NEW MEXICO DELEGATION

JEFF BINGAMAN TOM UDALL
MARTIN HEINRICH HARRY TEAGUE BEN RAY LUJÁN

Dear Friends:

Our top priority as your Senators and Representatives is to help get our economy back on track. That is why we worked to improve and pass the American Recovery and Reinvestment Act of 2009. This historic \$787 billion economic recovery package will invest over \$1.8 billion in direct funding to New Mexico. In addition, New Mexico will benefit from tax cuts to individuals and businesses, and competitive grants. For our state, this funding could not come at a more critical moment. Unemployment is rising. Home prices are declining. New Mexico communities, struggling to maintain critical jobs and services, are faced with nearly \$575 million in state revenue shortfalls this year alone. Funding from the American Recovery and Reinvestment Act is intended to help reduce the length and severity of this recession for New Mexico families.

This landmark legislation is intended to save or create approximately 22,000 jobs in New Mexico. Our state will receive \$1.1 billion through formula grants – funds that will flow on a formula basis from federal agencies to state agencies. It will also receive an additional \$638 million in funding through Medicaid that can be used to expand and improve health care, as well as for other needs the state has identified. Finally, New Mexico will have an opportunity to apply directly to the federal government for additional grants, including funding for border law enforcement agencies.

It is imperative that our families, businesses and municipalities have the information they need to access these funds as quickly as possible. To assist in this effort, and to provide information about the programs and funding opportunities available to individuals, communities and businesses in New Mexico, we have assembled this resource guide to the American Recovery and Reinvestment Act.

We hope you'll find this information useful. If you have any questions, please don't hesitate to contact Kristine Dietz in the New Mexico Delegation Office at Kristine_Dietz@bingaman.senate.gov. We also encourage you to visit www.recovery.gov for more information. The road toward economic recovery will be challenging, but by working together we are confident that a stronger, more prosperous New Mexico lies ahead.

U.S. Senator Jeff Bingaman, N.M.

U.S. Senator Tom Udall, N.M.

U.S. Representative Martin Heinrich, N.M.-1

U.S. Representative Harry Teague, N.M.-2

U.S. Representative Ben Ray Lujan, N.M.-3

This document describes major initiatives funded by the American Recovery and Reinvestment Act. The following information does not summarize all funding or tax provisions in the bill, nor does it contain information on federal funding that is not part of the ARRA.

TRANSPORTATION

The following information about funding included in the American Recovery and Reinvestment Act of 2009 was compiled by the New Mexico Congressional Delegation. This document is intended to provide the public with basic information of potential federal assistance and funding opportunities. Those interested in these or similar programs should contact the appropriate federal and state agencies for detailed information. Please note: Not all applicable programs are included below; the following information is subject to change; and additional requirements, restrictions and guidance may apply.

Highway Improvement Programs

\$27.5 billion was included for Highway Infrastructure Investment.

New Mexico will receive \$252.6 million in formula funding.

Administrator:	New Mexico Department of Transportation
Purpose:	For transportation projects eligible under the Federal-aid Highway Program's Surface Transportation program and could also include rail infrastructure activities.
Description:	Funds are distributed by formula, with a portion of the funds within each State being sub allocated by population areas.

ENVIRONMENTAL INFRASTRUCTURE

The following information about funding included in the American Recovery and Reinvestment Act of 2009 was compiled by the New Mexico Congressional Delegation. This document is intended to provide the public with basic information of potential federal assistance and funding opportunities. Those interested in these or similar programs should contact the appropriate federal and state agencies for detailed information. Please note: Not all applicable programs are included below; the following information is subject to change; and additional requirements, restrictions and guidance may apply.

Clean Water State Revolving Fund

\$4 billion included for the Clean Water State Revolving Fund.

New Mexico will receive \$19.5 million in formula funding.

