

***Kshemendra Paul***  
***Chief Architect, Office of E-Gov and IT***  
***Office of Management and Budget***

Kshemendra Paul is the Chief Architect at the Office of E-Gov and IT at the Office of Management and Budget. He formerly served as the Chief Architect for Department of Justice and the Program Executive for the National Information Exchange Model (NIEM) Program. At Justice he led efforts around data standards and inter-operability with Federal, State and Local stakeholders, resulting in adoption of NIEM as the basis for terrorism information sharing as well as grass roots based adoption and use of NIEM for cross domain, cross level of government information sharing. Mr. Paul has over 20 years of experience in program management, product management, business and architecture. Before joining the civil service in 2005, Mr. Paul was an active entrepreneur, co-founding LocalEyes (sold to AOL) and founding Andelina (sold to FoundryOne). He has participated as a member of senior management for a variety of other technology product and service companies. He holds both Bachelor's and Master's Degrees in Electrical Engineering, and an additional Bachelor's degree in Mathematics, from the University of Maryland, College Park.

***Laurence Brewer, CRM***  
***Director, Lifecycle Management Division***  
***National Archives and Records Administration***

Laurence Brewer is the Director of the Life Cycle Management Division in the Modern Records Program at the National Archives and Records Administration in College Park, Maryland. Laurence oversees the scheduling and appraisal of Federal records and has a leadership role in developing records management regulations and guidance; supporting records management training for employees across the Federal Government; and evaluating the effectiveness of records management programs in Federal agencies. Prior to joining NARA, Mr. Brewer was a records management contractor responsible for managing records management programs at the Environmental Protection Agency and the Virginia Department of Transportation. He has more than 20 years experience in records and information management and earned his Certified Records Manager designation in 1998.
