Page 408, after line 12, insert the following paragraph (and redesignate succeeding paragraphs accordingly):

“(6) Every day approximately 3,000 children start smoking for the first time and 30 percent of all high school seniors are smokers. Half of all new smokers begin before the age of 14, 90 percent before the age of 21, and the average age of the first use of smokeless tobacco products is under the age of 10. Use of tobacco products has been linked to serious health problems. However, because the nicotine in tobacco is an addictive substance, many tobacco users find it difficult to stop using tobacco once they have started. Drug education and prevention programs that include tobacco have been effective in reducing teenage use of tobacco. Drug prevention programs for youth that address only controlled drugs send an erroneous message that the use of tobacco does not have adverse consequences. To be credible, messages opposing illegal drug use by youth should also address other harmful substances.”

Page 439, strike lines 1 through 17, and insert the following:

“(1) The term ‘drug and violence prevention’ means—

“(A) with respect to drugs, prevention, early intervention, rehabilitation referral, or education related to the illegal use of alcohol, the use of tobacco and the use of controlled, illegal, addictive, or harmful substances, including inhalants and anabolic steroids; and

“(B) with respect to violence, the promotion of school safety, such that students and school personnel are free from violent and disruptive acts, including sexual harassment, on school premises, going to and from school, and at school-sponsored activities, through the creation and maintenance of a school environment that is free of weapons and fosters individual responsibility and respect for the rights of others.”
