Marine Corps Base
Camp Lejeune, NC 28542

SUBJECT: Request for Technical Data
Confirmation Study - 1A Step
NACIP Program
Marine Corps Base
Camp Lejeune
Onslow County

Dear General Knotts:

This letter confirms our request made through Mr. Bob Alexander that the technical data collected from Step 1A of the NACIP Program be transmitted to the Division of Environmental Management (DEM) for review and interpretation. Specifically, this data was requested during a 17 September 1985 meeting with Colonel Tiebout and Mssrs. Alexander and Elston.

As you know, a preliminary groundwater quality investigation was performed at each priority site. To review the plan of action proposed in Colonel Tiebout's 19 July 1985 letter, it is necessary to know at each site where the wells are located in relation to the source, the construction details of each well, the water level data from each well, and all the water quality data from each well. This data is requested in lieu of the formal report, since some portions of this report are believed to be in error.

Your consideration of this request is appreciated.
