Preface

The Government Performance and Results Act (GPRA) requires federal agencies to report annually on how the agency measured against the performance targets set in its annual plan. The Indian Health Service (IHS) GPRA measures include clinical prevention and treatment, quality of care, infrastructure, and administrative efficiency functions.

The IHS Clinical Reporting System (CRS) is a Resource and Patient Management System (RPMS) software application designed for national reporting, as well as Area Office and local monitoring of clinical GPRA and developmental measures. CRS was first released for FY 2002 performance measures (as GPRA+) and is based on a design by the Aberdeen Area Office (GPRA2000).

This manual provides instructions on using the CRS. Version 12.1 and adds and updates fiscal year (FY) 2012 clinical performance measures to existing FY 2002 through FY 2011 measures.

CRS is the reporting tool used by the IHS Office of Planning and Evaluation to collect and report clinical performance results annually to the Department of Health and Human Services and to Congress.

Each year, an updated version of CRS software is released to reflect changes in the logic descriptions of the different denominators and numerators. Additional performance measures may also be added. Local facilities can run reports as often as they want and can also use CRS to transmit data to their Area Office. The Area Office can use CRS to produce an aggregated Area Office report for either annual GPRA or Area Office director performance reports.

CRS produces reports on demand from local RPMS databases for both GPRA and developmental clinical performance measures that are based on RPMS data, thus eliminating the need for manual chart audits for evaluating and reporting clinical measures.

To produce reports with comparable data across every facility, the GPRA measures definitions were “translated” into programming code with the assistance of clinical subject matter experts. CRS uses predefined taxonomies to find data items in the RPMS Patient Care Component to determine if a patient meets the performance measure criteria. Taxonomies contain groups of codes (e.g., diagnoses or procedures) or site-specific terms. Each performance measure topic has one or more defined denominators and numerators.

Administrative and clinical users can review individual or all measures at any time to:

- Identify potential data issues in their RPMS; for example, missing or incorrect data.
- Monitor their site's performance against past national performance and upcoming agency goals.
- Identify specific areas where the facility is not meeting the measure in order to initiate business process or other changes.
- Quickly measure impact of process changes on performance measures.
- Identify IHS Area Offices meeting or exceeding measures to provide lessons learned.

Users of the RPMS CRS include:

- Area Office and site quality improvement staff
- Compliance officers
- GPRA coordinators
- Clinical staff, such as physicians, nurses, nurse practitioners, and other providers
- Area Office directors
- Any staff involved with quality assurance initiatives
- Staff who run the various CRS reports

1.0 Introduction

This manual provides user instructions on installing Version 12.1 of the Clinical Reporting System (CRS). The manual provides installation instructions for both the Resource and Patient Management System (RPMS) server side software and the Visual CRS graphical user interface (GUI).

1.1 Key Changes in Version 12.1

1.1.1 Changes to National GPRA Reports

No changes to current National GPRA Reports.

1.1.2 Logic Changes to National GPRA & PART Report Measures

- GPRA Developmental Measures:
 - Added the following new GPRA Developmental measures: HIV Screening (past 5 years, ever, with CD4 count)
 - Deleted the following GPRA Developmental measures: HIV Screening (Dev pregnancy logic #1); HIV Screening (Dev pregnancy logic #2)
 - Updated denominator for the following measures to be Active Clinical Plus Behavioral Health: Alcohol Screening; Intimate Partner (Domestic) Violence Screening; Depression Screening
 - Updated codes in the following measures: Diabetic Retinopathy; Cancer Screening: Pap Smear Rates; Colorectal Cancer Screening (Revised Logic #1-HEDIS); Comprehensive Cancer Screening; Depression Screening; Comprehensive CVD-Related Assessment; HIV Screening; Sexually Transmitted Infection (STI) Screening; Use of High-Risk Medications in the Elderly
- Diabetes: Glycemic Control: Added measure for A1c \Rightarrow 7 and $<$ 8.
- Diabetes: LDL Assessment: In the Logical Observation Identifiers Names and Codes (LOINC) taxonomy for LDL (BPG LDL LOINC CODES), added codes 11054-4, 13459-3, 14155-6, 16615-7, 16616-5, 43394-6, 44711-0, 44915-7, 50193-2, 53133-5, 56036-7.
- Diabetes: Nephropathy Assessment: (1) Added LOINC codes 50384-7 and 69405-9 to BGP ESTIMATED GFR LOINC. (2) Added LOINC codes 13991-5, 2888-6, 40857-5, 50209-6, 51190-7, 53229-1, 53525-2 to BGP QUANT URINE PROT LOINC.

