Art Adventure League
55 Fifth Avenue
New York, New York

Dear Berenice:

Sorry for the delay in getting the letter and pictures back to you, but we have been awfully upset down here in the last few days, in getting budget requests ready and trying to take care of the big run of requisitions for publicity photographs.

We are very much flattered by your request for our pictures, and of course, more than glad to let you have them. I am sending you more than I believe you will want, and when you are through making the selection, I would appreciate it if you would send back the surplus copies since we are so short of funds and will have to conserve in every way possible.

If these still are not the ones you want, please give me the best description you can and I will get them out of the file for you.

I am very much interested in your course on photography which you are preparing.

I will look forward to another visit with you when I get to New York. I have stored up many questions to ask you.

Regards to Miss McCausland.

Sincerely yours,

Roy E. Stryker, Chief
Historical Section
Division of Information

Enclosures.
