

**UNITED STATES DEPARTMENT OF AGRICULTURE  
FOOD SAFETY AND INSPECTION SERVICE  
QUARTERLY ENFORCEMENT REPORT  
July 1, 2002 through September 30, 2002**

**INTRODUCTION**

This is the Food Safety and Inspection Service's (FSIS) Quarterly Enforcement Report. The report provides a summary of the enforcement actions FSIS has taken to ensure that products that reach consumers are safe, wholesome, and properly labeled. Although this report focuses on enforcement actions taken, it is important to recognize that this is only one aspect of the Agency's work. The Agency's main purpose is to protect public health by achieving compliance with laws and regulations.

FSIS inspects products produced in over 6,000 meat, poultry, and egg product plants. Since January 1998, meat and poultry plants have been operating HACCP Systems. Publication of this information is another step in the Agency's commitment to openness and transparency in its work to protect the public from adulterated or misbranded meat, poultry, and egg products.

The report is presented in sections that correspond with the category of action. Activities reported within the categories are either pending or experienced new activity during the reporting period. FSIS also coordinated administrative actions, where regulatory or other authorities were applied in inspected plants, and managed USDA participation in criminal cases pending in Federal courts. These actions, along with the thousands of inspections made each day in plants

throughout the country, form strong underpinnings for promoting compliance with food safety laws. Each section of this report is described and reported in more detail as follows:

FSIS ENFORCEMENT PROCESSES  
NONCOMPLIANCE RECORDS AND APPEALS  
PRODUCT CONTROL ACTIONS  
LETTERS OF WARNING  
ADMINISTRATIVE ACTIONS  
CRIMINAL ACTIONS  
CIVIL ACTIONS

## **FSIS ENFORCEMENT PROCESSES**

USDA's Food Safety and Inspection Service (FSIS) is charged with ensuring that meat, poultry, and egg products are safe, wholesome, and properly labeled. FSIS, in cooperation with State counterparts, inspects, monitors, and verifies the proper processing, handling, and labeling of meat and poultry products from the delivery of animals to the slaughterhouse until the products reach consumers. FSIS, in cooperation with FDA and the states, provides similar coverage for egg products – the processed whole egg ingredients used in manufacturing other foods. (More information concerning egg products inspection and enforcement is provided in the FSIS publication "Focus on Egg Products" that can be accessed at:

<http://www.fsis.usda.gov/oa/pubs/eggprod.htm>. If FSIS detects problems with any products it regulates, the Agency takes product control and enforcement measures to protect consumers.

USDA conducts monitoring and verification activities at plants that slaughter food animals and process products to ensure that products at these establishments are produced in a sanitary environment and potential food safety hazards are identified and eliminated. These establishments must apply for a grant of inspection from FSIS and demonstrate the ability to meet certain requirements for producing safe, wholesome, and accurately labeled food products. Requirements include meeting sanitation, facility, and operational standards, and having preventive systems in place to ensure the production of safe and unadulterated food. Products from official establishments are labeled with the mark of inspection, indicating that they have been inspected and passed by USDA and can be sold in interstate commerce.

FSIS uses Compliance Officers throughout the chain of distribution to detect and detain potentially hazardous foods in commerce and to investigate violations of law. Even if products are produced under conditions that are safe and sanitary, abuse can occur on their way to the consumer. For example, if foods are transported in trucks that are too warm, or if exposed to contamination, then that can result in product that can cause illness or injury.

FSIS also works closely with USDA's Office of Inspector General (OIG), which assists FSIS in pursuing complex criminal cases. In addition, many state and local jurisdictions have enforcement authorities that apply to USDA-regulated products. FSIS cooperates with these other jurisdictions in investigations and case presentations. FSIS also participates with OIG and the U.S. Department of Justice in monitoring conditions of probation orders and pretrial diversion agreements developed to resolve cases.

This report provides a summary of enforcement actions, including actions that address the Pathogen Reduction/HACCP regulatory requirements, FSIS has taken to ensure that products that reach consumers are safe, wholesome, and properly labeled. The Agency recognizes that this report is a snapshot in time of a dynamic process. Some information will be out-of-date by the time this report is published. For example, many matters shown as under appeal will have been resolved by the time this report is published. Other actions could be appealed or closed after this reporting period. This information will be updated on a quarterly basis and made available to the public through future reports.