- Diabetic Retinopathy: (1) Deleted code V72.0 from Other Eye Exam definition. (2) Removed clinic code 64 from Other Eye Exam definition.
- Cancer Screening: Pap Smear Rates: Added LOINC code 49034-2 to BGP PAP LOINC CODES.
- Comprehensive CVD-Related Assessment: Added LOINC codes 11054-4, 13459-3, 14155-6, 16615-7, 16616-5, 43394-6, 44711-0, 44915-7, 50193-2, 53133-5, 56036-7 to BGP LDL LOINC CODES.
- HIV Screening: (1) Updated pregnancy definition to include only POV codes that denote antepartum pregnancy and excludes visits where the primary provider is a CHR (Provider Code 53). (2) Added LOINC codes 49580-4, 49718-0, 49890-7, 49905-3, 50624-6, 50790-5, 53379-4, 53825-6, 53923-9, 54086-4, 57182-8, 57974-8, 57975-5, 58900-2, 59052-1, 59419-2, 62456-9, 62469-2, 68961-2, 69353-1, 69354-9 to BGP HIV TEST LOINC CODES.

1.1.3 Key Logic Changes to Non-GPRA Measures

For key logic changes to non-GPRA measures, please refer to the CRS 2012 (version 12.1) Selected Measures Report Performance Measure List and Definitions document located on the CRS Web site at

http://www.ihs.gov/cio/crs/documents/crsv12/SelectedMeasuresV12_1.pdf.

1.1.4 Additional Key Enhancements and Revisions

The ability to automatically run the GPRA report and export to Area has been included.

2.0 Installation Notes

Note: Read the entire Notes File prior to attempting any installation.

Prefix: BGP

Current Version: 12.1

Note: This distribution of the CRS contains Version 12.1 of CRS and the GUI front end to the CRS system. The server-side (i.e. “roll-and-scroll” or backend) version 12.1 of the package can be installed alone or both the GUI and the server-side versions can be installed. Currently, there is no requirement to install the GUI.

Please install version 12.1 of CRS (bgp_1210.k) at all sites regardless of whether the site opts to install and use the GUI portion of the package. Version 12.1 of CRS and the GUI have different requirements so please take note of the requirements section for each piece of the software.

2.1 CRS Distribution Contents and Required Resources

2.1.1 Contents of Distribution

File	Description
bgp_1210.k	Kernel Installation and Distribution System (KIDS) file containing software
bgp_121i.pdf	Installation guide in PDF format (this manual)
bgp_121t.pdf	Technical Manual in PDF format
bgp_121u.pdf	User Manual in PDF format
bgp_121u_logicselected.pdf	CRS Clinical Performance Measure Logic Manual in PDF format
bgp_121u_visual.pdf	Visual CRS User Manual in PDF format
bgp_1210client.zip	Visual CRS software for Client's PC

2.1.2 Required Resources

IHS Clinical Reporting System version 12.0 (bgp_1200.k) must be installed.

