58.22 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment submitted by Ms. HARMAN:

Page 169, line 22, strike out "A member of the" and all that follows through "be separated." on page 169, line 25, and insert in lieu thereof the following:

A member of the armed forces who is classified as permanently nonworldwide assignable due to a medical condition shall (except as provided in subsection (c)) be separated unless the Secretary concerned determines that the retention of permanently nonworldwide assignable service members would not adversely affect the ability of the service to carry out its mission.

It was decided in the affirmative { Yeas ..... 227 Nays ..... 192

So the amendment was agreed to. After some further time,

58.24 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment, as modified, submitted by Mr. MARKEY:

At the end of Title X (page 277, after line 2), insert the following new section:

SEC. . NUCLEAR COOPERATION.

(a) IN GENERAL—It is the sense of the Congress that the President should suspend any programmatic consent given under a nuclear cooperation agreement for the use of special nuclear material subject to such agreement at any facility at which accounting discrepancies do not permit the International Atomic Energy Agency to determine with its required level of confidence that a significant quantity of special nuclear material has not been diverted from the facility. Such suspension should remain in effect until such time as the International Atomic Energy Agency determines that such discrepancies and uncertainties have been resolved and operational problems at the facility have been corrected to permit the Agency to detect a diversion of a significant quantity of special nuclear material from the facility with the required level of confidence.

(b) LIMITATION—The suspension called for in subsection (a) need not be carried out if operation of the facility in question is voluntarily suspended until such time as the Agency is able to detect a diversion as specified in that subsection.

(c) REPORTING—Not later than 90 days after enactment of this section, the President shall submit a report to the Congress which (i) describes the actions taken by the President pursuant to this section, (ii) states whether the conditions for lifting the suspension called for in subsection (a) have been met, and (iii) provides an assessment of the risks of both national and subnational diversion of special nuclear material at the facility under circumstances where such conditions have not been met. If, within such period, the conditions for lifting the suspension have not been satisfied, the President shall, every 90 days thereafter, and until such time as the conditions are satisfied, report to the Congress concerning the progress made toward achieving this objective.

It was decided in the negative { Yeas ..... 68 Nays ..... 349
