

¶37.27 MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. McCathran, one of his secretaries.

¶37.28 MESSAGE FROM THE PRESIDENT—
HONEY IMPORTS FROM CHINA

The SPEAKER pro tempore, Mrs. UNSOELD, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

Pursuant to section 406 of the Trade Act of 1974 (19 U.S.C. 2436) and sections 202 and 203 of the Trade Act of 1974 (as those sections were in effect on the day before the date of the enactment of the Omnibus Trade and Competitiveness Act of 1988), I have determined the action I will take with respect to the affirmative determination of the United States International Trade Commission (USITC), on the basis of its investigation (No. TA-406-13), that market disruption exists with respect to imports from China of honey provided for in heading 0409 and subheadings 1702.90 and 2106.90 of the Harmonized Tariff Schedule of the United States.

After considering all relevant aspects of the investigation, including those set forth in section 202(c) of the Trade Act of 1974, I have determined that import relief for honey is not in the national economic interest of the United States. However, I am directing the United States Trade Representative (USTR), in consultation with the appropriate agencies to develop a plan to monitor imports of honey from China. The monitoring program is to be developed within thirty days of this determination.

Since I have determined that the provision of import relief is not in the national economic interest of the United States, I am required by that section 203(b) of the Trade Act of 1974 to report to Congress on the reasons underlying this determination.

In determining not to provide import relief, I considered its overall costs to the U.S. economy. The USITC majority recommendation for a quarterly tariff rate quota (a 25 percent ad valorem charge on the first 12.5 million pounds each quarter, increasing to 50 percent on amounts above that level), to be applied for three years, would cost consumers about \$7 million while increasing producers' income by just \$1.9 million. The other forms of relief recommended by other Commissioners would also result in substantial costs to consumers while offering little benefit to producers.

In addition, the gap between production and consumption in the United States is approximately 100 million pounds, with imports of honey from China helping to fill that gap at the low end for industrial use. Any restrictions on imports of honey from China would likely lead to increased imports from other countries rather than significantly increased market share for U.S. producers.

Although rising somewhat since 1991, U.S. honey inventories are not large by historical experience, either in absolute amounts or relative to consumption. Honey stocks reported by the U.S. Department of Agriculture were much higher in the mid-1980's (about 75 percent of consumption in 1985 and 1986), before falling to their lowest level in a decade in 1991 (26.6 percent of consumption). The 1993 stocks were 37.8 percent of consumption, well below the 1980-1993 average level of 46.4 percent.

The U.S. government has supported honey producers since 1950, in part, to ensure enough honeybees would be available for crop pollination. This is an important national interest. I believe that current trends in the provision of pollination and honey production will not be significantly affected by not providing relief. Crop producers indicate that they believe pollination will still be cost effective even if service prices rise.

I have also concluded that, in this case, imposing trade restrictions on imports of honey would run counter to our policy of promoting an open and fair international trading system.

WILLIAM J. CLINTON.

THE WHITE HOUSE, April 21, 1994.

By unanimous consent, the message was referred to the Committee on Ways and Means and ordered to be printed (H. Doc. 103-242).

¶37.29 SENATE JOINT RESOLUTIONS