2.2 Visual CRS (GUI) Distribution Contents and Required Resources

2.2.1 Contents of GUI CRS Distribution

- bgp_1210client.zip

The following two files are contained in the zip file:

- bgp_1210setup.exe
- bgp_1210.msi

2.2.2 Required Resources for GUI CRS

Additional requirements for installing and using Visual CRS on a client's PC:

- *On the RPMS Server:*
 - BMX v4.0
 - IHS Clinical Reporting System version 12.1
- *On the Client (User's) PC:*
 - Windows XP Service Pack 3 or higher
 - Microsoft Office 2003 or later
 - .NET Framework v3.5sp1
 - If the CRS GUI is not going to be installed, ignore these requirements.
 - If the .NET Framework v3.5 sp1 is not installed it will automatically be downloaded and installed when the client installation is started.

2.3 Before You Begin

- Make a copy of this distribution for offline storage
- Print all notes/readme files
- Create a printed audit trail, in case there are any problems with the installation

To capture terminal output during the installation, use an auxport printer attached to the terminal on which the installation is being performed.

3.0 Installation Instructions

Note: This installation is a KIDS install. For any questions on how to do a KIDS installation, please contact your Area Office information systems support personnel.

In all UCIs running the IHS CRS:

1. Ensure that users are unable to use the CRS for the duration of this installation.
2. Save all routines (^%RO (CACHE) in the BGP2* namespace for use in returning to the prior existing version, if needed.

Notes:

1. *Do not* delete any of these routines prior to installation.
2. If this is a first install, there will be no routines in this namespace.
3. If no problems are noted with the new installation, remove saved routines from your system 7–10 days after this install.

3. Install bgp_1210.k. This file is the KIDS file for the IHS CRS.
 - a. Load the distribution into KIDS using **Option 1** on the **KIDS Installation menu**. The distribution was released in a file named bgp_1210.k
 - b. Verify the load using **Option 2** on the **KIDS Installation menu**.
 - c. Consider using **Options 3** and **4** on the **KIDS Installation menu** to print and compare the Transport global.
 - d. For results, use the **KIDS Install File Print** option to view/print the IHS CLINICAL REPORTING SYSTEM V12.1 entry.

Note: For assistance with a KIDS install, call your Area Office support personnel.

4. After the install completes, assign security keys, as appropriate, using the following table.

Name	Descriptive Name	Description
BGPZAREA	BGP Area Report	This key unlocks the Area Office report options on the main BGPMENU. Note: This key should be assigned <i>only</i> at the Area Office level.
BGPZMENU	BGP Main Menu–CRS	This key unlocks the main CRS menu. It should be assigned to all users who need to run GPRA/CRS reports.
BGPZ PATIENT LISTS	BGP Patient Lists	This key allows the holder to obtain patient lists. The patient lists contain sensitive patient/clinical information. This key should be given <i>only</i> to those users who have a need for such information.
BGPZ SITE PARAMETERS	BGP Site Parameters	This key should be given to those with authority to update the site parameters.
BGPZ TAXONOMY EDIT	BGP Taxonomy Edit	This key should be given <i>only</i> to users who will need to update taxonomies.

3.1 Installation of the CRS GUI

There are two parts to the CRS GUI install: installation on the RPMS server and installation on the local (client) PC. See the steps below for installation instructions.

3.1.1 Installation on the RPMS server

1. Make sure BMX Version 4.0 has been installed in RPMS on the RPMS Server.
2. Make sure CRS version 12.1 has been installed in RPMS on the RPMS server. (See instructions above.)

Note: If a previous version of Visual CRS is being used you will not need to perform Steps 3 to 5. If this is the first time Visual CRS is being used perform Steps 3 to 5.

3. Assign option BGPGRPC as a secondary menu option with a synonym of **BGPG** for each user.
4. Assign option BMXRPC as a secondary menu option with a synonym of **BMX** for each user.

