

John Cangialosi

Hurricane Specialist National Hurricane Center

John Cangialosi is a hurricane specialist at NOAA'S National Hurricane Center in Miami.

He received his Bachelor of Science Degree in Meteorology and Mathematics from the University of Miami (2002), and his Master in Science and Physical Oceanography from the University of Miami Rosenstiel School of Meteorology and Atmospheric Sciences (2004).

Cangialosi was a senior research associate at the University of Miami in 2004-2005, and a forecaster/numerical modeler for the Hurricane Rainband and Intensity Change Experiment (RAINEX).

He began his career with NOAA in 2005 as a meteorologist intern with the Tropical Analysis Forecast Branch of the National Hurricane Center in Miami and was promoted to forecaster in 2007. He

became a hurricane specialist in 2009. The position involves the issuance of track, intensity, and wind radii forecasts as well as associated watches and warnings for tropical cyclones in the Atlantic and eastern North Pacific Oceans.

Cangialosi received the Dean's Prize for the Best Master Thesis at the University of Miami Rosenstiel School of Meteorology and Atmospheric Sciences in 2004 as well as the Most Outstanding Graduate at the Master Degree Level.

He is a member of the American Meteorological Society.
