So the bill was passed.

A motion to reconsider the vote whereby said bill was passed was, by unanimous consent, laid on the table.

Ordered, That the Clerk request the concurrence of the Senate in said bill.

5.24 ADJOURNMENT OVER

On motion of Mr. GEPHARDT, by unanimous consent,

Ordered, That when the House adjourns today, it adjourn to meet at 12 o'clock noon on Monday, February 7, 1994.

5.25 HOUR OF MEETING

On motion of Mr. GEPHARDT, by unanimous consent,

Ordered, That when the House adjourns on Monday, February 7, 1994, it adjourn to meet at 2 o'clock p.m. on Tuesday, February 8, 1994.

5.26 HOUR OF MEETING

On motion of Mr. GEPHARDT, by unanimous consent,

Ordered, That when the House adjourns on Tuesday, February 8, 1994, it adjourn to meet at 12 o'clock noon on Wednesday, February 9, 1994.

5.27 CALENDAR WEDNESDAY BUSINESS DISPENSED WITH

On motion of Mr. GEPHARDT, by unanimous consent,

Ordered, That business in order for consideration on Wednesday, February 9, 1994, under clause 7, rule XXIV, the Calendar Wednesday rule, be dispensed with.

5.28 MESSAGE FROM THE PRESIDENT—GREAT EGG HARBOR STUDY

The SPEAKER pro tempore, Mr. MURTHA, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

I take pleasure in transmitting the enclosed report on the Great Egg Harbor River in the State of New Jersey. The report is in response to the provisions of the Wild and Scenic Rivers Act, Public Law 90-542, as amended. The Great Egg Harbor Study was authorized by Public Law 99-590, approved on October 30, 1986.

The study of the Great Egg Harbor River was conducted by a task force made up of representatives of affected municipalities, State and Federal agencies, organizations with river-related interests, and local residents under the leadership of the National Park Service. The National Park Service, together with the task force, identified the outstandingly remarkable resources within the study area, analyzed existing levels of protection for these values, investigated major issues and public concerns, assessed the attitude of riparian landowners, reviewed and analyzed the impact of existing and potential development, and developed alternative plans and management strategies.

The National Park Service determined that 129 miles of the Great Egg Harbor River and its tributaries are eligible for inclusion in the National Wild and Scenic Rivers System. This is based upon their free-flowing condition and fish, wildlife, botanic, and recreational values.

Eleven of the 12 affected local governing bodies endorsed designation of the eligible river segments. The lone exception, Upper Township on the Tuckahoe River tributary, did not take a position nor did the State of New Jersey.

Perhaps due to this overwhelming support, the 102d Congress proceeded to designation without waiting for submittal of the required report and Presidential recommendation. While a Presidential recommendation is now moot,

I am submitting the report to fulfill the requirements of sections 4(a) and 5(a)(93) of the Wild and Scenic Rivers Act.

WILLIAM J. CLINTON.

THE WHITE HOUSE, February 3, 1994.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Natural Resources.

5.29 MESSAGE FROM THE PRESIDENT—MAURICE RIVER

The SPEAKER pro tempore, Mr. MURTHA, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

I take pleasure in transmitting the enclosed report on the Maurice and Manumuskin River and Menantico Creek in the State of New Jersey. The report and my recommendations are in response to the provisions of the Wild and Scenic Rivers Act, Public Law 90-452, as amended. The study of the Maurice River and these two tributaries was authorized by Public Law 100-33, approved on May 7, 1987.

The study of the Maurice River and tributaries was conducted by a task force composed of representatives of affected municipalities, State and Federal agencies, organizations with river-related interests, and local residents under the leadership of the National Park Service (NPS). The NPS, together with the task force, identified the outstandingly remarkable resources within the study area, analyzed existing levels of protection for these values, investigated major issues and public concerns, assessed the attitude of riparian landowners, reviewed and analyzed the impact of existing and potential development, and developed alternative plans and management strategies.

The NPS determined that 42.4 miles of the Maurice River and its tributaries are eligible for inclusion in the National Wild and Scenic Rivers System. This is based upon their free-flowing condition and fish, wildlife, and vegetative values. There are also important cultural values and surface water quality of the Manumuskin and Menantico is very good.

In accordance with the wishes of local government, the NPS did not consider Federal land acquisition or management as an alternative for protecting river resources. Instead, the study focused on assisting the political subdivisions in developing and adopting local measures for providing resource protection where existing protection had been inadequate.

Due to strong local and congressional support, the 103d Congress proceeded to designation without waiting for submittal of the required report and Presidential recommendation. While a Presidential recommendation is now moot, I am submitting the report to fulfill the requirements of section 4(a) and sections 5(a)(96) through 5(a)(98) of the Wild and Scenic Rivers Act.

WILLIAM J. CLINTON.