Administrator:	New Mexico Environmental Department Bureau of Water Protection and Land Reuse, Clean Water Fund Management Office
Provisions:	Waives mandatory 20 % matching requirements for revolving funds
	Directs the Administrator to reallocate Revolving Fund monies where projects are not under contract or construction within 12 months of the date of enactment
	Directs priority funding to projects on State priority lists that are ready to proceed to construction within 12 months of enactment
	Requires at least 50% of the capitalization grants each State receives be used to provide assistance for additional subsidization (forgiveness of principal, negative interest loans, or grants, or any combination of these).
	Requires at least 20% of each Revolving Fund be available for projects for green infrastructure, water and/or energy efficiency, innovative water quality improvements, decentralized wastewater treatment, storm water runoff mitigation and water conservation, unless states lack applicants with these types of projects
Purpose:	To provide relief to communities by requiring a greater Federal share for local clean and drinking water projects and greater flexibility for States to reach communities that would otherwise not have the resources to repay a loan with interest.
Description:	Funding provided to states is used to makes loans to communities, individuals, and others for high-priority water-quality activities
Activities:	Loans are used to build or improve wastewater treatment plants; agricultural, rural, and urban runoff control; estuary improvement projects; wet weather flow control, including storm water and sewer overflows; alternative treatment technologies; and water reuse and conservation projects.

ENERGY

Energy Efficiency ◇ Renewable Energy ◇ Energy Consumption ◇ Research & Development

The following information about funding included in the American Recovery and Reinvestment Act of 2009 was compiled by the New Mexico Congressional Delegation. This document is intended to provide the public with basic information of potential federal assistance and funding opportunities. Those interested in these or similar programs should contact the appropriate federal and state agencies for detailed information. Please note: Not all applicable programs are included below; the following information is subject to change; and additional requirements, restrictions and guidance may apply.

State Energy Program

\$3.1 billion was included for the State Energy Program.

New Mexico will receive \$31.6 million in formula funding.

Administrator :	NM State Energy Office
Description:	States use grants to address energy priorities and program funding to adopt emerging renewable energy and energy efficiency technologies
Website:	http://apps1.eere.energy.gov/state_energy_program/seo_contacts_by_state.cfm/state=NM www.energy.gov/recovery

Weatherization Assistance Program

\$5 billion was included for the Weatherization Assistance Program. Provisions also expand the eligibility of low income households for the Weatherization Assistance Program and increasing the funding assistance level per dwelling (from \$2,500 per dwelling to \$6,500)

New Mexico will receive \$30.4 million in formula funding.

Administrator :	New Mexico Finance Authority
Description:	Provides energy efficiency measures in the homes of qualifying homeowners free of charge
Purpose:	To assist low-income families reduce their energy bills by making their homes more energy efficient
Website:	www.nmfa.net
Phone:	(505) 984-1454

Energy Efficiency and Conservation Block Grant (EECBG)

\$3.2 billion was included for EECBG.

Office:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Purpose:	To reduce fossil fuel emissions, decrease overall energy consumption, Improve energy

	efficiency in the transportation, building, and other energy consuming sectors of the economies of eligible entities
Description:	Assists states and local governments in implementing strategies to reduce fossil fuel emissions created as a result of activities within the jurisdictions of the eligible entities and reduce the total energy use. Activities eligible to receive funding include: conducting residential and commercial building energy audits; establishing financial incentives programs for energy efficiency improvements; grants to non-profits organizations to perform energy efficiency retrofits; developing/implementing programs to conserve energy used in transportation; developing and implementing building codes and inspections services to promote building energy efficiency; installing light emitting diodes (LEDs); and developing, implementing, and installing on or in any government building onsite renewable energy technology that generates electricity from renewable sources.

Advanced Battery Manufacturing

\$2 billion was included for Advanced Battery Manufacturing grants to support the manufacturing of advanced vehicle batteries and components

Office:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Activities:	For the manufacturing of advanced batteries and components; and to provide facility funding to manufacturers of advanced battery systems and vehicle batteries that are produced in the United States, including advanced lithium ion batteries, hybrid electrical systems, component manufacturers, and software designers
Type:	Competitive Grants
Website:	www.eere.energy.gov www.energy.gov/recovery

Alternative Fueled Vehicle Pilot Grant Program

\$300 million was included for the Alternative Fueled Vehicles Pilot Grant Program

Office:	Clean Cities Program Energy Efficiency and Renewable Energy (EERE)
----------------	---

Agency:	U.S. Department of Energy
Purposes:	To establish a grant program through the DOE Clean Cities Program to encourage the use of plug-in electric drive vehicles or other emerging electric vehicle technologies.
Recipients:	State governments, local governments, metropolitan transportation authorities, air pollution control districts, and private or nonprofit entities.
Activities	May be used for the acquisition of alternative fueled vehicles, fuel cell vehicles or hybrid vehicles, including buses for public transportation and ground support vehicles at public airports. The installation or acquisition of infrastructure necessary to directly support an alternative fueled vehicle, fuel cell vehicle, or hybrid vehicle project funded by the grant is also eligible.
Type:	Competitive Grant

Transportation Electrification

\$400 million for Transportation Electrification grant projects.

