zipcode:

Question1:

Question2:

Question3:

Question4:

Question5:

Question6: There is no doubt that the public health of America including the fight against the obesity crisis our nation faces could be improved if more Americans increased their intake of fruits and vegetables as part of developing healthy life styles. The USDA can play a key role in supporting this effort by stepping up support of Fruit and Vegetable production, and through additional promotion of fruit and vegetable intake in its FSNE program and Food stamp program, the NSLP and its other food security programs.
