Via: Director, Maintenance and Repair Division, Base

Subj: Request for change in item now stocked

1. It is requested that:

a. "Penetrating Oil" in pressurized cans, Stock No. 6850-973-9091, be dropped from stock in Issue Point No. MMLV71, Tarawa Terrace;

b. Spray solvent, former Stock No. 6850-C00-1243, be re-stored to stock in Issue Point MMLV-71, Tarawa Terrace, in place of No. 6850-973-9091.

2. Item under present Stock No. 6850-973-9091 is a penetrating spray, oil base, will not dissolve grease or fuel oil gum, and it leaves an oily base film that is not desired. Penetrating oil spray is in no way a suitable substitute for Stock No. 6850-C00-1243.

3. Stock No. 6850-C00-1243 is a penetrating spray solvent, frees rusty bolts, dissolves grease and fuel oil gum, completely evaporates and does not leave any oily film or residue. This was in 12 ounce pressurized cans MFD by the A. W. Chesterton Company; however, there are several brands of spray that are equal.
