It is our understanding that beginning January 1, 1943, that all record mapping will be under the direction of your Mr. Rudolph A. Kotasek and that we are to make available certain of our employees who are familiar with this work.

At this time the drawings are in an advanced state of completion and all of the as-built data which we received has been plotted on the record maps. As additional data comes in it should be plotted and the drawings given a final field check at the time the construction program is completed.

We also return to you the as-built data which has been furnished us on memorandum receipt, namely, Field Notes Items 1 to 224, inclusive, and Profiles A through Z, inclusive, and AA.

It is the policy of the United States to support the free people of the world in their struggle for independence, freedom, and self-determination. This policy is based on the principle that all men are created equal and have the right to life, liberty, and the pursuit of happiness.

The United States will continue to support the people of the world in their struggle for independence, freedom, and self-determination. This support will be provided in the form of military, economic, and technical assistance. The United States will also continue to support the people of the world in their struggle for peace and stability.
