BASE BULLETIN 11102

From: Commanding General
To: Distribution List

Subj: Firing Notice for Period 28 September - 4 October 1987

Ref: (a) MCO P3570.1A
(b) BO P11102.1K
(c) BO 8092.1C

1. Purpose. To advise military commanders of live fire training exercises.

2. General

a. Training exercises involving air or sea space and live firing may be conducted only as herein described, and in accordance with references (a) and (b). Ranges, hazardous areas, air and sea space referred to are described in references (b) and (c).

b. Airmen are referred to the current NOTAM and message "Air Space Over Camp Lejeune" regarding hazards to aircraft operations in restricted areas R-5306D, R-5306E and that portion of Warning Area W-122 circumscribed by a (7) mile radius from position LAT 34-32-45 and LONG 77-07-55.

c. Commercial and private boat operators are advised of hazards to water traffic in the current Notice to Mariners.

3. Authorized Firing Not Involving the Use of Air or Sea Space

a. Firing authorized in this paragraph (and noted under sub-paragraph (1) of each day) may not exceed a maximum ordinate of 500 feet. Approval from Range Control (BLACKBURN) is required before any live fire.

b. Base Rifle Range. The Commanding Officer, Rifle Range Detachment may conduct small arms firing at the Base Rifle Range 0600-1800 daily.

c. Ranges K-326 and G-4A. Explosive Ordnance Disposal personnel may destroy unserviceable or hazardous ordnance on Ranges K-326 and G-4A from 0001-2400 daily.

d. Marine Corps Engineer School. The Commanding Officer, Marine Corps Engineer School may conduct firing on Range I-2 (demolitions) from 0730-1700 daily, Monday through Friday.

e. G-4 Range. The Commanding Officer, 2D Combat Engineer Battalion may conduct firing (demolitions) 0730-1700 daily, Monday through Friday.

f. D-9 Range. The Base Special Services Officer, Marine Corps Base may conduct firing (shotguns) on Range D-9 from 0800 to 1/2 hour before sunset on Wednesdays, Fridays, Saturdays and Sundays.

g. The units listed on the following pages are authorized to conduct training.

4. Authorized Firing Involving the Use of Air or Sea Space

a. Authorized firing involving airspace is noted in sub-paragraph (2) under the list of each day of firing. Changes to this Firing Notice which would require Notice to airmen (NOTAM) or Notice to Mariners normally will not be permitted.

BBul 1:1102
14 September 1987

b. When any unit is scheduled to fire into the N-1 Impact Area immediately following another unit, contact relief of range and tower guards is mandatory at the scheduled times to preclude the necessity of additional range safety sweeps.

c. When artillery firing is conducted from a gun position in near proximity to secondary roads (e.g., Lyman Road and Sneads Ferry Road), travelers can expect a five minute delay intermittently while the road is closed for the overhead firing.
