58.20 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment submitted by Mr. KOPETSKI:

At the end of title X (page 277, after line 2), insert the following new section:

SEC. . CONGRESSIONAL ACTION ON NEGOTIATION OF LIMITATIONS ON NUCLEAR WEAPONS TESTING.

(a) FINDINGS.—The Congress finds the following:

(1) On January 25, 1994, the United States joined with 37 other nations to begin negotiations for a comprehensive treaty to ban permanently all nuclear weapons testing.

(2) On March 14, 1994, the President decided to extend the current United States nuclear testing moratorium at least through September 1995.

(3) The United States is seeking to extend indefinitely the Non-Proliferation Treaty at the April 1995 NPT Extension Conference.

(4) Conclusion of a comprehensive test ban treaty could contribute toward successful negotiations to extend the Non-Proliferation Treaty.

(5) Agreements to eliminate nuclear testing and control the spread of nuclear weapons could contribute to the national security of the United States, its allies, and other nations around the world.

(b) CONGRESSIONAL ACTION.—In view of the findings set forth in subsection (a), the Congress—

(1) applauds the President for maintaining the United States nuclear testing moratorium and for taking a leadership role toward negotiation of a comprehensive test ban treaty;

(2) encourages all nuclear powers to refrain from conducting nuclear explosions, prior to conclusion of a comprehensive test ban treaty; and

(3) urges the Conference on Disarmament to make all possible progress toward a comprehensive test ban treaty by the end of 1994.

58.24 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment, as modified, submitted by Mr. MARKEY:

At the end of Title X (page 277, after line 2), insert the following new section:

SEC. . NUCLEAR COOPERATION.

(a) IN GENERAL—It is the sense of the Congress that the President should suspend any programmatic consent given under a nuclear cooperation agreement for the use of special nuclear material subject to such agreement at any facility at which accounting discrepancies do not permit the International Atomic Energy Agency to determine with its required level of confidence that a significant quantity of special nuclear material has not been diverted from the facility. Such suspension should remain in effect until such time as the International Atomic Energy Agency determines that such discrepancies and uncertainties have been resolved and operational problems at the facility have been corrected to permit the Agency to detect a diversion of a significant quantity of special nuclear material from the facility with the required level of confidence.

(b) LIMITATION—The suspension called for in subsection (a) need not be carried out if operation of the facility in question is voluntarily suspended until such time as the Agency is able to detect a diversion as specified in that subsection.

(c) REPORTING—Not later than 90 days after enactment of this section, the President shall submit a report to the Congress which (i) describes the actions taken by the President pursuant to this section, (ii) states whether the conditions for lifting the suspension called for in subsection (a) have been met, and (iii) provides an assessment of the risks of both national and subnational diversion of special nuclear material at the facility under circumstances where such conditions have not been met. If, within such period, the conditions for lifting the suspension have not been satisfied, the President shall, every 90 days thereafter, and until such time as the conditions are satisfied, report to the Congress concerning the progress made toward achieving this objective.