3.1.2 Installation on each user's (client) PC

1. Place **bgp_1210client.zip** into a directory of your choice and unzip the file. There are two files included in the zip file: **bgp_1210.msi** and **bgp_1210setup.exe**.
2. If a previous version of the Visual CRS product is installed it will need to be removed. Go to the **Start** menu. Then go to **Control Panel** then click **Add/Remove Programs** and select and remove **Visual CRS**.
3. Double click the **bgp_1210setup.exe** file that was distributed with Visual CRS. If asked, accept the License Agreement and follow the instructions for downloading and installing Microsoft .Net Framework 3.5 sp1 (this will only occur if the most current version of Microsoft.Net Framework 3.5 sp1 is not on the local PC). This step takes approximately 20-30 minutes over a DSL connection.
4. Follow the prompts on the **Visual CRS Setup Screens** and accept all of the defaults.
5. Double click the **Visual CRS** shortcut that appears on the desktop.
6. If this is the first install you will need to add a new connection. Please refer to the **BMX 4.0 User Manual** for instructions.
7. When the **RPMS Login** window appears, enter your RPMS access and verify codes, and then click **OK**.
8. If data for multiple facilities is stored on the same RPMS database, the **Select Division** window is displayed. Select a Division, and then click **OK**.
9. You are now in the Visual CRS software.

4.0 Sample Installations

4.1 Sample Installation of CRS on RPMS Server

```

Select Kernel Installation & Distribution System Option:

KIDS  Kernel Installation & Distribution System ...
NTEG  Build an 'NTEG' routine for a package
PG    Programmer mode
      Calculate and Show Checksum Values
      Clean Error Trap
      Delete Unreferenced Options
      Error Processing ...
      Global Block Count
      List Global
      Map Pointer Relations
      Number base changer
      Routine Tools ...
      Test an option not in your menu

Select Programmer Options Option: KID  Kernel Installation & Distribution System

      Edits and Distribution ...
      Utilities ...
      Installation ...
      Patch Monitor Main Menu ...

Select Kernel Installation & Distribution System Option: Installation

1      Load a Distribution
2      Verify Checksums in Transport Global
3      Print Transport Global
4      Compare Transport Global to Current System
5      Backup a Transport Global
6      Install Package(s)
      Restart Install of Package(s)
      Unload a Distribution

Select Installation Option: 1  Load a Distribution
Enter a Host File: C:\cmi\ bgp_1210.k

KIDS Distribution saved on Apr 25, 2012@12:11:36
Comment: IHS CLINICAL REPORTING SYSTEM V12.1

This Distribution contains Transport Globals for the following Package(s):
Build IHS CLINICAL REPORTING 12.1 has been loaded before, here is when:
      IHS CLINICAL REPORTING 12.1   Install Completed
                                   was loaded on Mar 28, 2012@09:36:10

OK to continue with Load? NO// YES

Distribution OK!

IHS CLINICAL REPORTING 12.1 Installed.
Apr 25, 2012@11:39:01

Not a VA primary domain

```
Install Completed

1      Load a Distribution
2      Verify Checksums in Transport Global
3      Print Transport Global
4      Compare Transport Global to Current System
5      Backup a Transport Global
6      Install Package(s)
      Restart Install of Package(s)
      Unload a Distribution