## **NONCOMPLIANCE RECORDS AND APPEALS**

FSIS inspection program personnel perform thousands of inspection procedures each day to determine whether or not inspected plants are in compliance with regulatory requirements. Each time inspection program personnel make a non-compliance determination they complete a report explaining the nature of the regulatory action. They notify plant managers of problems by a written Noncompliance Record (NR).

NRs document noncompliance determinations that occur in the plant's sanitation and other controls and notify the plant that it must take action to remedy a problem and prevent its recurrence. If this is done, then the plant will continue to operate without interruption. Problems reported on NRs vary from minor labeling discrepancies to serious breakdowns in food safety controls. When noncompliance occurs repeatedly, or when the plant fails to prevent adulterated product from being produced or shipped, FSIS takes action to control products and may take an action to withhold or suspend inspection.

During this quarterly reporting period, FSIS performed 1,514,452 HACCP verification procedures. **Table 1a** provides numbers of NRs issued by FSIS inspection personnel between July 1, 2002 to September 30, 2002. **Table 1b** shows the number of appeals and the dispositions of the appeals filed by plants during this reporting period.

## Table 1a. Noncompliance Record Totals

### NR Totals

NRs Issued (7/01/02 to 9/30/02): **33,859**

### \* Table 1b. Appeals NRs (7/01/02 to 9/30/02)

Number of Plants Filing Appeals: **NA**

Appeal of NR Granted	Appeal of NR Denied	Appeal of NR Pending	Total NRs Appealed
NA	NA	NA	NA

\* **Information is currently unavailable due to enhancements being made in the Agency automated appeals tracking system**

## PRODUCT CONTROL ACTIONS

FSIS takes product control actions to gain physical control over products when there is reason to believe they are adulterated or misbranded. The actions ensure that those products do not enter commerce or, if they are already in commerce, that they do not reach consumers.

In official establishments, FSIS inspectors may retain products whenever there is evidence of unwholesomeness, or if products are adulterated or mislabeled. FSIS inspectors condemn animals for disease, contamination, or adulteration to prevent their use as human food. Figures for condemnations of livestock for the reporting period are as follows: FSIS inspected 27,017,336 livestock carcasses, of which 64,800 carcasses were condemned. FSIS inspected 2,229,943,361 poultry carcasses of which 11,090,922 carcasses were condemned.

## Detentions

After products are distributed from plants, FSIS Compliance Officers detain any that may be adulterated or misbranded. If product disposition cannot be made within 20 days, then FSIS may request a federal court to seize the product (see Civil Actions). **Table 2** provides the number of detentions and the pounds of product involved in these actions for meat and poultry, reported in total and by FSIS District Offices, for this quarterly reporting period. Most detentions result in voluntary disposal of the product and do not require court seizures.

**Table 2. Detention Summary  
(7/01/02 to 9/30/02)**

**Detentions**

<b>Total number of detentions by FSIS</b>	<b>119</b>

<b>Totals</b>	<b>119</b>	<b>7,045,610</b>

Recalls

A recall is a voluntary action by a firm to remove adulterated, misbranded, or suspect products from distribution. FSIS cannot require recalls but can recommend and monitor those that occur. Class I recalls involve a health hazard when there is a reasonable probability that the use of the product will cause serious adverse health consequences or death. Class II recalls involve a potential health hazard when there is a remote probability of adverse health consequences from use of the product. Class III recalls involve a situation in which use of the product is not likely to cause adverse health consequences. For current information on recalls, go to the FSIS recalls web page at: [http://www.fsis.usda.gov/oa/recalls/rec\\_intr.htm](http://www.fsis.usda.gov/oa/recalls/rec_intr.htm).

