¶58.18 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment, as modified, submitted by Mr. SOLOMON:

At the end of title X (page 277, after line 2), add the following new section:

SEC. 1038. SENSE OF THE CONGRESS CONCERNING THE NORTH KOREAN NUCLEAR WEAPONS DEVELOPMENT PROGRAM.

(a) FINDINGS.—The Congress finds that—

(1) between 1950 and 1953, the United States led a military coalition that successfully repelled an invasion of the Republic of Korea by the Communist regime in North Korea, at a cost of more than 54,000 American lives;

(2) the United States and the Republic of Korea ratified a Mutual Security Treaty in 1954 that commits the United States to helping the Republic of Korea defend itself against external aggression;

(3) approximately 37,000 United States military personnel are presently stationed in the Republic of Korea;

(4) the United States and the Republic of Korea have conducted joint military exercises, code named "Team Spirit", regularly since 1976;

(5) the Communist regime in North Korea has built up an armed force nearly twice the size of that in the Republic of Korea and has never renounced the active and ongoing use of force, terrorism, and subversion in its attempts to subdue and subjugate the Republic of Korea;

(6) although the North Korean regime signed the Treaty on the Non-Proliferation of Nuclear Weapons in 1985, it has never permitted the unfettered international inspection of its nuclear facilities that is required of all signatories of that Treaty;

(7) the Secretary of Defense has stated publicly that efforts by the North Korean regime to develop enough plutonium to permit the manufacture of 10 to 12 nuclear weapons per year, and to develop the ballistic missile capacity of delivering these and other weapons over a wide area, represent a grave threat to the security of the Korean peninsula and the entire world;

(8) the North Korean regime continues to resist efforts by the United States to reduce tensions on the Korean peninsula;

(9) efforts in recent years by the United States to reduce tensions on the Korean peninsula have included the withdrawal of all nuclear weapons from the territory of the Republic of Korea and a reduction in the number of United States military personnel stationed there, the postponement of the 1994 "Team Spirit" exercises, the establishment of direct diplomatic contacts with the North Korean regime, and the offer of expanded diplomatic and economic contacts with North Korea;

(10) weapons-grade plutonium can be extracted from the fuel rods in the type of nuclear facilities North Korea is known to possess;

(11) international inspectors must be permitted to examine all spent fuel rods re-

moved from North Korea's principal nuclear reactor at Yongbyon and to carry out tests necessary to ensure compliance with the 1992 safeguards agreement; and

(12) the diplomatic impasse concerning the North Korean nuclear program has clearly reached a critical juncture, the unsatisfactory resolution of which would place the international nonproliferation regime in jeopardy and threaten the peace and security of the Korean peninsula, the Northeast Asia region, and, by extension, the rest of the world.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) the North Korean regime should take an initial step toward cooperation with the international nonproliferation regime by permitting the unfettered international inspection of the removal and eventual disposal of all spent fuel rods from the Yongbyon nuclear complex, followed by a comprehensive inspection process as required by the Treaty on the Non-Proliferation of Nuclear Weapons;

(2) an unsatisfactory resolution of the inspection controversy at Yongbyon that allows for anything less than unfettered international inspection of facilities in that complex should prompt the Government of the United States to take such action as would indicate the severity with which it views this provocation against international norms; and

(3) such action should include, but not necessarily be limited to, the seeking of international sanctions against the North Korean regime and the rescheduling of the "Team Spirit" exercises for 1994.

58.20 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment submitted by Mr. KOPETSKI:

At the end of title X (page 277, after line 2), insert the following new section:

SEC. . CONGRESSIONAL ACTION ON NEGOTIATION OF LIMITATIONS ON NUCLEAR WEAPONS TESTING.

(a) FINDINGS.—The Congress finds the following:

(1) On January 25, 1994, the United States joined with 37 other nations to begin negotiations for a comprehensive treaty to ban permanently all nuclear weapons testing.

(2) On March 14, 1994, the President decided to extend the current United States nuclear testing moratorium at least through September 1995.

(3) The United States is seeking to extend indefinitely the Non-Proliferation Treaty at the April 1995 NPT Extension Conference.

(4) Conclusion of a comprehensive test ban treaty could contribute toward successful negotiations to extend the Non-Proliferation Treaty.

(5) Agreements to eliminate nuclear testing and control the spread of nuclear weapons could contribute to the national security of the United States, its allies, and other nations around the world.

