39-10163), revise the Normal Procedures Section of the FAA-approved Airplane Flight Manual (AFM) by inserting a copy of Model A319/320/321 Flight Manual Temporary Revision 4.03.00/02, dated May 28, 1997, into the AFM.

Note 2: When the temporary revision specified in paragraph (a) of this AD has been incorporated into the general revisions of the AFM, the general revisions may be inserted in the AFM, provided the information contained in the general revisions is identical to that specified in Model A319/320/321 Flight Manual Temporary Revision 4.03.00/02.

New Requirements of This AD

(b) Within 18 months after the effective date of this AD, accomplish either paragraph (b)(1) or (b)(2) of this AD, in accordance with Airbus Service Bulletin A320-22-1063, Revision 01, dated October 8, 1999; A320-22-1064, dated September 15, 1998; A320-22-1065, dated October 28, 1998; A320-22-1067, Revision 01, dated July 7, 1999; A320-22-1068, dated December 9, 1998; or A320-22-1069, dated February 1, 1999; as applicable. Following accomplishment of either paragraph (b)(1) or (b)(2) of this AD, the AFM revision required by paragraph (a) of this AD may be removed from the AFM.

(1) Modify all existing on-board replaceable modules of the flight management guidance computers (FMGC) to

incorporate software changes in accordance with the Accomplishment Instructions of the applicable service bulletin.

(2) Replace all existing FMGC's with new, improved FMGC's in accordance with the Accomplishment Instructions of the applicable service bulletin.

(c) Accomplishment of either the modification or replacement action required by paragraph (b) of this AD constitutes terminating action for the AFM requirements of paragraph (a) of AD 98-19-08, amendment 39-10750. Following accomplishment of either of those actions, remove the FAA-approved AFM revision required by that AD (Airbus A319/320/321 Airplane Flight Manual Temporary Revision 9.99.99/44, Issue 2, dated March 3, 1998).

Spares

(d) As of the effective date of this AD, no person shall install any FMGC part number B546BAM0205, B546CAM0101, B546BCM0204, B398BAM0207, B398AAM0410, B546CCM0101, B546CCM0102, B546CCM0103, or B398BCM0107; unless it has been modified in accordance with this AD.

Alternative Methods of Compliance

(e)(1) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, International Branch, ANM-116, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, International Branch, ANM-116.

(2) Alternative methods of compliance, approved previously in accordance with AD 97-21-10, amendment 39-10163, are approved as alternative methods of compliance with paragraph (a) of this AD.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the International Branch, ANM-116.

Special Flight Permits

(f) Special flight permits may be issued in accordance with §§ 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

Note 4: The subject of this AD is addressed in French airworthiness directive 1999-411-140(B), dated October 20, 1999.

Issued in Renton, Washington, on April 10, 2000.

Donald L. Riggins,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-U

FEDERAL TRADE COMMISSION

16 CFR Part 423

Request for Comments Concerning Trade Regulation Rule on Care Labeling of Textile Wearing Apparel and Certain Piece Goods

AGENCY: Federal Trade Commission.

ACTION: Request for public comments.

SUMMARY: The Federal Trade Commission (the "Commission") is requesting public comments on a proposed exemption to its Trade Regulation Rule on Care Labeling of Textile Wearing Apparel and Certain Piece Goods ("the Care Labeling Rule" or "the Rule"). The proposed exemption would permit the Esprit de Corp company to distribute three specific styles of apron camisoles without attaching permanent care labels to the garments, as otherwise required by the Care Labeling Rule. Esprit de Corp petitioned the Commission for the exemption, and submitted samples of the camisoles for consideration. If the petition is granted, care instructions for the camisoles still must be given on a hang tag, or on the package, or in some other conspicuous place, so that consumers will be able to see the care information before buying the product. All interested persons are hereby given notice of the opportunity to submit written data, views and arguments concerning this proposal.

DATES: Written comments will be accepted until May 15, 2000.

ADDRESSES: Comments should be directed to: Secretary, Federal Trade Commission, Room H-159, 600 Pennsylvania Ave., NW, Washington, DC 20580. Comments about this exemption to the Care Labeling Rule

should be identified as “petition for exemption, 16 CFR part 423—Comment.”

FOR FURTHER INFORMATION CONTACT:

Constance M. Vecellio, Attorney,
Federal Trade Commission,
Washington, DC 20580, (202) 326-2966.