## Import Reinspections

FSIS maintains a comprehensive system of import controls to carry out the requirements of the Federal meat, poultry, and egg products inspection laws to ensure the wholesomeness of imported products. The system of import controls involves evaluation of the inspection system of each country seeking to export product to the United States and reinspection of imported products at the port of entry. FSIS conducts a rigorous review of an exporting country's inspection system to ensure it is equivalent to our inspection system prior to the country being permitted to export to the United States. After the country gains eligibility to export to the U.S., FSIS audits the foreign country inspection system at least annually. Reinspection of meat, poultry and egg products as they enter the United States is a further check on the performance of the foreign inspection system. This activity is referred to as reinspection because all imported products have been inspected and passed by a foreign inspection system equivalent to the U.S. system. All shipments must be presented to FSIS inspectors, who check documentation and general condition. FSIS also randomly selects shipments for more in-depth inspections, based on statistical sampling. A shipment that fails to meet U.S. requirements is refused entry into this country. The product must be re-exported, destroyed or, in some cases, converted to animal food. **Table 3** provides the total number of lots and pounds of imported meat, poultry, and egg products presented to FSIS; the number selected for in-depth reinspection; and the number refused entry during the reporting period.

**Table 3. Imported Meat, Poultry and Egg Products  
(7/01/02 to 9/30/02)**

## Presented, Reinspected, and Refused Entry

### Meat and Poultry

Number of Presented		Number of Reinspected		Number of Refused Entry	
Lots	Pounds	Lots	Pounds	Lots	Pounds
51,569	1,053,344,944	8,635	191,767,489	3,183	2,141,695

### Egg Products

Number of Presented		Number of Refused Entry	
Lots	Pounds	Lots	Pounds
336	3,551,785	9	72,890

## LETTERS OF WARNING

FSIS issues letters of warning (LOW) for minor violations of law that are not referred to United States Attorneys for prosecution. FSIS may also issue these warnings when a United States Attorney declines to prosecute a case or bring action against a specific business or person. These letters warn that FSIS may seek criminal action based on continued violations. Letters of warning may be issued to any individual or business, including Federal plants, wholesalers, distributors, restaurants, retail stores and other entities that process, store, or distribute meat and poultry products. **Table 4** shows letters of warning issued by headquarters and by each of the FSIS District Offices during the reporting period.

**Table 4. Letters of Warning for Criminal Actions  
(7/01/02 to 9/30/02)**

**Letters of Warning for Criminal Violations**

**Total number of LOWs issued for violations: 264**  
**Number issued by Headquarters: 24**

<b>Total number issued by Districts</b>	<b>240</b>

**ADMINISTRATIVE ACTIONS**

FSIS inspects meat and poultry products and applies the marks of inspection when inspectors are able to determine that products are not adulterated. FSIS may temporarily withhold the marks of inspection from specific products, suspend inspection, or withdraw a grant of inspection if a plant is not meeting regulatory requirements.

Effective January 25, 2000, FSIS amended its Rules of Practice that apply to Agency enforcement actions. The Rules of Practice, which are located in 9 CFR Part 500, define each type of enforcement action FSIS can take, the conditions under which it is likely to take these actions, and the procedures FSIS will follow in doing so.

### Withholding the Marks of Inspection

If a plant fails to prevent preparation and shipment of adulterated products or develops a pattern of noncompliance showing the plant's sanitation or process control systems have failed, FSIS may notify plant managers that the USDA mark of inspection is being withheld from some or all of the products in the plant. This action effectively shuts down affected operations, because it is illegal to sell products in interstate commerce that do not bear the USDA mark of inspection.

Other non-affected parts of the plant, if any, may still operate.

### Suspension of Inspection

FSIS may temporarily suspend the assignment of inspectors if a plant fails to prevent preparation and shipment of adulterated products, fails to present a corrective action plan to bring the plant sanitation or process control systems into compliance, or for other reasons specified in the Rules of Practice. As with withholding actions, a suspension shuts down all or part of the plant's operations. USDA may place the suspension in abeyance if corrections are presented, put into effect, and effectively prevent additional problems. FSIS District Offices have established procedures to monitor and verify a plant's corrective and preventive actions.

### Notification to Establishments of Intended Enforcement Actions

FSIS has an established procedure to notify establishments of intended enforcement actions related to certain types of noncompliance that have not resulted in actual shipment of adulterated products. Under this procedure, a notice is issued to an establishment when the Inspector-in-Charge determines that the establishment has experienced multiple, recurring noncompliances, or for other reasons, as specified in the Rules of Practice, the establishment has failed to implement

adequate corrective and preventive measures. The Notice informs the establishment of the nature and scope of the noncompliance, and that FSIS intends to withhold the marks of inspection or suspend the assignment of inspectors. The Notice explains the basis of and references documentation for the intended enforcement action, and provides the establishment three business days to contest the basis for the proposed enforcement action or to demonstrate how compliance has been or will be achieved. In appropriate situations, USDA may defer a decision based on corrections submitted by the establishment.

