- (1) These facilities (SPRDFS) will be assigned the same provider number whenever they are recertified.
- (2) The 6400-6499 series of provider numbers in Iowa (16), South Dakota (43) and Texas (45) have been used in reducing acute care costs (RACC) experiments.
- (3) In Virginia (49), the series 7100-7299 has been reserved for statewide subunit components of the Virginia state home health agencies.
- (4) Parent agency must have a number in the 7000-7299, 7400-7799 or 8000-8499 series.

### NOTE:

There is a special numbering system for units of hospitals that are excluded from prospective payment system (PPS) and hospitals with SNF swing-bed designation. An alpha character in the third position of the provider number identifies the type of unit or swing-bed designation as follows:

- S = Psychiatric unit (excluded from PPS)
- T = Rehabilitation unit (excluded from PPS)
- U = Short term/acute care swing-bed hospital
- V = Alcohol drug unit (prior to 10/87 only)
- W = Long term SNF swing-bed hospital
   (eff 3/91)
- Y = Rehab hospital swing-bed (eff 9/92)

Z = Rural primary care swing-bed hospital

There is also a special numbering system for assigning emergency hospital identification numbers (non participating hospitals). The sixth position of the provider number is as follows:

E = Non-federal emergency hospital

F = Federal emergency hospital

Claim Payment Amount

NUM 12

Amount of payment made from the Medicare trust fund for the services covered by the claim record. Generally, the amount is calculated by the FI or carrier; and represents what was paid to the institutional provider, physician, or supplier, with the exceptions noted below. \*\*NOTE: In some situations, a negative claim payment amount may be present; e.g., (1) when a beneficiary is charged the full deductible during a short stay and the deductible exceeded the amount Medicare pays; or (2) when a beneficiary is charged a coinsurance amount during a long stay and the coinsurance amount exceeds the amount Medicare pays (most prevalent situation involves psych hospitals who are paid a

daily per diem rate no matter what the charges are.)

Under IP PPS, inpatient hospital services are paid based on a predetermined rate per discharge, using the DRG patient classification system and the PRICER program. On the IP PPS claim, the payment amount includes the DRG outlier approved payment amount, disproportionate share (since 5/1/86), indirect medical education (since 10/1/88), total PPS capital (since 10/1/91). It does NOT include the pass thru amounts (i.e., capital-related costs, direct medical education costs, kidney acquisition costs, bad debts); or any beneficiary-paid amounts (i.e., deductibles and coinsurance); or any other payer reimbursement.

Under SNF PPS, SNFs will classify beneficiaries using the patient classification system known as RUGS III. For the SNF PPS claim, the SNF PRICER will calculate/return the rate for each revenue center line item with revenue center code = '0022'; multiply the rate times the units count; and then sum the amount payable for all lines with revenue center code '0022' to determine the total claim payment amount.

Under Outpatient PPS, the national ambulatory payment classification (APC) rate that is calculated for each APC group is the basis for determining the total payment. The Medicare payment amount takes into account the wage index adjustment and the beneficiary deductible and coinsurance amounts. NOTE: There is no CWF edit check to validate that the revenue center Medicare payment amount equals the claim level Medicare payment amount.

Under Home Health PPS, beneficiaries will be classified into an appropriate case mix category known as the Home Health Resource Group. A HIPPS code is then generated corresponding to the case mix category (HHRG).

For the RAP, the PRICER will determine the payment amount appropriate to the HIPPS code by computing 60% (for first episode) or 50% (for subsequent episodes) of the case mix episode payment. The payment is then wage index adjusted.

For the final claim, PRICER calculates 100% of the amount due, because the final claim is processed as an adjustment to the RAP, reversing the RAP payment in full. Although final claim will show 100% payment amount, the provider will actually receive the 40% or 50% payment.

Exceptions: For claims involving demos and BBA encounter data, the amount reported in this field may not just represent the actual provider payment.

For demo Ids '01','02','03','04' -- claims contain amount paid to the provider, except that special 'differentials' paid outside the normal payment system

are not included.

For demo Ids '05','15' -- encounter data 'claims' contain amount Medicare would have paid under FFS, instead of the actual payment to the MCO.

For demo Ids '06','07','08' -- claims contain actual provider payment but represent a special negotiated bundled payment for both Part A and Part B services. To identify what the conventional provider Part A payment would have been, check value code = 'Y4'. The related noninstitutional (physician/supplier) claims contain what would have been paid had there been no demo.

For BBA encounter data (non-demo) -- 'claims' contain amount Medicare would have paid under FFS, instead of the actual payment to the BBA plan.

Prior to 4/6/93, on inpatient, outpatient, and physician/supplier claims containing a CLM\_DISP\_CD of '02', the amount shown as the Medicare reimbursement does not take into consideration any CWF automatic adjustments (involving erroneous deductibles in most cases). In as many as 30% of the claims (30% IP, 15% OP, 5% PART B), the reimbursement reported on the claims may be over or under the actual Medicare payment amount.

\*\*\*\* Note: \*\*\*\*

CPT-4 codes including both long and short descriptions shall be used in accordance with the HCFA/AMA agreement. Any other use violates the AMA copyright.

#### Level II

All other level II codes and descriptors are approved and maintained jointly by the alpha-numeric editorial panel (consisting of HCFA, the Health Insurance Association of America, and the Blue Cross and Blue Shield Association). These are 5 position alpha-numeric codes representing primarily items and nonphysician services that are not represented in the level I codes.

Revenue Center IDE, NDC, UPC Number

CHAR

24

Effective with Version H, the exemption number assigned by the Food and Drug Administration (FDA) to an investigational device after a manufacturer has been approved by FDA to conduct a clinical trial on that device. HCFA established a new policy of covering certain IDE's which was implemented in claims processing on 10/1/96 (which is NCH weekly process 10/4/96) for service dates beginning 10/1/95. IDE's are always associated with revenue center code '0624'.

NOTE1: Prior to Version H a 'dummy' revenue center code '0624' trailer was created to store The IDE number was housed in two fields: HCPCS code and HCPCS initial modifier; the second modifier contained the value 'ID'. There can be up to 7 distinct IDE numbers associated with an '0624' dummy trailer. During the Version H conversion IDE's were moved from the dummy '0624' trailer to this dedicated field.

NOTE2: Effective with Version 'I', this field was renamed to eventually accommodate the National Drug Code (NDC) and the Universal Product Code (UPC). This field could contain either of these 3 fields (there would never be an instance where more than one would come in on a claim). The size of this field was expanded to X(24) to accommodate either of the new fields (under Version 'H' it was X(7). DATA ANAMOLY/LIMITATION: During an CWFMQA review an edit revealed the IDE was missing. The problem occurs in claim with an NCH weekly process dates of 6/9/00 through 9/8/00. During processing of the new format the program receives the IDE but then blanked out the data.

Revenue Center Unit Count

MUM

8

A quantitative measure (unit) of the number of times the service or procedure being reported was performed according to the revenue center/HCPCS code definition as described on an institutional claim.

Depending on type of service, units are measured by number

of covered days in a particular accommodation, pints of blood, emergency room visits, clinic visits, dialysis treatments (sessions or days), outpatient therapy visits, and outpatient clinical diagnostic laboratory tests.

NOTE1: When revenue center code = '0022' (SNF PPS) the unit count will reflect the number of covered days for each HIPPS code and, if applicable, the number of visits for each rehab therapy code.

NAME TYPE LENGTH
----Revenue Center Rate Amount NUM 12

Charges relating to unit cost associated with the revenue center code. Exception (encounter data only): If plan (e.g. MCO) does not know the actual rate for the accommodations, \$1 will be reported in the field.

NOTE1: For SNF PPS claims (when revenue center code equals '0022'), HCFA has developed a SNF PRICER to compute the rate based on the provider supplied coding for the MDS RUGS III group and assessment type (HIPPS code, stored in revenue center HCPCS code field).

NOTE2: For OP PPS claims, HCFA has developed a PRICER to compute the rate based on the Ambulatory Payment Classification (APC), discount factor, units of service and the wage index.

NOTE3: Under HH PPS (when revenue center code equals '0023'), HCFA has developed a HHA PRICER to compute the rate. On the RAP, the rate is determined using the case mix weight associated with the HIPPS code, adjusting it for the wage index for the beneficiary's site of service, then multiplying the result by 60% or 50%, depending on whether or not the RAP is for a first episode.

On the final claim, the HIPPS code could change the payment if the therapy threshold is not met, or partial episode payment (PEP) adjustment or a significant change in condition (SCIC) adjustment.

In cases of SCICs, there will be more than one '0023' revenue center line, each representing the payment made at each case-mix level.

- (3) For Home Health PPS (RAPs), when revenue center code =  $^{1}0023^{1}$ , the total charges will equal the dollar amount for the  $^{1}0023^{1}$  line.
- (4) For Home Health PPS (final claim), when revenue center code = '0023', the total charges will be the sum of the revenue center code lines (other than '0023').
- (5) For encounter data, if the plan (e.g. MCO) does not know the actual charges for the accommodations the total charges will be \$1 (rate) times units (days).
