Wickiup Hydro Group, LLC, Oregon; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC's) regulations, 18 Code of Federal Regulations (CFR) Part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed Wickiup Hydro Group, LLC's application for an original license for the Wickiup Dam Hydroelectric Project (FERC Project No. 12965-002), which would be constructed at the existing Bureau of Reclamation Wickiup Dam on the Deschutes River in Deschutes County near the city of La Pine, Oregon. The proposed project, if licensed, would occupy 1.02 acres of federal lands jointly managed by the U.S. Department of the Interior, Bureau of Reclamation, and the U.S. Forest Service.

The final environmental assessment (EA) contains staff's analysis of the potential environmental effects of licensing the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the final EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's web site at www.ferc.gov using the "eLibrary" link.