#### Withdrawal of Inspection

In some situations, FSIS may decide that it is necessary to withdraw inspection from a plant. In these cases, FSIS withdraws inspection from a Federal plant by filing a complaint with the USDA Hearing Clerk. The plant may request a hearing before an Administrative Law Judge. If the action is based on insanitation, the plant will remain closed while proceedings go forward. In other cases that do not involve a threat to public health, operations may continue. These actions may be resolved by FSIS and the plant entering into a consent decision, which allows the plant to operate under certain specified conditions. Once inspection is withdrawn, a closed plant must reapply to receive Federal inspection.

As specified in the Rules of Practice, USDA may initiate withholding, suspension, or withdrawal actions to limit a plant's slaughtering or processing, or prevent the plant from operating altogether, based on reasons related to the PR/HACCP regulations such as:

- failure to collect and analyze samples for the presence of generic *E. coli* and record test results,
- failure to develop or implement Sanitation Standard Operating Procedures, or
- failure to develop or implement a required HACCP plan.

In addition, USDA may initiate a withholding, suspension, or withdrawal action for other reasons such as:

- failure to meet “sanitation performance standards,”
- insanitary conditions,
- inhumane handling or slaughtering of livestock,
- failure to destroy condemned product, or
- interference with inspection personnel.

**Tables 5, 6, and 7** list administrative actions (other than actions based on convictions) by establishment, initiated, pending, or closed, for the period, along with whether the action is based on an SSOP or HACCP Systems failure, or for some other reason, such as inhumane handling.

In some plants, FSIS may find more than one basis for taking enforcement action or may take more than one action. For example, the plant has sanitation problems and is not conducting *E. coli* testing, or a sanitation problem occurs more than once. These tables list actions taken at large, small, and very small plants. The enforcement action can be for any of the identified reasons. During this period, activity is reported concerning 162 plants. Seventy-two of the actions in these plants were initiated during this reporting period. Sixty-eight actions were closed by letters of warning or other means during this period.

**Tables 5, 6, and 7** also identify those cases in which an appeal of the suspension action may have been made, along with whether the appeal was granted or the administrative action was sustained (appeal denied). When decisions on appeals have not been made during the period of this report, the appeal is shown as pending and will be reported in the next quarterly report. No appeal of suspension actions were filed during this period.

### Withdrawal for Unfitness

Under the statutes it administers, FSIS also can move to withdraw inspection, after opportunity for a hearing, based on the unfitness of an applicant for or a recipient of inspection because of a felony conviction or more than one violation involving food. **Table 8** identifies actions pending or taken (other than outstanding consent decisions) on this basis for this reporting period.