SUPPLEMENTARY INFORMATION: The Rule was promulgated by the Commission on December 16, 1971, 36 FR 23883 (1971), and amended on May 20, 1983, 48 FR 22733 (1983). The Rule makes it an unfair or deceptive act or practice for manufacturers and importers of textile wearing apparel and certain piece goods to sell these items without attaching care labels stating “what regular care is needed for the ordinary use of the product.” (16 CFR 423.6(a) and (b)) The Rule defines a care label as a “permanent label or tag * * * that is attached or affixed in such a manner that it will not become separated from the product * * *” (16 CFR 423.1(a))

Section 423.8(b) of the Rule states that manufacturers or importers can ask for an exemption from the requirement of attaching a permanent care label for any textile wearing apparel product or product line if the label would harm the appearance or usefulness of the product. Section 423.8(c) of the Rule states that if an item is exempt from care labeling under subparagraph (b) of section 423.8, the consumers still must be given the required care information for the product, but the care information can be provided on a hang tag, on the package, or in some other conspicuous place, so that consumers will be able to see the care information before buying the product. The petitioner claims that the appearance and usefulness of the camisoles would be damaged by attaching permanent care labels.

List of Subjects in 16 CFR Part 423

Care labeling of textile wearing apparel and certain piece goods; Trade Practices.

Authority: 15 U.S.C. 41-58.

By direction of the Commission.

Donald S. Clark,
Secretary.

Approval and Promulgation of State Air Quality Plans for Designated Facilities and Pollutants; Delaware; Control of Emissions From Existing Hospital/Medical/Infectious Waste Incinerators

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the hospital/medical/infectious waste incinerator (HMIWI) 111(d)/129 plan submitted by the State of Delaware, Department of Natural Resources and Environmental Control, Division of Air and Waste Management. The plan establishes emission limitations for existing HMIWIs, and provides for the implementation and enforcement of those limitations. In the final rules section of the **Federal Register**, EPA is approving the plan. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated in relation to this rule. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Comments must be received in writing by May 15, 2000.

ADDRESSES: Comments may be mailed to Makeba A. Morris, Chief, Technical Assessment Branch, Mailcode 3AP22, Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.

FOR FURTHER INFORMATION CONTACT: James B. Topsale at (215) 814-2190, or by e-mail at topsale.jim@epa.gov.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule, with the same title, which is located in the rules section of the **Federal Register**.

Authority: 42 U.S.C. 7401-7671q.

Dated: April 3, 2000.

Bradley M. Campbell,
Regional Administrator, Region III.

Waste Characterization Program Documents Applicable to Transuranic Radioactive Waste From the Idaho National Engineering and Environmental Laboratory Proposed for Disposal at the Waste Isolation Pilot Plant

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability; opening of public comment period.

SUMMARY: The Environmental Protection Agency (EPA) is announcing the availability of, and soliciting public comments for 30 days on, Department of Energy (DOE) documents on waste characterization programs applicable to certain transuranic (TRU) radioactive waste at the Idaho National Engineering and Environmental Laboratory (INEEL) proposed for disposal at the Waste Isolation Pilot Plant (WIPP). The documents are: “Quality Assurance Project Plan for the Transuranic Waste Characterization Program (PLN-190), Revision 4 (March 2000),” “INEEL TRU Waste Characterization, Transportation, and Certification Quality Program Plan (PLN-182), Revision 4 (March 2000),” and “Program Plan for Certification of INEEL Contact-Handled Stored Transuranic Waste (PLN-579), Revision 0 (March 2000).” The documents are available for review in the public dockets listed in **ADDRESSES**. The EPA will use these documents to evaluate waste characterization systems and processes applicable to waste streams containing debris waste at INEEL, as requested by DOE. In accordance with EPA’s WIPP Compliance Criteria at 40 CFR 194.8, EPA will conduct an inspection of waste characterization systems and processes at INEEL on April 24-27, 2000 to verify that the proposed systems and processes at INEEL can characterize transuranic debris waste properly, consistent with the Compliance Criteria. This notice of the inspection and comment period accords with 40 CFR 194.8.

DATES: The EPA is requesting public comment on these documents. Comments must be received by EPA’s official Air Docket on or before May 15, 2000.

ADDRESSES: Comments should be submitted to: Docket No. A-98-49, Air Docket, Room M-1500 (LE-131), U.S.
