Small Business Access to Credit Coalition

February 17, 2010

Dear Senator:

Access to credit is a critical issue facing small businesses today. The undersigned organizations, representing millions of small business owners in every industry sector, were very disappointed to learn that only one provision related to expanding small business access to credit was included in the draft legislation offered by Senators Baucus and Grassley, the "*Hiring Incentives to Restore Employment Act*." Furthermore, none of the provisions aimed at improving the Small Business Administration (SBA) lending programs are currently being considered in Majority Leader Reid's latest proposal. We are concerned that if the Senate fails to listen to the needs of small businesses and address the credit crisis, a tremendous opportunity to help create new, sustainable jobs in 2010 and beyond will be lost.

We urge your support for appropriations to extend the SBA loan provisions of the American Recovery and Reinvestment Act (ARRA) through the end of December 2010. The depletion of funds last fall is proof that the SBA programs were, and continue to be, critically important for our nation's creditworthy entrepreneurs. An additional \$354 million in appropriations is needed to fund the extension of the higher guaranty percentages and waiver of borrower fees for the balance of the fiscal year.

Additionally, we urge your support for an increase in the maximum loan size and the maximum guaranteed portion of SBA loans. Senators Landrieu and Snowe have introduced legislation that would increase the maximum size of SBA 7(a) and 504 loans from \$2 million to \$5 million. This legislation would also provide a commensurate increase in the statutory maximum guaranteed portion of SBA 7(a) loans. Moreover, the CBO has determined that their legislation, S. 2869, will have no impact on spending or revenue. These levels are recommended by the Administration, have bi-partisan support and we urge your support as well.

By including these provisions in upcoming legislation aimed at spurring new job creation, there is the potential to leverage an additional \$16 billion in SBA lending in 2010. According to Federal Highway Administration data, federal *spending* on highway programs can generate about 34,100 jobs for every \$1 billion spent. Small businesses can generate the same rate of job creation, except that small businesses have the ability to create new, sustainable jobs in every local community. Therefore, by acting on these recommendations, the Senate will help increase small business *lending* that will result in over 545,000 sustainable new jobs in the next year.

We urge you to act quickly so that we can continue to realize the SBA lending momentum we saw in 2009. Small businesses cannot be the engine of our economy if they continue to face unrelentingly tight credit markets. The Senate must include these important provisions in the job creation bills currently pending in order to restart the flow of credit to America's small businesses or else these entrepreneurs will be left to sit on the sidelines.