**Table 8. Withdrawal for Unfitness  
(7/01/02 to 9/30/02)**

**Administrative Actions Pending or Taken for Unfitness [includes actions initiated in prior quarters]**

<b>Establishment</b>	<b>Complaint to Deny/Withdraw Inspection</b>	<b>Consent Order</b>	<b>Consent Decision</b>	<b>Actions</b>
BILLY RAY PHILLIPS AND PHILLIPS SALES, INC. d/b/a ROCKET CITY MEATS & SEAFOOD 21657 M 21657 P T/A HUNTSVILLE, AL	9/24/02	9/26/02		On September 26, 2002, the firm entered into a Stipulation and Consent Decision and Order with FSIS. The Order is effective for three (3) years and contains several stipulations, including 1) prohibiting the firm from violating the Federal Meat, Poultry, or Egg Products Inspection Acts, or any state or local statutes involving food; 2) committing any felony or fraudulent criminal act; or 3) assaulting, threatening, or interfering with any FSIS employee. The Order resulted from Mr. Phillips' 1995 one (1) count felony conviction for assault of the second degree.
CENTRAL KENTUCKY CUSTOM MEATS, INC. 27257R M TOMMIE NEIL BUCK LIBERTY, KY	7/08/02	7/08/02		On July 8, 2002, the firm and its co-owner entered into a Stipulation and Consent Decision and Order with FSIS. The Order is effective for two (2) years and requires Mr. Buck to participate in a training program in business ethics and requires the firm to develop and implement a corporate code in business ethics. The Order resulted from Mr. Buck's drug-related felony charge.
HAGEMANN MEAT CO, INC. AND RAYMOND A. HAGEMANN 08292 M 08292 P SANTA ROSA, CA	7/22/02	7/23/02		On July 23, 2002, the firm and firm's owner entered into a Stipulation and Consent Decision and Order with FSIS. The Order requires Raymond Hagemann to participate in a training program or educational course in business ethics and prohibits the firm from hiring any individual who has been convicted of any felony or more than one misdemeanor involving food. The Order resulted from Mr. Hagemann's drug-related felony conviction.
PHOENIX POULTRY CORP. AND GEORGE D. OPPENHEIMER 18031 P WEST SPRINGFIELD, MA	3/1/01	9/19/02		On September 19, 2002, the firm and George D. Oppenheimer entered into a Stipulation and Consent Decision and Order with FSIS. The Order is effective for ten (10) years and indefinitely divests Mr. Oppenheimer, both operationally and financially, from the firm. On January 29, 2002, attorneys for USDA filed a motion for hearing. The complaint to withdraw inspection is based on the general manager's felony conviction of offering for sale uninspected poultry products with intent to defraud, and subscribing a false employers quarterly federal tax return. Mr. Oppenheimer and firm answered complaint on March 18, 2001, and March 19, 2001, respectively.

Establishment	Complaint to Deny/Withdraw Inspection	Consent Order	Consent Decision	Actions
S & S MEAT PURVEYORS, INC. d/b/a UNITED PROVISION MEAT CO. 02579 M COLUMBUS, OH	8/28/02	8/30/02		On August 30, 2002, the firm entered into a Stipulation and Consent Decision and Order with FSIS. The Order stipulates that the firm must not violate any section of the Meat, Poultry, or Egg Products Inspection Act, or any state or local statute involving food. It also requires the firm to implement and maintain a compliance program to ensure that all inspected meat and/or poultry products do not become misbranded. The Order resulted from a two (2) count misdemeanor conviction in 2001 against the firm for misbranded products.
SALEM PACKING CO., INC. ANTHONY BONACCURSO SAMUEL BONACCURSO 05425 M SALEM, NJ	1/25/02			Oral hearing was scheduled on November 21, 2002, but was subsequently cancelled because of a scheduling conflict. The oral hearing has been rescheduled for June 11 and 12, 2003. The complaint to withdraw inspection was based on firm and manager's state convictions for unlawful discharging of pollutants in waterways. Action also based on company president's State drug conviction. Attorney for firm and individuals filed answer to complaint on February 13, 2002.
WHITE DAIRY ICE CREAM COMPANY, INC., AND DONALD R. TANKERSLEY 19137 I VAN BUREN, AR	7/2/02	7/3/02		On July 3, 2002, the firm and its president entered into a Stipulation and Consent Decision and Order with FSIS. The Order prohibits the firm from hiring any new individual convicted of any felony or more than one misdemeanor involving food. It also requires the firm to prepare a report summarizing compliance with the Order. The Order resulted from Mr. Tankersley's multiple misdemeanor convictions involving food.

### Removing Custom Exempt Privilege

The meat and poultry laws exempt certain operations from inspection. Custom exempt businesses slaughter animals or process meat for owners of the animals or products. When insanitary conditions create health hazards, FSIS may remove custom exempt privileges and require the plant to cease operations until sanitary conditions are restored. FSIS can also take action when custom facilities fail to properly label product as "Not for Sale." These businesses have the opportunity to correct violations prior to such actions. Only new activities would be reflected in this report. There were no actions this reporting period.

## **CRIMINAL ACTIONS**

If evidence is found that a person or business has engaged in violations of the Federal Meat Inspection Act, Poultry Products Inspection Act, or Egg Products Inspection Act, USDA may refer the case to the appropriate United States Attorney to pursue criminal prosecution. Conviction for a criminal offense can result in a fine, imprisonment, or both. **Table 9** lists criminal actions and criminal cases in categories according to the status of the case, which may be indictment or information issued; pleas, convictions, or acquittals, and sentences rendered during this reporting period.