You have 1 PENDING ALERTS
      Enter "VA to jump to VIEW ALERTS option

6      Install Package(s)
      Restart Install of Package(s)
      Unload a Distribution
```

Figure 4-1: Sample installation for IHS Clinical Reporting package 11.0

4.2 Sample Installation of the CRS GUI

1. Double click **bgp_1200setup.exe** to display the following dialog:

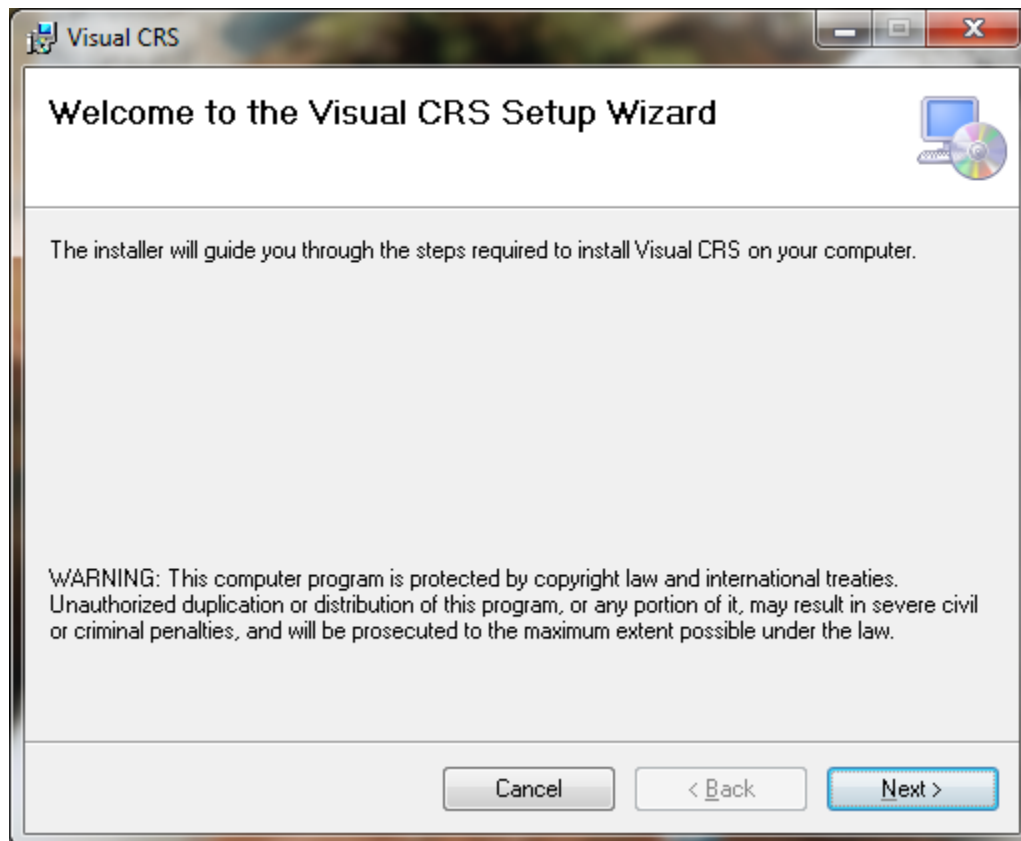

Figure 4-2: Visual CRS Setup Wizard

