GPO TO HOST DOZENS OF LEADING HIGH-TECH COMPANIES

****Media Advisory****

WASHINGTON—More than 80 of the world's premier information technology companies will be at the U.S. Government Printing Office Thursday to discuss the development of the GPO's Digital Content System (FDsys). The GPO's next generation information life-cycle management system will provide permanent public access to official Government information.

WHAT: GPO's Digital Content System (FDsys) Industry Day. Industry Day is an opportunity for private sector technology companies in today's marketplace to learn about the concepts, requirements, schedules and plans for GPO's FDsys. FDsys is a key element of GPO's future, moving from the analog world of print to the 21st century world of managing digital content.

WHO: Bruce James, Public Printer of the United States and GPO's CEO
Mike Wash, Chief Technical Officer
Scott Stovall, Deputy Chief Technical Officer

WHEN: **Thursday, October 6, 2005**
9:30-10:20 a.m. (Eastern Time)

WHERE: U.S. Government Printing Office
7 G Street (Corner of North Capitol and G Streets)
Washington, DC 20401

NOTES: For more information about FDsys, please visit: <http://www.gpo.gov/projects/fdsys.htm>

The GPO's core mission is to ensure the American public has access to government information. The GPO is the Federal Government's primary centralized resource for gathering, cataloging, producing, providing, authenticating, and preserving published U.S. Government information in all its forms. GPO is responsible for the production and distribution of information products and services for all three branches of the Federal Government. In addition to publication sales, GPO makes government information available at no cost to the public through GPO Access (www.gpoaccess.gov), and through partnerships with more than 1,250 libraries nationwide participating in the Federal Depository Library Program. For more information about the GPO, please visit www.gpo.gov.