**Table 9. Criminal Actions  
(7/01/02 to 9/30/02)**

**Criminal Actions**

Name	Location	Indictment	Information	Plea	Sentencing	Actions
SERENADE FOODS TERRY TUCKER, PRES.	MILFORD, IN		9/4/02			On September 4, 2002, the firm was issued an Information charging it with one (1) misdemeanor count for the sale in commerce of articles having possible use as human food and that were misbranded at the time of sale.
JOSEPH W. SKAFF AND TODD T. VANDERPOL	TOLEDO, OH		9/17/02			On September 17, 2002, Joseph W. Skaff and Todd T. Vanderpol were issued an Information charging them with two (2) counts for the sale of misbranded meat food products and a third count for the sale of adulterated meat food product under the Federal Food, Drug and Cosmetic Act.

## PRE-TRIAL DIVERSION AGREEMENTS

In certain situations, United States Attorneys may enter into Pre-Trial Diversion (PTD) agreements. Under these agreements, the government agrees not to proceed with criminal prosecution if the alleged violator meets certain terms and conditions. The terms and conditions of a PTD are tailored to fit each individual case. FSIS frequently monitors these agreements so that we can assist the U. S. Attorneys in determining whether prosecution should be re-instituted. If the divertee successfully completes the program, no criminal charges are filed. If, on the other hand, the divertee does not successfully complete the program, criminal charges may be reinstated. There were two pre-trial diversion agreements this quarter. One case involved a retailer of meat and poultry product in the midwestern United States that was cited with transporting non-federally inspected product in commerce and offering them for sale, and allowing unsanitary conditions that caused product to become unwholesome. The firm entered into a 12-month pre-trial diversion agreement. Another case involved a distributor of meat product in the western United States that was cited with transporting rodent adulterated product. The firm entered into a 18-month pre-trial diversion agreement.

## **CIVIL ACTIONS**

FSIS also has authority to seek a variety of civil actions in Federal Court.

### Seizures

When FSIS has reason to believe distributed products are adulterated or misbranded, the Agency will, through the U.S. Attorney, institute a seizure action against the product. The product is held pending an adjudication of its status. If the court finds that the product is adulterated or misbranded, it will condemn the product. Condemned product cannot be further processed to be used for human food. One seizure was initiated by FSIS during this reporting period.

**Table 10. Seizure Actions  
(07/01/02 to 09/30/02)**

<b>Name</b>	<b>Location</b>	<b>Complaint</b>	<b>Seizure</b>	<b>Action</b>
LAGROU COLD STORAGE	CHICAGO, IL	7/19/02	7/19/02	Approximately 14 million pounds of meat and poultry product was seized because it was adulterated, prepared, packed, or held under insanitary conditions.

Injunctions

FSIS, through the U.S. Attorney, may request a U.S. District Court to enjoin repetitive violators of the FMIA, PPIA, or EPIA. The Agency seeks injunctions to stop uninspected retail stores from processing products without required inspection for wholesale business or to prevent or restrain other violations of law. There was one new injunction reported for the period.

**Table 10. Civil Actions  
(07/01/02 to 09/30/02)**

<b>Name</b>	<b>Location</b>	<b>Complaint</b>	<b>Injunction</b>	<b>Action</b>
DAIFUKU TRADING CORP. KWON JOONG GAB, PRES.	FLUSHING, NY	7/8/02	7/22/02	On July 22, 2002, the firm was permanently enjoined for violating the FMIA and PPIA, and was required to pay \$20,000 in investigation costs. The court action came as a result of the firm's selling, transporting, offering for sale, or receiving for transportation meat and poultry products lacking the marks of federal inspection.

False Claims Act Violations

The Department of Justice Affirmative Civil Enforcement (ACE) program is used by U.S. Attorneys to recover damages when a violation of law involves fraud against the Federal government. Under the False Claims Act, the government may recover three times its estimated losses. FSIS typically seeks action under this program for cases involving products, not in compliance, sold to the military, to public schools engaged in the school lunch program, or to other Federal institutions. There are no ACE program actions reported for this period.
