## Library of Congress decisions on application of *Descriptive Cataloging of Rare Materials (Books)*

LC's Rare Book Team, Special Materials Cataloging Division, has made decisions about the application of *Descriptive Cataloging of Rare Materials (Books)* (DCRM(B)).

## Preliminary decisions:

When to apply DCRM(B): Apply DCRM(B) to all pre-1801s and selectively for later publications per cataloger's judgment or based on a collection-wide (processing plan) decision.

Catalog at edition or copy level: Generally follow DCRM(B) by cataloging at the edition level with exceptions per cataloger's judgment or based on a collection-wide (processing plan) decision.

## Options at specific rules:

(identified by "alternative rule", "optional", "optionally", "optional note", "optional local note", "if considered important")
