

## **Inspector General NAVFAC Pacific GS-1801-13**

Detection and prevention of inefficiencies, mismanagement, wasteful and abusive practices are among the major functions performed by the Inspector General of Naval Facilities Engineering Command (NAVFAC) Pacific. Other responsibilities include command self-assessments and verification via on-site inspections, hotline and special investigations, audits, command evaluation, management control, and follow-up on these matters for the claimancy. The IG is responsible for the Command's internal review process, accomplished through management of the Command Evaluation and Management Control Programs within NAVFAC Pacific and subordinate activities.

NAVFAC manages the planning, design, construction, contingency engineering, real estate, environmental, and public works support for U. S. Navy shore facilities around the world. We provide the U.S. Navy forces with the operating, expeditionary, support and training bases they need. NAVFAC is a global organization with an annual volume of business in excess of \$13 billion. NAVFAC Pacific is an Echelon III Command located in Pearl Harbor, Hawaii. We deliver engineering and acquisition services through our Facilities Engineering Commands: NAVFAC Hawaii, NAVFAC Marianas in Guam, and NAVFAC Far East in Japan.
