# *CDS Announcement*

## **DISTRIBUTION OF INTEGRATING RESOURCE RECORDS IN MDS-SERIALS**

Subscribers to MDS-SERIALS will begin to see “integrating resource” records (Leader/07, Bibliographic Level with value “i”) distributed as part of the MDS-SERIALS product, no earlier than September 1, 2007. The records will reflect those created by the Library of Congress and other libraries participating in CONSER or BIBCO, the bibliographic components of the Program for Cooperative Cataloging. Legacy records created by LC staff over many years as monographs, and previously distributed in various monographic MDS services, will eventually be converted to MDS-SERIALS as resources allow.

Questions regarding these records should be directed to:
