The Budget provides \$19.1 billion for the Tenant-Based Rental Assistance Program (also known as the Housing Choice Voucher program). The Housing Choice Voucher program provides housing assistance to over two million extremely low- to very low-income families to rent in the neighborhoods of their choice. This is the Federal government's largest and most income-targeted program for assisting very low-income families to rent decent, safe and sanitary housing in the private market. About 2,350 state and local Public Housing Authorities (PHAs) administer the Housing Choice Voucher program.

In addition to continuing assistance for families anticipated to be under lease by 2013, the Budget provides new vouchers to make progress on HUD's annual performance goals for preserving the number of families receiving rental assistance and for reducing the number of homeless families and homeless veterans. The Budget includes \$111 million to renew nearly 15,000 Mainstream vouchers for Housing for Persons with Disabilities previously funded from the Section 811 account; and \$75 million in new vouchers for homeless veterans through the HUD-Veteran Affairs Supportive Housing (HUD-VASH) program. The account also includes \$75 million for tenant protection vouchers, which are provided when certain actions occur beyond the control of the residents, such as public housing demolition or disposition, or when landlords terminate their Project-Based Rental Assistance contracts.

The Budget includes several policy proposals that provide administrative and program flexibility, implement program management improvements, and achieve measurable savings. The Budget proposes the following: (1) SPONSOR-BASED ASSISTANCE FOR HOMELESS FAMILIES. This proposal supports the Federal Plan to Prevent and End Homelessness by proposing flexible authority for sponsor-based voucher assistance. PHAs would administer competitions to award voucher funding to not-for-profit service providers that leverage and deliver supportive services for homeless families; (2) BIENNIAL AND ALTERNATIVE INSPECTIONS. This proposal reduces PHA administrative burden and allows the PHAs to focus limited resources on higher risk units by changing the requirement for mandatory inspection of units from one to every two years. In addition, PHAs will be able to satisfy inspection requirements through alternative standards if they are established by other Federal housing programs, such as HOME Investment Partnerships and Low-Income Housing Tax Credit programs; (3) CONSOLIDATED FAMILY SELF-SUFFICIENCY (FSS) PROGRAM. This proposal streamlines services and aligns FSS policies and service coordination for HUD-assisted residents in Housing Choice Voucher, Public Housing, and Project-Based Rental Assistance (please see FSS account); and (4) CONSOLIDATED OPPORTUNITIES FOR RESIDENT ENRICHMENT (CORE). This proposal authorizes PHAs to use a portion of their funds from Public Housing

PUBLIC AND INDIAN HOUSING—Continued

Capital, Public Housing Operating, and Housing Choice Voucher administrative fees to provide service coordination, case management, and other supportive service activities that promote positive resident outcomes related to education, health, self-sufficiency and quality of life.

The Administration also continues to improve the management of the Housing Choice Voucher program by making progress on the development of the Next Generation Management System, which will comprehensively overhaul and improve HUD information technology systems to better manage and administer the program.

The Budget proposes an exemption of MR properties from the 60,000 unit cap on properties that can convert to PBRA or PBV contracts. The 60,000 unit cap would apply to Public Housing conversions alone, while the number of MR conversions (at existing subsidy levels) would not be constrained. This will enable the Department to conduct a demonstration and complete evaluation of all conversions while also preserving as many viable MR properties as possible.

The Budget also includes key provisions that reform the rent structure across HUD's rental assistance programs and effectively reduce the amount necessary for contract renewals: (1) The required minimum rent is increased to \$75 per month, which is comparable to the minimum rent ceiling of \$50 enacted in 1998 adjusted for inflation. Consistent with current policy, PHAs must exempt families facing financial hardship from payment of the minimum rent; (2) The definition of extremely low-income is broadened to apply to families with incomes that are the higher of 30 percent of Area Median Income or the Federal poverty level; and (3) The threshold used to determine deductions for unreimbursed medical expenses is increased from 3 to 10 percent of family income.

In 2013, the Administration will also begin implementation of the Rental Assistance Demonstration (RAD), as authorized by the Consolidated and Further Continuing Appropriations Act of 2012 (P.L. 112–55). RAD provides PHAs and owners of rental properties assisted under the Public Housing, Section 8 Moderate Rehabilitation, Rent Supplement, and Rental Assistance Payment programs the option to convert their properties to long-term Project-Based Rental Assistance (PBRA) or Project-Based Voucher contracts. The Budget reflects a total estimated transfer of \$74 million from the Public Housing Capital and Operating Funds to the Tenant-Based Rental Assistance account to implement the program.

Until 2005, the Housing Certificate Fund provided funding to both the project-based and tenant-based components of the Section 8 program. Project-Based Rental Assistance and Tenant-Based Rental Assistance are now funded in separate accounts. The Housing Certificate Fund retains and recovers balances from previous years' appropriations. The Budget reinstates appropriations language providing for recovered amounts to be used to

support contract renewals, amendments, and performance-based contract administrators.

The Budget requests \$8.7 billion for Project-Based Rental Assistance (PBRA), of which \$400 million is requested as an advance appropriation to become available in 2014. The request reflects a reduction in upfront funding for some PBRA contracts that cross fiscal years, which will not reduce or delay payments to landlords or impact the number of families served by the program.

The PBRA program assists approximately 1.2 million extremely low- to low-income households in obtaining decent, safe, and sanitary housing in private accommodations. PBRA serves families, elderly households and disabled households and provides transitional housing for the homeless. Through this funding, HUD supports approximately 17,550 contracts with private owners of multifamily housing by paying the difference between what a household can afford, generally 30 percent of its eligible income, and the approved market-based rent for a housing unit.

The Budget includes two proposals that provide measurable savings and policy alignment across all HUD-assisted rental housing. The minimum rent is increased to \$75 per month and the threshold for deducting unreimbursed medical expenses is increased to 10 percent of family income. Consistent with current policy, families facing financial hardship must be exempt from payment of the minimum rent. PBRA program costs are further reduced through the following proposals: (1) improving oversight of market rent studies used to set subsidy payment levels; (2)

HOUSING PROGRAMS—Continued

capping annual subsidy increases for certain properties; and (3) using excess reserves (residual receipts) to offset HUD payments to landlords or, in the case of "new regulation" contracts, collecting those reserves in the PBRA account and using them to cover a portion of the payments.

Under the Rental Assistance Demonstration (RAD), authorized by the Consolidated and Further Continuing Appropriations Act of 2012 (P.L. 112-55), PHAs and owners of rental properties assisted under the Public Housing and Section 8 Moderate Rehabilitation (MR) programs have the option to convert the assistance of their properties to long-term PBRA or Project-Based Voucher (PBV, funded in the Tenant-Based Rental Assistance account) contracts. The Department will begin to implement RAD conversions in 2013. An estimated \$51 million and \$23 million requested for the Public Housing Operating Fund and Public Housing Capital Fund, respectively, will be transferred to the PBRA account to fund the conversion of approximately 24,000 Public Housing units to long-term PBRA contracts.

The Budget proposes an exemption of MR properties from the 60,000 unit cap on properties that can convert to PBRA or PBV contracts. The 60,000 unit cap would apply to Public Housing conversions alone, while the number of MR conversions (at existing subsidy levels) would not be constrained. This will enable the Department to conduct a demonstration and complete evaluation of all conversions while also preserving as many viable MR properties as possible.

Program activities include the following:

Contract Renewals and Amendments.— These activities provide funding for HUD to renew expiring contracts and amend contracts that have not expired but require additional funding for HUD to meet remaining payment obligations. These funds cover the direct housing costs of families in the program. Currently, 87 percent of contracts are funded annually; the other 13 percent are long-term contracts funded with previous appropriations, of which 40 percent will need amendment funding in 2013. Appropriations for these activities are supplemented with recoveries of excess balances remaining on expired contracts that utilized less than anticipated resources during their initial terms.

Contract Administrators.—This activity funds the local level administration of the program through HUD contracts with performance-based contract administrators. These entities, which are typically public housing authorities or state housing finance agencies, are responsible for conducting on-site management reviews of assisted properties; adjusting contract rents; reviewing, processing, and paying monthly vouchers submitted by owners; renewing contracts with property owners; and responding to health and safety issues at properties. The Budget requests up to \$260 million for this set-aside.

PUBLIC HOUSING CAPITAL FUND

The Budget proposes \$2.07 billion for the Public Housing Capital Fund, a formula program designed to respond to the capital and management improvement requirements of Public Housing. The program preserves and enhances a valuable affordable housing resource, which serves approximately 1.1 million families with limited incomes. Of the amount requested, over \$1.9 billion will fund capital grants to Public Housing Authorities (PHAs). The balance includes up to \$50 million for a Jobs-Plus pilot, \$15 million for public housing financial and physical assessment support, up to \$20 million for emergency capital needs resulting from non-Presidentially declared emergencies and natural disasters, and up to \$5 million for administrative and judicial receiverships.

The Administration proposes to combine the separate Operating Fund and Capital Fund programs into a single Public Housing subsidy stream. The current bifurcated structure presents restrictions that are difficult to implement and regulate, and underscores the isolation of Public Housing properties from mainstream real estate financing and management practices. The proposed merger will complete the transition of Public Housing to asset management, simplify the program, and reduce administrative burden on PHAs. As a first step towards consolidation, the Budget provides all PHAs with full flexibility to use their operating and capital funds for any eligible capital or operating expense. The Administration will submit authorizing legislation to consolidate the Operating Fund and Capital Fund programs in the spring of 2012.

The Budget includes up to \$50 million to pilot an expansion of the successful Jobs-Plus demonstration. This pilot will provide over 30,000 Public Housing residents with job search assistance and other employment related services, financial incentives to work through changes to rent rules, and supportive services such as child care and transportation assistance. The Budget also proposes the Consolidated Opportunities for Resident Enrichment (CORE) flexibility. This proposal authorizes PHAs to combine and use a portion of their Public Housing Capital, Public Housing Operating, and Housing Choice Voucher administrative fee funds for service coordination, case management, and other supportive service activities that promote positive resident outcomes related to education, health, self-sufficiency and quality of life.

In 2013, the Department will begin implementation of the Rental Assistance Demonstration (RAD) authorized by the Consolidated and Further Continuing Appropriations Act of 2012 (P.L. 112-55). RAD provides PHAs and other owners of rental properties assisted under the Public Housing, Section 8 Moderate Rehabilitation, Rent Supplement, and Rental Assistance Payment programs the option to convert the assistance on their properties to long-term Project-Based Rental Assistance (PBRA) or Project-Based Voucher contracts. The Budget reflects a total estimated transfer of \$46 million from the Capital Fund (in addition to \$102 million from the Operating Fund) to the PBRA and Tenant-Based Rental Assistance accounts to support the conversion of approximately 48,000 Public Housing units in 2013.

The Budget requests \$4.524 billion for the Public Housing Operating Fund, which provides operating subsidies to Public Housing Authorities (PHAs) to assist in funding the operation and maintenance expenses of Public Housing units in accordance with Section 9(e) of the United States Housing Act of 1937.

The Budget includes three reforms to the rent structure that reduce PHAs' eligibility for operating subsidies while protecting Public Housing tenants from financial hardship. The minimum rent is increased to \$75 per month, which is comparable to the minimum rent ceiling of \$50 enacted in 1998 adjusted for inflation. Consistent with current policy, PHAs must exempt families facing financial hardship from payment of the minimum rent. The Budget also requires PHAs to set flat rents closer to comparable market levels by establishing a floor at 80 percent of the applicable fair market rent. PHAs will phase in flat rent increases to ensure that a family's existing rental payment does not increase by more than 35 percent per year. Finally, the Budget increases the threshold for deducting unreimbursed medical expenses from 3 percent to 10 percent of family income.

In 2013, the Department will begin implementation of the Rental Assistance Demonstration (RAD) authorized by the Consolidated and Further Continuing Appropriations Act of 2012 (P.L. 112-55). RAD provides PHAs and other owners of rental properties assisted under the Public Housing, Section 8 Moderate Rehabilitation, Rent Supplement, and Rental Assistance Payment programs the option to convert their properties to long-term Project-Based Rental Assistance (PBRA) or Project-Based Voucher contracts. The Budget reflects a total estimated transfer of \$102 million from the Operating Fund (in addition to \$46 million from the Capital Fund) to the PBRA and Tenant-Based

Rental Assistance accounts to support the conversion of approximately 48,000 Public Housing units.

The Budget proposes \$150 million for Choice Neighborhoods to continue the transformation of neighborhoods of poverty into functioning, sustainable, mixed-income neighborhoods with appropriate services, schools, public assets, transportation, and access to jobs. The goal of the program, a central component of the White House Neighborhood Revitalization Initiative, is to demonstrate that concentrated and coordinated neighborhood investments from multiple sources can transform a distressed neighborhood and improve the quality of life of current and future residents. The Department awarded the first-ever Choice Neighborhood grants — 17 planning grants (\$4 million total) and five implementation grants (\$122 million total) — in 2011, and an additional \$3.6 million in planning grants was awarded in 2012.

Choice Neighborhoods implementation grants primarily fund the preservation, rehabilitation, and transformation of Public Housing and other HUD-assisted multifamily rental housing. These grants build on the successes of Public Housing transformation under HOPE VI with a broader approach to concentrated poverty. Grantees include not only public housing authorities but also local governments, non-profits and for-profit developers. Grant funds can be used for resident and community services, community development and affordable housing activities in surrounding communities, and multifamily or single family property disposition, including the conversion of these properties to affordable housing. The Budget will fund 4 to 6 implementation grants.

Grantees are required to undertake comprehensive local planning with input from residents and the community. A strong emphasis is placed on local community planning to improve schools and education programs, including early childhood initiatives. Of the amount requested, up to \$5 million will fund 14 to

18 planning grants to assist local partnerships to develop strong proposals for future implementation grant competitions.

The HOPE VI program, in coordination with funding from the Public Housing Capital Fund, has accomplished its goal of contributing to the demolition of 100,000 severely distressed Public Housing units. The Budget proposes no additional funds for this program. Instead, the Budget proposes to build on the success of HOPE VI with Choice Neighborhoods. First funded in 2010, Choice Neighborhoods makes a broad range of transformative investments in high-poverty neighborhoods where Public Housing and other HUD-assisted housing is concentrated. HUD awarded the first-ever Choice Neighborhoods planning and implementation grants in 2011.

Remaining balances of HOPE VI grants will spend out over several years as redevelopment projects are completed. Cumulative results of the HOPE VI program as of September 30, 2011 are as follows: 73,949 households relocated; 96,797 units demolished; 89,413 units (new and rehabilitated) completed; and 88,112 completed units occupied.

The Budget requests \$60 million for a consolidated Family Self-Sufficiency (FSS) Program to help HUD-assisted residents achieve self-sufficiency and economic independence. The FSS program is designed to provide service coordination through community partnerships that link assisted residents with employment assistance, training, child care services, and other supportive services. The funding will be allocated through a competition to eligible Public Housing Authorities (PHAs) and eligible entities to support service coordinators. Rather than operate two separate and independently administered FSS programs for Housing Choice Voucher and Public Housing families, the Budget proposes to consolidate and align the FSS program into one program to enable PHAs to more uniformly serve both programs' residents. This proposal will also make the program available to residents of HUD's other major rental assistance program, Project-Based Rental Assistance.

In addition to the FSS program consolidation, the Budget includes flexible authorities for PHAs to combine and use a portion of their funds from the Public Housing Operating and Capital Funds, and Tenant-Based Rental Assistance administrative fees towards additional service coordination that could complement the FSS program or provide residents with other supportive services that promote positive resident outcomes related to education, health, self-sufficiency and quality of life.

Title I of the Native American Housing Assistance and Self-Determination Act (NAHASDA) of 1996 (P.L. 104-330) authorized the Native American Housing Block Grant program. This program provides an allocation of funds on a formula basis to Indian tribes and their tribally designated housing entities to help them address housing needs within their communities. HUD has estimated that in fiscal year 2011, out of a population of 1.5 million American Indians and Alaska Natives in block grant formula areas, over 100 thousand households were either overcrowded or lacked adequate plumbing or kitchen facilities. According to the Senate Committee on Indian Affairs, in 2002, 90,000 Indian families were homeless or underhoused. On tribal lands, 28 percent of Indian households were found to be overcrowded or to lack adequate plumbing and kitchen facilities, compared to 5.4 percent of national households.

The Budget includes \$650 million for the total activities of this program in 2013, including \$2 million of subsidy for the Title VI loan guarantee program, which will guarantee \$18.3 million in loans to tribes. A primary goal of the Title VI program is to encourage private lenders to provide financing in Indian Country. The program provides for the Federal guarantee of notes or other obligations issued by Indian tribes or tribally designated housing entities for the purpose of financing affordable housing activities described in section 202 of the Act.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1998 and beyond (including modifications of guarantees that resulted from obligations in any given year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Hawaiian Homelands Homeownership Act of 2000 (P.L. 106-568) amended the Native American Housing Assistance and Self-Determination Act of 1996 by adding Title VIII, which authorized the Native Hawaiian Housing Block Grant program. This program provides funds to assist and promote affordable housing activities to develop, maintain and operate affordable housing for eligible low-income Native Hawaiian families.

It authorizes annual grants to the Department of Hawaiian Home Lands (DHHL) for housing and housing-related assistance, pursuant to an annual housing plan, within the area in which DHHL is authorized to provide that assistance. DHHL uses performance measures and benchmarks that are based on the needs and priorities established in its five- and one-year housing plans. The Budget requests \$13 million for this program.

LOW-RENT PUBLIC HOUSING—LOANS AND OTHER EXPENSES

The Low-Rent Public Housing Loan Fund provides direct Federal loans to fund remaining Public Housing Agency (PHA) and Indian Housing Authority (IHA) construction, acquisition, and modernization activities reserved under the Annual Contributions appropriation through 1986. These loans are made by borrowing from the Treasury. Under legislation enacted during 1986 (P.L. 99-272), amounts borrowed from the Treasury are forgiven at the end of each fiscal year and the loans to PHAs/IHAs are forgiven as construction, acquisition, and modernization activities are completed. Since 1987, new reservations of capital funds for construction, acquisition, and modernization activities have been provided directly from the Public Housing Capital Fund appropriations.

This program provides access to sources of private financing for Indian families, Indian tribes, and their tribally designated housing entities who otherwise could not acquire housing financing because of the unique legal status of Indian trust land. The Budget proposes \$7 million to support additional loan guarantee activity and to provide managerial and systems support. The program has issued 15,006 loan guarantees totaling 2.32 billion since 1995, with 43 percent of the activity occurring in 2010 and 2011. Even through the national foreclosure crisis, the program has maintained a claims rate of less than one percent. In 2013, this program is projected to grow by 25 percent, representing almost 5,300 loans to American Indian borrowers. To support this increase in demand, the Budget proposes giving HUD increased flexibility to raise fees within this program to ensure the necessary resources are available. For 2013, HUD proposes using this authority to raise the upfront fee 50 basis points to 1.5 percent, allowing it to subsidize up to \$900 million in Indian housing loans.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1992 and beyond (including modifications of guarantees that resulted from obligations in any year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

The Housing Opportunities for Persons with AIDS (HOPWA) program is the only Federal program dedicated to address the urgent housing needs of low-income Americans living with HIV and AIDS. HOPWA funding provides States and localities with resources and incentives to devise long-term comprehensive strategies for planning and providing housing and supportive services to meet the complex, multiple needs of persons living with HIV and AIDS and their families. HOPWA funds have been demonstrated to help reduce the risk of homelessness, increase housing stability, and improve access to HIV care and health outcomes for program participants.

Ninety percent of HOPWA funds are distributed to States and eligible metropolitan areas according to a formula, which is based on the number of AIDS cases in the jurisdiction. The remaining ten percent is awarded competitively to States, local governments, and private nonprofit entities for projects of national significance and for projects in non-formula areas. However, the HOPWA formula does not reflect the current nature and distribution of the epidemic. To modernize the HOPWA program, the Administration is proposing an updated formula based on living cases of HIV and adjusted for an area's fair market rent and poverty rates, focusing HOPWA funds on areas that have the most need. The proposal will also include several changes that will allow better targeting of HOPWA resources and more flexibility for grantees to provide the most cost-effective, timely interventions. These changes, which will be proposed in separate legislation, will improve the nation's response to the specialized housing needs of HIV/AIDS patients and will further the Administration's National HIV/AIDS Strategy.

The Budget provides \$330 million for this program in 2013 which will support housing stability among this vulnerable population.

The Community Development Fund account includes the Community Development Block Grant (CDBG), Sustainable Communities Initiative, and the Capacity Building program. This account also includes funding for the Indian Community Development Program.

In 2013, the Administration will continue to improve coordination and integration between community and economic development programs administered by the Department of Housing and Urban Development (HUD). Activities funded by the Sustainable Communities Initiative and the Capacity Building program will better align and reinforce community-based efforts in partnership and concert with CDBG formula grantees to achieve similar community development goals.

The Budget funds the CDBG formula grant program at \$2.9 billion to assist State and local governments address local priorities and needs. The CDBG program provides over 1,200 flexible annual formula grants to States, local governments, and Insular Areas to benefit mainly low- to moderate-income persons. The funding is used for a wide range of community and economic development activities, such as public infrastructure improvements, housing rehabilitation and construction, job creation and retention, and public services (e.g., child care). Seventy percent of the CDBG formula grants are distributed to mainly urban areas (entitlement communities), and 30 percent is distributed to the States (non-entitlement communities). Preserving this funding level reflects the Administration's commitment to assist State and local governments during challenging fiscal conditions. The Administration will work with State and local governments to better leverage CDBG formula funds to make progress on projects focused on economic growth. For example, the Administration will work with grantees to complement CDBG formula funds with other Federal investments, such as Sustainable Communities, Capacity Building, and Neighborhood Revitalization initiatives to help stabilize and revitalize local economies.

The Budget requests \$100 million for the Sustainable Communities Initiative. In partnership with the Department of Transportation (DOT) and the Environmental Protection Agency (EPA), the Sustainable Communities Initiative aims to expand job opportunities and improve the quality of life for families by providing incentives to regions and communities to innovate and develop comprehensive housing and transportation plans that result in sustainable development, reduced greenhouse gases and increased transit-accessible housing. The Budget provides \$46 million each for Sustainable Regional Planning Grants and Community Challenge Grants to support regional and local planning efforts that further the goals of the initiative. This initiative complements DOT's funding to strengthen state and local infrastructure capacity and EPA's technical assistance.

The 2013 Budget also includes \$35 million for the Capacity Building program, which is authorized by Section 4 of the HUD Demonstration Act of 1993. The Capacity Building program provides grants to national intermediaries to develop, enhance,

and strengthen the technical and administrative capabilities of community development corporations to carry out community development and affordable housing activities for low- and moderate-income persons that support and address local needs and priorities. The program requires grantees to provide a required match of three dollars from private sources.

The Indian Community Development program continues to be funded at \$60 million. This program provides eligible grantees with direct grants for use in developing viable Indian and Alaska Native Communities, including decent housing, a suitable living environment, and economic opportunities, primarily for low- and moderate-income persons.

This account also reflects prior year CDBG disaster supplemental spending, the 2009 American Recovery and Reinvestment Act funding of \$1 billion in CDBG formula grants, and \$2 billion for Neighborhood Stabilization Program (NSP) II competitive grants. The NSP grants are for emergency assistance for the redevelopment of abandoned and foreclosed homes. Both the \$3.92 billion NSP funding from the Housing and Economic Recovery Act of 2008 and the \$1 billion from the Dodd-Frank Wall Street Financial Reform and Consumer Protection Act are mandatory appropriations and are reflected in a separate account.

The 2013 Budget requests no funding for the Brownfields Economic Development Initiative (BEDI) program. BEDI is a competitive grant program designed to assist cities with the redevelopment of brownfield sites for the purposes of economic development and job creation. Brownfields are abandoned, idled, and underused industrial and commercial facilities and land where expansion and redevelopment is burdened by real or potential environmental contamination. The program is relatively small and local governments have access to other public and private funds, including the larger Community Development Block Grant (CDBG), which can serve similar purposes.

The HOME Investment Partnerships Program is authorized by the National Affordable Housing Act (P.L. 101-625), as amended. This program provides flexible annual formula grant assistance to States and units of local government to increase the supply of affordable housing and expand homeownership for low- to very-low income persons. Sixty percent of the formula grant funds is awarded to participating local governments and 40 percent is awarded to states. These communities often use the funds in partnership with local non-profit organizations to fund a wide range of activities that build, buy, and/or rehabilitate affordable housing for rent or homeownership or provide direct rental assistance to low-income people. Projects funded by HOME often leverage private dollars and are used in conjunction with the Low-Income Housing Tax Credit (LIHTC), Community Development Block Grant, and local funds. For example, 53 percent of almost 150,000 completed HOME assisted rental units were part of awarded LIHTC projects from 2007-2011. The Budget requests \$1 billion for the HOME Investment Partnerships Program and does not provide separate funding for the Self-Help Homeownership Opportunity Program (SHOP), as all SHOP activities are eligible under the HOME program.

Over time, the funding provided in the 2013 Budget is estimated to result in the production of almost 43,387 units of affordable housing through new construction, rehabilitation, and/or acquisition. It is also estimated that communities will use a portion of their funding to support tenant-based rental assistance for over 10,550 units.

The 2013 Budget also proposes statutory changes that would allow recaptured Community Housing Development Organization funds to be reallocated by formula, and facilitate eviction of HOME rental unit tenants who pose an imminent threat.

This account also reflects a \$2.25 billion special allocation of HOME funds provided under the American Recovery and Reinvestment Act of 2009 (P.L. 111-5), called the Tax Credit Assistance Program (TCAP). By the end of 2013, TCAP is expected to have accelerated the production and preservation of over 60,000 units of affordable housing that received an award of Low-Income

Housing Tax Credits. 17,763 TCAP units have already been completed, with a projected estimate of 40,000 completed units by the end of 2012.

The Housing Trust Fund was originally authorized in the Housing and Economic Recovery Act of 2008 (Pub. L. 110-289) under section 1338 of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 (12 U.S.C. 1301 et seq.) with a dedicated funding stream from assessments on Fannie Mae and Freddie Mac. However, the Federal Housing Finance Agency has indefinitely suspended these assessments. The Budget proposes to fund the Housing Trust Fund through legislation directing \$1 billion to capitalize the fund.

The purpose of the Housing Trust Fund is to provide grants to States to increase and preserve the supply of affordable rental housing and homeownership opportunities for extremely low- and very low-income families, and help address the growing shortage of affordable housing for these families. This program is similar to HOME, but is more income-targeted. The funding will be distributed by formula to States or State-designated entities that will target resources to areas with substantial needs. The funding will be used for production, preservation, and rehabilitation of affordable rental housing and for production, preservation, and rehabilitation of housing for homeownership (limited to 10 percent of the funding). Of the total amounts made available, not less than 75 percent shall be used to benefit extremely low-income households, for whom the shortage of affordable housing is most acute. Over time, the funding provided for the Housing Trust Fund in 2013 is expected to produce approximately 36,000 affordable units.

The 2013 Budget requests no appropriations for the Self-Help and Assisted Homeownership Opportunity Program (SHOP). Activities under the Capacity Building for Community Development and Affordable Housing Program are requested separately under the Community Development Fund account.

SHOP is authorized by Section 11 of the Housing Opportunity Program Extension Act of 1996, and provides funds to increase the ability of non-profit organizations to leverage funds from other sources to assist low-income homebuyers willing to contribute "sweat equity" toward the construction of their houses. The Administration plans to encourage State and local government grantees of the larger HOME Investment Partnerships Program to fund SHOP projects, as the HOME statute includes the same eligible activities.

The Neighborhood Stabilization Program (NSP) was authorized by the Housing and Economic Recovery Act of 2008 (HERA) and funded at \$3.92 billion. In response to the foreclosure crisis, HERA directed HUD to develop a formula to distribute the funds to State and local governments with the greatest need. To determine the areas with the greatest need, the allocation formula had to be based on home foreclosures, subprime loans, and mortgage defaults or delinquencies. Grantees may use NSP funds for a number of eligible activities, including establishing financing mechanisms; purchasing and rehabilitating abandoned or foreclosed properties; establishing land banks; demolishing blighted structures; and redeveloping vacant or demolished property. NSP grantees must use at least 25 percent of the funds appropriated for the purchase and redevelopment of abandoned or foreclosed residential properties that will be used to house individuals or families whose incomes do not exceed 50 percent of the area median income. In addition, all activities funded by NSP must bene-

fit low- and moderate-income persons whose income does not exceed 120 percent of area median income.

In September 2008, HUD announced direct NSP allocations to 309 jurisdictions, including all 50 states, Puerto Rico and the Insular Areas. Pursuant to HERA, grantees had 18 months from the date funds were made available to obligate the funds. By September 30, 2010, grantees obligated 99.7 percent of their funds. As of January 2012, grantees had expended more than 83 percent of this first round of NSP funding (NSP1).

The American Recovery and Reinvestment Act of 2009 (ARRA) made several changes to the NSP program as enacted by HERA and appropriated an additional \$2 billion in funding for the NSP program. The ARRA funding for the second round of NSP funding (NSP2) is reflected within the Community Development Fund account. In January 2010, HUD announced 56 awards under the NSP2 program and all funds were obligated on February 11, 2010. NSP2 grantees have until February 11, 2012, to expend 50 percent of their grant funds and must expend 100 percent by February 11, 2013. As of January 2012, grantees had expended more than 45 percent of NSP2 funding.

The Dodd-Frank Financial Reform and Consumer Protection Act of 2010 (Dodd-Frank Act) appropriated an additional \$1 billion for a third iteration of NSP (NSP3) in July 2010. The Department announced a formula allocation of these funds to 283 entities consisting of State and local governments in September 2010. Grantees submitted their plans for using the NSP3 funds by March 2011 and, from the date HUD made the funds available, grantees will have two years to expend 50 percent of the grant and three years to expend 100 percent.

As part of the American Jobs Act announced by President Obama on September 8, 2011, the Administration is proposing \$15 billion for Project Rebuild which would build upon the success of the Neighborhood Stabilization Program and expand opportunities for grantees to address abandoned and foreclosed commercial properties for redevelopment purposes. Of the requested \$15 billion for Project Rebuild, \$10 billion is for a formula allocation to State and local governments while \$5 billion is reserved for competitive distribution to governmental entities as well as non-profit and for-profit entities.

In 2013, HUD will continue the implementation of the HEARTH Act, legislation that combined HUD's three competitive grant programs—Shelter Plus Care, Supportive Housing, and Section 8 Moderate Rehabilitation Single Room Occupancy—into a single Continuum of Care program with flexibility to better meet community needs. Also, the HEARTH Act replaced the existing Emergency Shelter Grants program with the Emergency Solutions Grant program which places a larger focus on homelessness prevention. Finally, the legislation created the Rural Housing Stability Assistance program, which dedicates resources to preventing and ending homelessness in rural areas nationwide. HUD began implementation of the HEARTH Act with the Emergency Solutions Grants, Consolidated Plan, and Homeless Definition rules released in November 2011. The remainder of the rules are expected to be published in 2012.

The Homeless Assistance Grants account provides funds for the Emergency Solutions Grant (ESG), Continuum of Care (CoC), and the Rural Housing Stability Assistance programs. These programs, which award funds through formula and competitive processes, enable localities to shape and implement comprehensive, flexible, coordinated approaches to address the multiple issues of homelessness. Many communities have made great strides in creating comprehensive approaches to ending chronic homelessness through the development of local plans.

The Budget requests \$2.23 billion for a wide range of activities to assist homeless persons and prevent future homelessness. HUD estimates it will use \$1.91 billion for competitive renewals in the CoC program, \$286 million for the Emergency Solutions Grant Program, and approximately \$35 million for new competitive projects in the CoC, the Rural Housing Stability Assistance

program, the homeless data analysis project, and authorized administrative costs.

The 2013 Budget helps make progress toward ending homelessness by supporting the goals of "Opening Doors: the Federal Strategic Plan to Prevent and End Homelessness," which was published by the U.S. Interagency Council on Homelessness in 2010.

This program was created by the Supplemental Appropriations Act, 2008 (P.L. 110-252), which provided \$73 million for permanent supportive housing assistance as referenced in the Road Home Program of the Louisiana Recovery Authority (LRA). Of the total amount appropriated, \$50 million is for permanent supportive housing, which serves approximately 1,000 homeless individuals and families living with disabilities. These grants are administered under the Shelter Plus Care program, as authorized under subtitle F of title IV of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11403 et seq.). The LRA would be eligible to apply for Homeless Assistance Grants to renew this assistance. Additionally, this account provides \$23 million in project-based rental assistance vouchers to LRA to support an estimated 2,000 elderly and disabled disaster victims, as authorized, under section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)). Beginning in 2010, these vouchers are renewed within the Tenant-Based Rental Assistance account upon the termination of the original subsidy.

The Revolving Fund (liquidating programs) was established by the Independent Offices Appropriations Act of 1955 for the efficient liquidation of assets acquired under a number of housing and urban development programs, all of which are no longer active. The operational expenses are financed from a permanent, indefinite appropriation to administer the remaining repayments of loans and recaptures in the portfolio. Annually, any remaining unobligated balances in the account are returned as a dividend to the Treasury.

The Section 312 loan program portfolio, which provided first and junior lien financing at below market interest rates for the rehabilitation of homes in low-income neighborhoods, constituted a large portion of the account activities. This program ceased to originate new loans over 20 years ago. Since the sale of the Section 312 loan portfolio to the private sector in 2001, activity in this account has been minimal.

The 2013 Budget increases the guaranteed loan limit to \$500 million, but does not request appropriations for the Community Development Loan Guarantee program (Section 108). Instead of

COMMUNITY DEVELOPMENT LOAN GUARANTEES PROGRAM

subsidy, the Administration requests a legislative change to allow HUD to collect fees to offset credit subsidy costs and make related adjustments to the program. Carryover loan guarantee credit subsidy in this account will continue to be used until exhausted. The Budget requires that the program operate at a zero credit subsidy cost and provides for the collection of fees to fund program costs. Program activities include economic development projects, housing rehabilitation, public facilities rehabilitation, construction or installation for the benefit of low- to moderate-income persons, or to aid in the prevention of slums.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the loan guarantees committed since 1992, including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year. The subsidy amounts are estimated on a present value basis.

Since 1959, the Housing for the Elderly program (Section 202) has supported both the construction and operation of supportive housing for very low-income elderly households, including frail elderly. The 2013 Budget provides \$285 million to renew and amend operating subsidy contracts for existing Section 202 housing and \$90 million to support service coordinators who work on-site to help residents obtain critical services, such as benefit counseling. It also includes \$100 million for new awards of operating assistance to expand the supply of affordable, supportive senior housing by approximately 3,500 units.

The Administration's efforts to improve the efficiency and efficacy of the Section 202 program have been aided by the Section 202 Supportive Housing for the Elderly Act of 2010 (P.L. 111-372). The Act amended Section 202 of the Housing Act of 1959 (12 U.S.C. 1701q) and provided new authorities to HUD, including new flexibilities to ensure that existing Section 202 properties are not lost as affordable housing stock as owners opt out of their responsibilities through pre-payment. The 2013 Budget continues to support senior preservation rental assistance contracts (SPRACs) to ensure continued affordability for elderly residents living in older existing Section 202 properties that are at-risk of being lost as affordable housing stock.

The Administration is seeking further reforms, both legislative and administrative, to permit a new generation of Section 202 housing with supportive services targeted at populations most in need of affordable housing. In particular, the Budget proposes to carry over the Project Rental Assistance authority under the Section 811 Supportive Housing for Persons With Disabilities Program (created by the Frank Melville Supportive Housing Investment Act of 2010) to Section 202. This will allow HUD to provide Section 202 operating assistance directly to States to identify and fund supportive housing projects in line with state housing and health care priorities. Funded projects must be fully leveraged with other capital resources and only require Section 202 for operating assistance. The assistance to the state housing agencies can be applied to new or existing multifamily housing complexes funded through different sources, such as Low-Income Housing Tax Credits, HOME funds, and other Federal, state, and local programs. This will result in long-term strategies to increase the supply of affordable permanent housing units with structured access to appropriate services. These reforms ensure that the Section 202 Program continues to address the housing needs of elderly persons, but also enables the program to better

HOUSING FOR THE ELDERLY—Continued

facilitate cost savings to state and federal health care budgets through reduced institutionalization and emergency room utilization. These reforms will create and sustain significantly more affordable units at a lower initial cost than under the status quo, streamline and modernize the program to reduce administrative processing, increase the likelihood of successful completion within a shorter timeframe, and ensure that Section 202 units serve as a platform for elderly persons to live independently and age in place.

Since 1992, the Housing for Persons with Disabilities program (Section 811) has supported both the construction and operation of supportive housing for very low-income people with disabilities. The 2013 Budget provides \$96 million to renew and amend operating subsidy contracts for existing Section 811 housing, and includes \$54 million to allocate Section 811 Project Rental Assistance through States that demonstrate an integrated health care and housing approach to serving households with disabilities.

In 2013, HUD will continue to allocate Section 811 Project Rental Assistance to selected States to identify and fund supportive housing projects in line with state housing and health care priorities. These projects must be fully leveraged with other capital resources, such as Low-Income Housing Tax Credits, HOME funds, and other Federal, state, and local programs, and only require Section 811 for operating assistance. This authority, as with others in the Frank Melville Supportive Housing Investment Act of 2010 (P.L. 111-374), provides a strong first step in reforming Section 811 to make it more efficient and effective. The Administration continues to implement reforms to improve program efficacy and enable a new generation of Section 811 housing targeted at populations most in need of affordable housing with associated supportive services. Properly targeting such supportive housing can achieve significant savings for state and federal health care budgets through reduced institutionalization and emergency room utilization. These reforms will create and sustain more affordable units at a lower initial cost, streamline and modernize the program to reduce administrative processing, make new housing available within a shorter timeframe, and ensure that Section 811 units serve as a platform for disabled persons to live independently in integrated community-based settings.

The Housing Counseling Assistance Program provides comprehensive housing counseling services to eligible homeowners and tenants through grants to non-profit intermediaries, state governmental entities, and other agencies with local to national presences. Eligible counseling activities include pre- and post-purchase education, personal financial management, reverse mortgage product education, foreclosure prevention/mitigation, and rental counseling. The Housing Counseling Assistance Program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, and elderly citizens including the Administration's current foreclosure mitigation efforts. The primary objectives of the Housing Counseling program are to expand homeownership opportunities, improve access to affordable housing, prevent foreclosure, increase financial literacy, and aid in HUD's commitment to bridging the minority homeownership gap. Additionally, the program supports a significant number of individuals with FHA-insured loans, which helps maintain the financial soundness of the FHA insurance funds. The 2013 Budget includes \$55 million for this program, the bulk of which funds grants for the direct provision of counseling.

The objective of the Energy Innovation Fund is to provide support for promising local initiatives that can be replicated across the nation and to stimulate and enhance private investment in cost-saving energy efficiency retrofits of existing housing, through improved use of FHA single family and multifamily mortgage products. \$50 million was provided for this initiative in 2010.

The single family Energy Efficient Mortgage Innovation Pilot will provide up to \$25 million in incentive payments to support the new FHA PowerSaver loan guarantee program. PowerSaver is a partnership between HUD and 18 lenders that will extend the benefits of Title I Energy Efficient Property Improvement loans to more homeowners enabling them to borrow up to \$25,000 for terms as long as 20 years to make energy improvements of their choice, based on a list of proven measures developed by FHA and the U.S. Department of Energy (DOE).

The Multifamily Energy Innovation Fund Pilot will provide \$25 million for financing and applied research demonstrations. The demonstrations will identify solutions to the primary and long-standing challenges to implementing energy efficiency and renewable energy improvements in existing affordable multifamily properties and leverage private capital and additional public funding to demonstrate proof of concept of specific models.

No new funds are requested for 2013 as it is anticipated that the 2010 appropriations of \$50 million will fund significant pilot program activity through 2013.

The Emergency Homeowners Loan Program (EHLPL), authorized by the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203), provided emergency mortgage assistance to homeowners who were unemployed or underemployed due to economic or medical conditions. EHLPL offered an eligible homeowner a declining balance, deferred payment, non-recourse, zero interest subordinate loan of up to \$50,000 to assist with paying all arrearages on the homeowner's first mortgage and up to 24 consecutive months of first mortgage assistance payments. EHLPL provided assistance to homeowners in Puerto Rico and the 32 states not assisted by the Treasury Department's Innovation Fund for Hardest Hit Housing Markets program. States with existing programs that provided substantially similar assistance to homeowners received grants to provide EHLPL assistance through such programs. The program became effective October 1, 2010 and, per statute, stopped accepting applications September 30, 2011. As required by the Federal Credit Reform Act of 1990, this account records the administrative expenses for EHLPL, as well as the subsidy costs, associated with the direct loans obligated. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Other Assisted Housing Account contains the programs listed below:

Rent Supplement.—Rent Supplement assistance payments will continue to be made on behalf of qualified low-income tenants in approximately 9,000 units that have not converted to Section 8.

Section 235.—The Housing and Urban-Rural Recovery Act of 1983 (P.L. 98-181) authorized a restructured Section 235 (Homeownership Assistance) program that provided homeowners a 10-year interest reduction subsidy on their mortgages.

Section 236.—The Housing and Urban Development Act of 1968, as amended, authorizes the Section 236 Rental Housing Assistance Program, which subsidizes the monthly mortgage payment that an owner of a rental or cooperative project is required to make. This interest subsidy reduces rents for lower income tenants. Some Section 236 properties (approximately 12,340 units) also have rental assistance contracts with HUD through the Rental Assistance Payment (RAP) program.

As some of the Rent Supplement and RAP contracts are terminated due to prepayments or other reasons, remaining balances are recovered. In 2012, these recovered amounts will be reduced by \$232 million through a rescission enacted in the Consolidated and Further Continuing Appropriations Act of 2012 (P.L. 112-55). To ensure that sufficient funds remain available for amendments to existing rental assistance contracts, the Budget does not include language to cancel additional amounts recovered from projects where rental assistance has been terminated.

Under the Rental Assistance Demonstration (RAD), also authorized by P.L. 112-55, owners of properties with expiring Rent Supplement or RAP contracts have the option to convert the assistance of their properties to long-term, project-based voucher contracts. This option is available to properties where Rent Supplement or RAP contracts expired as recently as 2006. This Demonstration facilitates the preservation of affordable units that, prior to RAD, had no options for renewing their subsidy contracts. HUD will begin implementation of RAD in 2013.

The table below provides a summary of outlays by program.

The Homeownership and Opportunity for People Everywhere Program, funded from 1992–1995, provided affordable homeownership opportunities for low-income families. Units were converted to homeownership from public and Indian housing properties in HOPE I, from FHA-insured and Government-held multifamily properties in HOPE II, and from Government-owned or -held single family properties in HOPE III. HOPE Grants were used for property acquisition, rehabilitation, mortgage subsidies, security measures, and technical assistance. In addition, grants have been devoted to counseling and training of residents, and other activities intended to help them become economically self-sufficient homeowners. This schedule reflects the expenditure of prior year balances.

This program was funded under Title XII of the American Recovery and Reinvestment Act of 2009 (P.L. 111-5). This account includes funds for grants, direct loan credit subsidy, and administrative expenses. All loan cash flows are recorded in the corresponding financing account (86-4589).

The Housing and Urban Development Act of 1968 authorized the Secretary to establish a revolving fund into which rental collections in excess of the established basic rents for units in Section 236 subsidized projects would be deposited.

The Housing and Community Development Amendment of 1978 authorized the Secretary, subject to approval in appropriation acts, to transfer excess rent collections received after 1978 to the Troubled Projects Operating Subsidy program, renamed the Flexible Subsidy Fund. Prior to that time, collections were used for paying tax and utility increases in Section 236 projects. The Housing and Community Development Act of 1980 amended the

RENTAL HOUSING ASSISTANCE FUND—Continued

1978 Act by authorizing the transfer of excess rent collections regardless of when collected. The Budget proposes appropriation language in the general provisions at the end of this budget chapter to fully eliminate any authorities which mandate the transfer of excess resources from the Rental Housing Assistance Fund to the Flexible Subsidy Fund. These excess resources cannot be spent under existing law in either account, making the transfer unnecessary.

The Flexible Subsidy Fund assisted financially troubled subsidized projects under certain Federal Housing Administration (FHA) authorities. The subsidies were intended to prevent potential losses to the FHA fund resulting from project insolvency and to preserve these projects as a viable source of housing for low and moderate-income tenants. Priority was given to projects with Federal insurance-in-force and then to those with mortgages that had been assigned to the Department of Housing and Urban Development. The Budget proposes appropriation language in the general provisions at the end of this budget chapter to fully eliminate any authorities which mandate the transfer of excess resources from the Rental Housing Assistance Fund to the Flexible Subsidy Fund. These excess funds cannot be spent under existing law in either account, making the transfer unnecessary.

The HOPE for Homeowners (H4H) program was created by the Housing and Economic Recovery Act of 2008 (Act) to help homeowners at risk of default and foreclosure refinance into more affordable, sustainable loans. Under the H4H Program, eligible homeowners refinanced their current mortgage loans into a new mortgage insured by FHA. The program ended on September 30, 2011.

As required by the Federal Credit Reform Act of 1990, this account records the administrative expenses for this program, as well as the subsidy costs, associated with the loan guarantees committed.

The Federal Housing Administration (FHA) provides mortgage insurance to encourage lenders to make credit available to borrowers for which the conventional market does not adequately serve. These include first-time homebuyers, minorities, lower-income families, and residents of underserved areas (central cities and rural areas). In recent years, FHA has also served broader populations, providing access as conventional financing became scarce.

In 2013, the Budget requests a limitation of \$400 billion on loan guarantees for the Mutual Mortgage Insurance (MMI) Fund.

The Budget projects insurance of \$149 billion in single family forward mortgages and \$18.7 billion in Home Equity Conversion Mortgages (HECMs) with additional commitment authority available in case these amounts are exceeded during execution. In October 2010, FHA increased its annual premium by 0.25 percentage points and in April 2011 implemented another increase of this same size. The Temporary Payroll Tax Cut Continuation Act of 2011 (H.R. 3630) mandated a further increase in FHA's annual insurance premiums. In accordance with this legislation, FHA will soon implement a 0.1 percentage point increase to annual premiums for single family forward mortgages. Loans over \$625,500 will pay an additional 0.25 percentage point annual premium. These increases will bolster FHA's capital reserves, accelerating the point at which FHA will regain compliance with its target capital reserve ratio. These increases also contribute to higher receipts generated by FHA's loan guarantee volume.

The Budget requests an increase in administrative expenses to \$215 million, which will allow FHA to implement improved risk management systems critical for FHA's oversight of its insured portfolio.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs, if any, associated with the loan guarantees committed in 1992 and thereafter. The subsidy amounts are estimated on a present value basis.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and thereafter (including modifications of direct loans that resulted from obligations in any year). The amounts in this account are a means of financing and are not included in the budget totals.

The 2013 direct loan limitation of \$50 million in the MMI Fund would permit the Department to use Purchase Money Mortgages (PMMs) to help finance the sale of acquired single family properties. HUD would extend credit for these single family homes to community non-profit organizations or local government entities, which would be expected to sell the properties to low- and moderate-income buyers. The use of PMMs provides a tool for State and local non-profit organizations to use in revitalizing communities, and creates enhanced homeownership opportunities for low- and moderate-income families.

In 2002, a Capital Reserve account was established for the Mutual Mortgage Insurance Fund. Financial reserves, including securities, of the MMI Fund were transferred from the liquidating account to the Capital Reserve account. In 2003, this mandatory account started earning interest on Treasury investments, collecting negative subsidy and downward re-estimates from the Financing account, and paying upward re-estimates to the Program account. As such, this account is the ultimate depository for all resources collected by the MMI Fund. The amount of reserves held in this account fluctuates with changes in economic conditions, loan performance, and other factors that cause actual reserve levels in the future to vary from projections. Based on current forecasts, the Budget projects the Capital Reserve will grow significantly starting in 2013 and the capital reserve ratio will reach the target level of 2 percent in 2015. The Liquidating account now only reflects cash flows related to pre-1992 books of business.

The Federal Housing Administration Fund currently consists of four separate insurance funds.

In order to present more clearly the operations of the various funds, FHA's budget transactions are separated into two major business segments. The basic single family insurance programs, including the Condominium, Section 203(k) rehabilitation, and Home Equity Conversion Mortgage programs, in the Mutual Mortgage Insurance (MMI) fund and the multifamily Cooperative Management Housing Insurance (CMHI) funds form one segment. All other multifamily and other specialized insurance programs are in the General Insurance and Special Risk Insurance funds (GI/SRI).