(b) CONGRESSIONAL ACTION.—In view of the findings set forth in subsection (a), the Congress—

(1) applauds the President for maintaining the United States nuclear testing moratorium and for taking a leadership role toward negotiation of a comprehensive test ban treaty;

(2) encourages all nuclear powers to refrain from conducting nuclear explosions, prior to conclusion of a comprehensive test ban treaty; and

(3) urges the Conference on Disarmament to make all possible progress toward a comprehensive test ban treaty by the end of 1994.

 After some further time,

§58.24 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment, as modified, submitted by Mr. MARKEY:

At the end of Title X (page 277, after line 2), insert the following new section:

SEC. . NUCLEAR COOPERATION.

(a) IN GENERAL—It is the sense of the Congress that the President should suspend any programmatic consent given under a nuclear cooperation agreement for the use of special nuclear material subject to such agreement at any facility at which accounting discrepancies do not permit the International Atomic Energy Agency to determine with its required level of confidence that a significant quantity of special nuclear material has not been diverted from the facility. Such suspension should remain in effect until such time as the International Atomic Energy Agency determines that such discrepancies and uncertainties have been resolved and operational problems at the facility have been corrected to permit the Agency to detect a diversion of a significant quantity of special nuclear material from the facility with the required level of confidence.

(b) LIMITATION—The suspension called for in subsection (a) need not be carried out if operation of the facility in question is voluntarily suspended until such time as the Agency is able to detect a diversion as specified in that subsection.

(c) REPORTING—Not later than 90 days after enactment of this section, the President shall submit a report to the Congress which (i) describes the actions taken by the President pursuant to this section, (ii) states whether the conditions for lifting the suspension called for in subsection (a) have been met, and (iii) provides an assessment of the risks of both national and subnational diversion of special nuclear material at the facility under circumstances where such conditions have not been met. If, within such period, the conditions for lifting the suspension have not been satisfied, the President shall, every 90 days thereafter, and until such time as the conditions are satisfied, report to the Congress concerning the progress made toward achieving this objective.

58.26 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment submitted by Mr. KASICH:

At the end of title X (page 277, after line 2), insert the following new section:

SEC. 1038. SENSE OF CONGRESS AND REPORT ON READINESS OF MILITARY FORCES OF THE REPUBLIC OF KOREA.

(a) FINDINGS.—The Congress finds the following:

(1) Under existing treaties and security arrangements between the United States and the Republic of Korea, responsibility for the defense of the territory of the Republic of Korea is allocated so that the Republic of Korea has primary responsibility for the ground defense of its territory and the United States has primary responsibility for air and sea defense of the Korean peninsula and for reinforcement.

(2) The Force Improvement Program of the Republic of Korea has not addressed critical shortfalls in its ground force capability which continue to exist even though the Republic of Korea spends approximately \$12,000,000,000 annually on defense while the Democratic People's Republic of Korea spends approximately \$4,000,000,000 annually on defense. The Republic of Korea has diverted substantial defense resources to procuring submarines, destroyers, advanced aircraft, and other military systems that are marginal to its primary ground defense responsibility.

(3) The defense acquisition decisions of the Republic of Korea have had the effect of not allowing the Republic of Korea to attain self-sufficiency in its ground defense responsibility. As a result, there exists an undue burden on the United States for the ground defense of the Korean peninsula.

(4) The lack of intelligence capability to forecast the military intentions of the Democratic People's Republic of Korea represents a major deficiency of the combined United States-Republic of Korea military force.

(5) A short-warning attack by the Democratic People's Republic of Korea would cause major losses to the combined United States-Republic of Korea ground force.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that the President should urge

the Republic of Korea to improve its military ground forces with emphasis on counterartillery capabilities, defense against ballistic missiles and weapons of mass destruction, combined United States-Republic of Korea logistics capabilities, combined United States-Republic of Korea medical support, and combined United States-Republic of Korea strategic and tactical intelligence capabilities.

(c) REPORT.—Not later than December 1, 1994, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and House of Representatives a report, in classified form, on—

(1) the readiness of the military forces of the Republic of Korea to defeat an attack by the military forces of the Democratic People's Republic of Korea; and

(2) the adequacy of the defense acquisition strategy of the Republic of Korea to meet its primary ground defense mission.

It was decided in the Yea 414 affirmative Nays 3
