

Feel good about yourself every time you lather up.

If you're for water like me, then one thing you can do is install a WaterSense labeled showerhead. This way I can get a good strong shower but use 20% less water in the process. In fact, the average household could save more than 2,300 gallons a year. So, join me and thousands of our neighbors in the We're for Water campaign. Together we can stand up for water by making simple changes at home.