The Federal Credit Reform Act of 1990 creates a structure of three accounts for existing credit programs. For each of the FHA business segments (MMI/CMHI and GI/SRI) there is a liquidating account, which records the revenues and costs associated with loan insurance committed prior to October 1, 1991; a financing account which records the revenues and costs associated with commitments to insure loans made after September 30, 1991; and, a program account which records the transactions associated with the program subsidy costs, if any, and the costs of administering the program.

FHA-MUTUAL MORTGAGE AND COOPERATIVE HOUSING INSURANCE FUNDS
LIQUIDATING ACCOUNT—Continued

This liquidating account records, for this program, all cash flows to and from the Government resulting from MMI/CMHI loans insured prior to 1992 and is shown on a cash basis. All new activity in this program in 1992 and thereafter (including modifications of loans insured in any year) is recorded in the corresponding program (86-0183) and financing (86-4587 and 86-4242) accounts.

In 2002, the MMI Capital Reserve account was established to maintain reserves required by statute that were previously deposited in the liquidating account.

The program activity in the "Program Highlights" table shown below reflects only the activity in the MMI/CMHI liquidating and financing accounts. The GI/SRI program activity can be found with the GI/SRI liquidating account (86-4072) and financing account (86-4077).

This account includes credit subsidy budget authority and outlays for FHA's General Insurance and Special Risk Insurance Fund programs, including reestimates and modifications. These programs provide mortgage insurance for a variety of purposes including financing for the development or rehabilitation of multifamily housing, nursing homes, and hospitals. The Budget does not request an appropriation of new credit subsidy funds and assumes that HUD will administratively suspend or modify the execution for programs that previously required a positive credit subsidy appropriation so that appropriations will not be required in the future. The Budget assumes that HUD will administratively suspend the Section 238(c) program for single

family lending in military impact areas in 2012. For 2013, the Budget assumes that HUD will suspend issuance of new insurance on two other types of loans that currently require positive credit subsidy: Section 221(d)(3) multifamily housing loans for projects with non-profit sponsors and Section 223(d) operating loss loans to multifamily housing projects with a primary FHA mortgage. Neither suspension is expected to have a detrimental impact on the production and preservation of rental housing. The Budget continues Section 223(d) operating loss loans to healthcare facilities with a primary Section 232 mortgage and Section 241(a) supplemental loans to FHA-financed multifamily housing, but beginning in 2013 these loans will be reported under the budget risk category of the primary FHA mortgage.

Credit subsidy rates for 2013 reflect mortgage insurance premium increases for newly insured market rate multifamily housing and healthcare facility loans. The Budget proposes increases of 20 basis points for 221(d)(4) loans, 5 basis points on 223(a)(7) refinances of current FHA loans, and 15 basis points on all other types of healthcare and multifamily loans. These premium increases will not apply to affordable housing projects, such as those receiving Federal rental subsidies, low-income housing tax credits, or involving FHA risk-sharing agreements.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with loan guarantees committed or direct loans obligated in 1992 and thereafter. The subsidy amounts are estimated on a present value basis. This account no longer includes appropriations for administrative contract costs, which were moved to the MMI Fund in 2010.

The Housing for the Elderly or Handicapped Loan Fund was established pursuant to section 202 of the Housing Act of 1959, as amended. The fund provided direct loans to non-profit organizations sponsoring the construction and management of rental housing for the elderly or non-elderly persons with disabilities. No new loan commitments were made after 1991; however, projects developed under it continue to operate. After April 1, 1992, all projects for which there were administrative reservations converted to the capital advance assistance program. Any remaining activity for the loan program includes amendments for projects reaching final endorsement.

As required by the Federal Credit Reform Act of 1990, this account records all cash flows to and from the Government resulting from this program.

The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended, authorizes the development and enforcement of appropriate standards for the construction, design, and performance of manufactured homes to assure their quality, durability, affordability, and safety. All manufactured homes produced, since the standards took effect in 1976, must comply with Federal construction and safety standards. States are actively encouraged to participate in the program under compliance plans approved by HUD. New program requirements mandated by the Manufactured Housing Improvement Act of 2000 include procurement of an Administering Organization, formation of a Consensus Committee to recommend revisions to and interpretations of the manufactured housing standards, development and implementation of standards for installation of manufactured housing, and development and implementation of a dispute resolution program.

Fees are charged to the manufacturers for each transportable section produced and may be charged to any dispute resolution and installation program participant. In prior years, this fee income was sufficient to fully support program operations. However, due to a substantial reduction in manufactured housing production rates in recent years, fee collections have been insufficient to maintain program requirements. The 2013 Budget proposes to fund the costs of authorized activities necessary to carry out all aspects of the manufactured housing legislation with approximately \$4 million in estimated fees and a direct appropriation of \$4 million.

GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

The Government National Mortgage Association (GNMA) was formed by Congress in 1968. It is a wholly owned government corporation within the U.S. Department of Housing and Urban Development (HUD). It was established to support Federal housing initiatives by providing liquidity to the secondary mortgage market and to attract capital from the global capital markets for the nation's mortgage markets. Its primary function is to guarantee the timely payment of principal and interest on Mortgage-Backed Securities (MBS) that are backed by loans insured or guaranteed by the Federal Housing Administration (FHA), the Department of Veterans Affairs (VA), Rural Development in the U.S. Department of Agriculture, and HUD's Office of Public and Indian Housing.

The Budget requests loan commitment authority of \$500 billion in 2013. The Budget also requests \$21 million for the personnel

costs of the Government National Mortgage Association (GNMA), to be offset by Commitment and Multiclass fees. Before 2012, personnel expenses were funded in the "Office of Government National Mortgage Association" appropriation under the Management and Administration section of the HUD budget. This request would allow GNMA to increase its staff level to serve two purposes: to strengthen risk management and oversight, and to move in-house some functions performed by contractors. GNMA contractor expenses are funded in its liquidating account and this account will realize lower spending as a result of the movement to in-house services. All cash flows to and from the government are recorded in the financing account on a cash basis. The net present value of such estimated flows for the cohort of credit instruments guaranteed are deposited into the GNMA receipt account.

The Housing and Urban Development Act of 1970 directs the Secretary to undertake programs of research, studies, testing, and demonstrations related to HUD's mission. These functions are carried out by HUD's Office of Policy Development and Research, and through contracts with industry, nonprofit research organizations, educational institutions, and through agreements including non-competitive cooperative agreements with State and local governments, other Federal agencies, and philanthropic entities.

The Budget requests \$52 million for HUD's Research and Technology program. This request includes \$44.5 million to restore and enhance various national housing surveys that are rich sources of data on the nation's housing stock, including the American Housing Survey, the Survey of New Home Sales and Completions, the Survey of Market Absorption of Multifamily Units, the Survey of New Manufactured Housing Placements, and the Rental Housing Finance Survey. Also included in the request is \$7 million for research dissemination activities, \$100 thousand for the Urban Data Systems, and \$500 thousand for housing finance studies. Research will also be conducted as part of HUD's Transformation Initiative and other set-asides.

The Budget requests \$68 million for fair housing activities to support efforts to end housing discrimination. Of the amount requested, \$26.4 million is for the Fair Housing Assistance Program (FHAP), \$41.1 million is for the Fair Housing Initiatives Program (FHIP), and \$500 thousand is for the Limited English Proficiency Initiative.

Within this funding is \$1.8 million for the National Fair Housing Training Academy (NFTHA), which provides comprehensive fair housing and civil rights training for investigators, local agencies, educators, attorneys, industry representatives and other housing industry professionals.

FHAP, authorized by Title VIII of the Civil Rights Act of 1968, as amended, provides funding to State and local agencies to assure prompt and effective processing of Title VIII (Civil Rights Act of 1968) complaints under substantially equivalent State and local fair housing laws. To be eligible for assistance through FHAP, an agency must demonstrate that the fair housing law it administers is substantially equivalent to the Fair Housing Act. It is estimated that there will be a total of 100 FHAP jurisdictions in 2013. The funding requested for FHAP will support fair housing enforcement by funding State and local fair housing organizations to meet the needs of currently underserved populations. It will also address the persistently high rate of discrimination against minorities and people with disabilities as identified by HUD's 2000 Housing Discrimination Study and provide additional support to FHAP agencies on the heels of the State and local budget crisis.

