

22 MAY 2002

Mr. Scott A. Brewer, P.E.  
Director, Environmental Management Division  
Marine Corps Base, PSC Box 2004  
Camp Lejeune, N.C. 28542-0004

SUBJ: Freedom of Information Request: Water Samples and  
Analyses of Samples taken at Hadnot Point July 1982/May 1982  
Ref: (a) Grainger Laboratories letter of 16 August 1982 to  
CG, MCB, CLWC

Reference (a) makes reference to two samples identified  
as "Samples 208 and 209 from site coded "HP", said samples  
received by that laboratory on 29 July 1982.

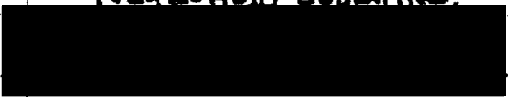

I am unsure of what group obtained these samples, I do not  
believe it was the USAEHA team from Ft McPherson that had done  
the TTHM study at MCB CLWC.

Reference (a) also makes reference to an earlier sample 120, also  
from Hadnot Point, taken 27 May 1982.

Desire that = be furnished with a copy of the sample data  
for samples 120/208/209 of the dates noted and the written  
analyses of these samples by Grainger Laboratories.

This is a non-commercial FOIA request with fee waiver requested.

Respectfully Submitted,

MAJOR USMC (Retired)  
CLW