2. Click **Next**.

Figure 4-3: Visual CRS installation wizard

3. Click **Next**.

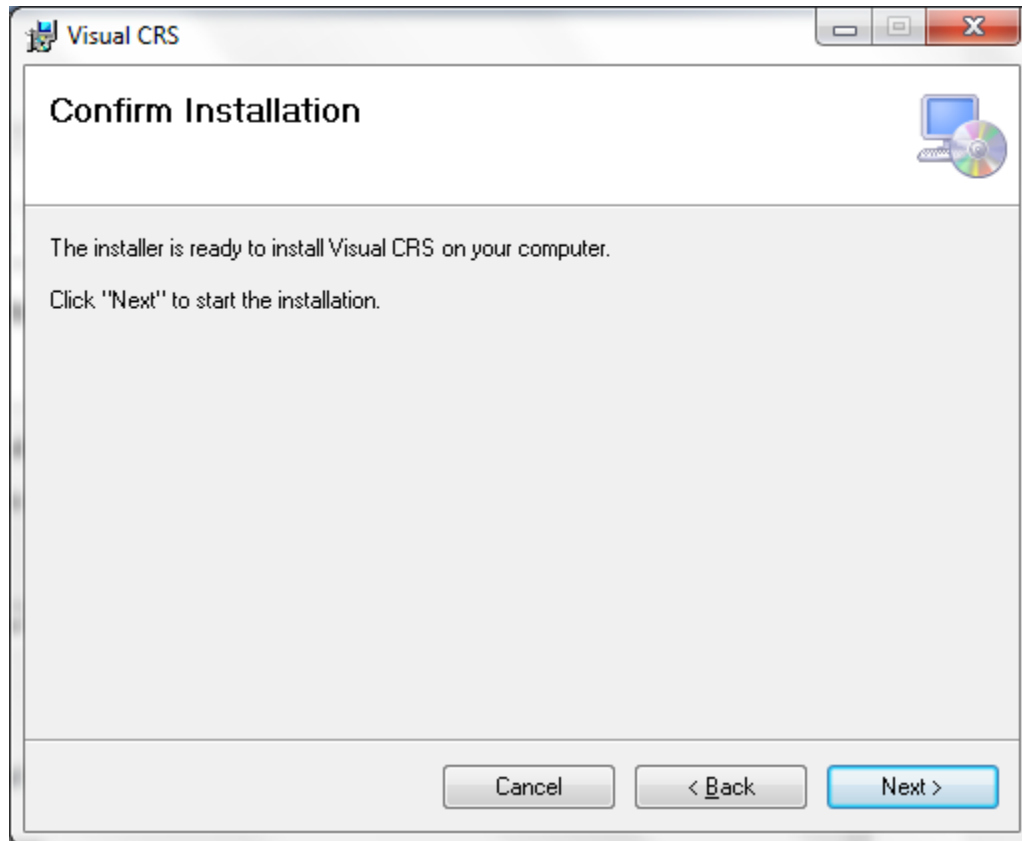

Figure 4-4: Visual CRS installation wizard

4. Click **Next**.

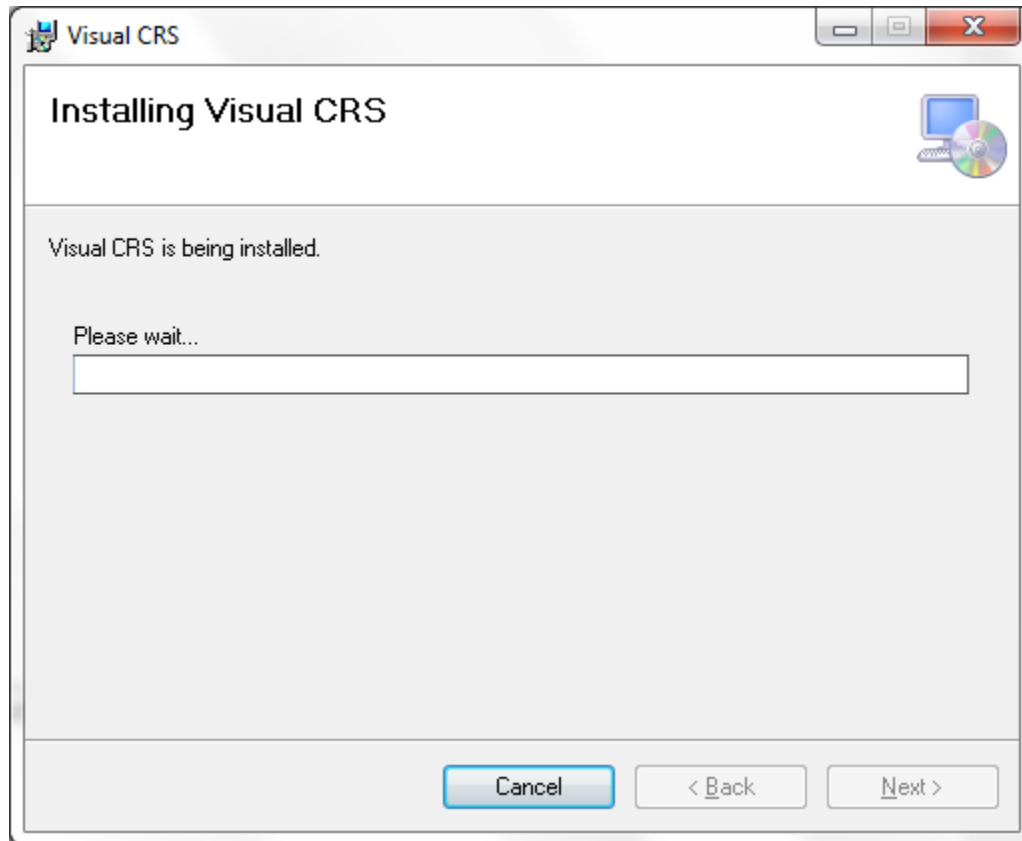

Figure 4-5: Installation of Visual CRS

5. Wait while the application is installed.

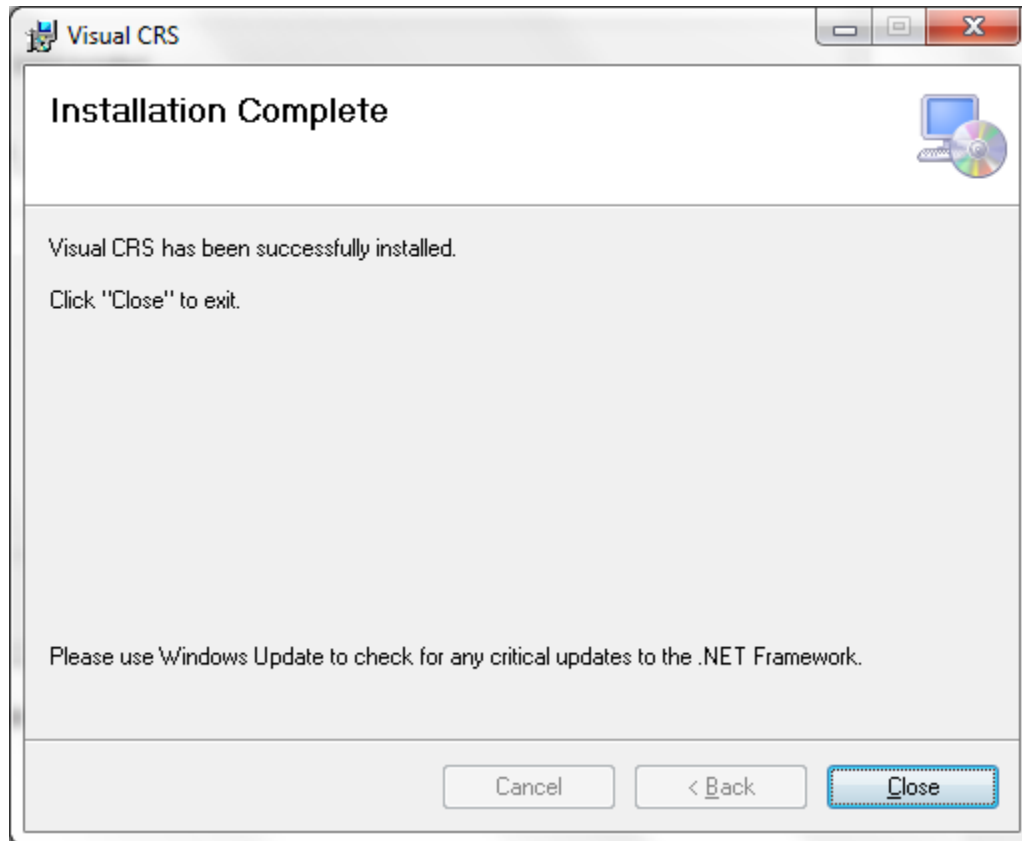

Figure 4-6: Final screen for Visual CRS installation

6. When Visual CRS has been successfully installed the **Installation Complete** screen will display. Click **Close**.

A desktop shortcut named Visual CRS should now be available. Refer to the user manual for instructions on use of the Visual CRS application.

Contact Information

If you have any questions or comments regarding this distribution, please contact the OIT Help Desk (IHS).

Phone: (505) 248-4371 or (888) 830-7280 (toll free)

Fax: (505) 248-4363