FHIP, authorized by the Housing and Community Development Act of 1987, as amended by the Housing and Community Development Act of 1992, provides funding to States and local governments, and to public and private non-profit organizations that administer programs to prevent or eliminate discriminatory housing practices through enforcement, education, and outreach.

Title X of the Housing and Community Development Act of 1992 (Public Law 102-550), known as the Residential Lead-Based Paint Hazard Reduction Act, authorized the Secretary to establish the Lead-Based Paint Hazard Control Grant Program. The primary purpose of the program is to reduce the exposure of young children to lead-based paint and other environmental hazards in their homes, including protecting them from permanent developmental problems and asthma, and exposure to pesticides and carbon monoxide.

The program is a major part of addressing the number one environmental disease impacting children: lead poisoning. The Budget includes \$86 million for HUD's Lead Hazard Control Program, \$30 million for the Healthy Homes Initiative, and \$4 million for Technical Studies. The Budget also includes a provision that would allow the transfer of unobligated balances and

recaptured funds from undersubscribed competitive programs to other competitive programs experiencing oversubscription. HUD will be requesting authorizing language granting the Secretary authority to carry out investigations, administer oaths, and subpoena documents related to lead hazard investigations.

The Lead Hazard Control Grant Programs provides grants of \$1 million to \$4 million to State and local governments and Indian tribes for control of lead-based paint hazards in low-income rental and owner-occupied housing. The grants are also designed to stimulate the development of a housing maintenance and rehabilitation workforce trained in lead-safe work practices and a certified hazard evaluation and control industry. In awarding grants, HUD promotes the use of new, low-cost approaches to hazard control that can be replicated across the nation. Newly-established programmatic efficiency measures, such as mitigation cost estimates, will help HUD determine best practices and maximize resources.

The Healthy Homes Initiative enables the Department to assess and control housing-related hazards that contribute to childhood diseases and injuries. With funding from this initiative, grantees implement and evaluate methods for controlling two or more housing-related diseases through a single intervention.

The Office of Healthy Homes and Lead Hazard Control will continue its Technical Support program, which includes public education; support for State and local agencies, private property owners, HUD programs and field offices and professional organizations; technical studies to improve program policy and implementation; quality control to ensure that the evaluation and control of lead-based paint hazards is done properly in HUD-assisted housing; and development of standards, technical guidance, regulations and improved testing and hazard control methods.

The Working Capital Fund (WCF), authorized by the Department of Housing and Urban Development Act of 1965, provides funding to support the information technology (IT) systems that support Departmental programs and operations, including FHA Mortgage Insurance, housing assistance, grant and disaster relief programs, as well as core financial and general operations. The Budget provides \$170 million for the Working Capital Fund, primarily for the operation and maintenance of HUD's IT infrastructure and systems. While funding for the development, modernization, and enhancement (DME) of IT systems will be largely funded by the Transformation Initiative, small tasks related to DME may be funded from the WCF, as necessary. Additional transfers from program offices will supplement the direct appropriation to support program-specific IT systems.

As a result of the 2012 Appropriations Act, this account no longer supports the administrative expenses of the Office of the Chief Information Officer (OCIO). Salaries and expenses for the OCIO are funded within the Administration, Operations and Management account.

Initiated in 2010, the Transformation Initiative (TI) is an ongoing effort aimed at increasing the effectiveness of program and service delivery, facilitating an evidence-based approach to improving program outcomes, and enabling innovative approaches to address the nation's housing and urban development problems. By aggregating limited transfers from HUD's program accounts, the Department can continue this integrated and cross-cutting effort to improve program performance. The 2013 Budget proposes to limit TI transfers to a maximum of 0.5 percent per program and approximately \$120 million in total. The Budget proposes to use these funds for four complementary purposes: (1) research, evaluation and program metrics, (2) program demonstrations, (3) technical assistance and capacity building, and 4) information technology.

The TI provides a predictable stream of funding for high quality research and evaluation that will inform sound policymaking. The initiative supplements Research and Technology appropriations, which are mainly dedicated to funding housing data, such as the American Housing Survey. This initiative funds program evaluation and research that is needed to ensure that program funds are spent effectively, as well as to develop appropriate metrics to track program performance between evaluations. The systemic and scientific approach enabled by TI will highlight those programs that are effective and those that require reform, so that timely modifications can occur.

The TI also enables HUD to design and execute a series of major research demonstrations that rigorously test new program innovations. Demonstrations can be used to explore fundamental questions about housing market dynamics and their impact on economic, social and environmental objectives. The demonstrations will improve programs, help State and local governments, non-profits, and for profit organizations to develop more effective strategies for housing and community and economic development, and improve the delivery and reduce the cost of public services.

Traditionally, HUD has delivered program-oriented technical assistance to ensure that HUD grantees are fully aware of the rules governing the disparate programs. While awareness of rules is necessary, effective responses to urban and housing challenges increasingly require coordination and awareness of diverse areas of knowledge: housing finance as well as land use, energy efficiency as well as healthy homes, community development as well as transportation planning, and accessibility as well as job creation. The TI enables HUD to develop enhanced and focused support to deliver cross-program technical assistance for States, local governments, and other HUD grantees for integrated management and planning across programs and jurisdictions. In addition, the 2013 Budget for TI includes \$15 million for the continued support of the National Resource Network, a component of the Strong Cities, Strong Communities (SC2) interagency effort, to provide tailored, expert technical assistance to chronically distressed cities. Providing cross-cutting knowledge with program requirements will produce results while avoiding fraud, waste and abuse.

With the initiation of the TI in 2010, the Department began a series of efforts to transform how HUD develops IT solutions to support its strategic goals and its use of technology to meet today's mission challenges. The TI funding provided in 2010 and 2011 helped HUD responsibly plan and begin implementing modern capabilities to transform core and back office business capabilities well into fiscal year 2013. Additional funding was not requested in fiscal year 2012 for this reason. The TI complements the funding for basic, steady-state maintenance and operations provided by the Working Capital Fund.

The following table illustrates the *maximum* and *estimated* transfers from HUD's programs into the Transformation Initiative account in 2013.

The Secretary of Housing and Urban Development (HUD) is authorized to accept, hold, administer, and utilize gifts and bequests of property, both real and personal, for the purpose of aiding or facilitating the work of the Department (42 U.S.C. 3535(k)). Property and the proceeds are used in accordance with the terms of the gift and bequest.

The amounts provided in 2011 contribute to an interagency effort called Strong Cities, Strong Communities (SC2) to help chronically distressed communities to better employ the Federal investments they already receive, promote high-impact strategies, and build the local capacity needed to execute those strategies. These amounts will specifically help the development and funding of two-year fellowship grants that will attract early and midcareer professionals with technical expertise in such fields as urban planning and economic development, infrastructure redevelopment, and workforce training to provide technical support for this effort.

(b) PHASED TRANSFERS.—Transfers of project-based assistance under this section may be done in phases to accommodate the financing and other requirements related to rehabilitating or constructing the project or projects to which the assistance is transferred, to ensure that such project or projects meet the standards under section (c).

(c) The transfer authorized in subsection (a) is subject to the following conditions:

(1) NUMBER AND BEDROOM SIZE OF UNITS.—

(A) For occupied units in the transferring project: the number of low-income and very low-income units and the configuration (i.e. bedroom size) provided by the transferring project shall be no less than when transferred to the receiving project or projects 【and the net dollar amount of Federal assistance provided by the transferring project shall remain the same in the receiving project or projects】.

(7) If either the transferring project or the receiving project or projects meets the condition specified in subsection (d)(2)(A), any lien on the receiving project resulting from additional financing obtained by the owner shall be subordinate to any FHA-insured mortgage lien transferred to, or placed on, such project by the Secretary, except that the Secretary may waive this requirement upon determination that such a waiver is necessary to facilitate the financing of acquisition, construction, and/or rehabilitation of the receiving project or projects.

(8) If the transferring project meets the requirements of subsection (c) d)(2)(E), the owner or mortgagor of the receiving project or projects shall execute and record either a continuation of the existing use agreement or a new use agreement for the project where, in either case, any use restrictions in such agreement are of no lesser duration than the existing use restrictions.
