SUBS: Chronology of Events Re: Water Contamination

Dear Mr. Brewer,

The new and updated Chronology is much improved over the prior editions. Thank you for your efforts in this regard. It would appear that more documentation is being found that previously was not readily available.

Regret that the Freedom of Information Officer for MCB has failed to respond to my FOIA request of 20 September which has been followed up by several letters and now has been passed now to HSMC for resolution. Subject does relate to WQ monitoring, however, the responsibility for accessing the requested documents is within his purview.

Regards,

MAJOR, USMC (Retired)