Office:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Purposes:	To implement a grant program for qualified electric transportation projects that reduce emissions, including shipside electrification of vehicles, truck stop electrification, airport ground support equipment and cargo handling equipment
Recipients:	States, local governments, and metropolitan transportation authorities
Type:	Competitive Grant

Energy Efficient Appliance Rebate Program and Energy Star Program

\$300 million was included for the Energy Efficient Appliance Rebate program and the Energy Star Program.

Office:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy

Description:	Approximately 15 states have appliance rebate programs currently operating to incentivize the purchase of energy efficient appliances. This program would add federal funds to increase the effectiveness of these programs and to encourage the remaining states to adopt similar programs. This will speed the rollout of appliances that will be able to take advantage of smart meters and spur consumer purchases of smart and energy-efficient appliances.

Smart Grid Investment Program

\$4.5 billion was included for the Smart Grid Investment Program.

Office:	Electricity Delivery and Energy Reliability
Agency:	U.S. Department of Energy
Purposes:	To modernize the electric grid, enhance security and reliability of the energy infrastructure, energy storage research, development, demonstration and deployment, and facilitate recovery from disruptions to the energy supply, and authorized purposes.
Activities:	For research and development, pilot projects, and federal matching funds for the Smart Grid Investment Program to meet the goal of a modern electric grid, enhance security and reliability of energy infrastructure, and facilitate recovery from disruptions to the energy supply. The Office of Electricity Delivery and Energy Reliability projects are planned and implemented in concert with partners from other Federal programs; electric utilities; equipment manufacturers; regional, state, and local agencies; national laboratories; and universities.

Fossil Energy Research and Development Program

\$3.4 billion was included for Fossil Energy Research and Development Program.

Office:	Office of Fossil Energy
Agency:	U.S. Department of Energy
Description:	Research and Development programs include pollution control innovations for traditional power plants, including mercury reduction; improved gasification technologies; advanced combustion systems; development of stationary power fuel cells; improved turbines for future coal-based combined cycle plants; and creation of a portfolio of technologies that can capture and permanently store greenhouse gases.
Activities:	Research and development (R&D) partnerships, cooperative R&D agreements, financial assistance, and contractual arrangements with universities and the private sector.

Advanced Research Projects Agency (ARPA-E)

\$400 million included for the Advanced Research Projects Agency (ARPA-E).

Agency:	U.S. Department of Energy
Purposes:	To support high-risk, high-payoff research to accelerate the innovation cycle for both traditional and alternative energy sources and energy

Background:	In 2007, Congress approved (PL 110-69) the creation of the Advanced Research Projects Agency-Energy (ARPA-E). Modeled after the Defense Research Advanced Research Projects Agency (DARPA), ARPA-E will develop and deploy advanced energy technologies by identifying and promoting revolutionary advances in fundamental sciences, translating those discoveries into technological innovations, and accelerating transformational technological advances in areas that industry by itself is not likely to undertake.
Eligibility as Authorized:	Awards to institutions of higher education, companies, research foundations, trade and industry research collaborations, or consortia of such entities, which may include federally-funded research and development centers.

COBRA Continuation Coverage

\$24.7 billion was included for COBRA Continuation Coverage.

Office:	Group Health Plan
Agency:	Department of Labor (Regulatory)
Type:	Mandatory Spending
Purpose:	<p>To provide individuals and their families who lost coverage due to a change in employment, with a premium subsidy of 65 percent of the COBRA continuation premiums for a maximum of 9 months of coverage only with respect to involuntary terminations that occurs on or after September 1, 2008, and before January 1, 2010. The full premium subsidy is limited by a taxpayer's adjusted gross income (AGI), \$125,000 for individuals and \$250,000 for joint filers and is phased out for individuals with an AGI between \$125,000 and \$145,000 and families with an AGI between \$250,000 and \$290,000. It provides a special 60-day election period for a qualified beneficiary who is eligible for a subsidized premium and who has not elected COBRA continuation coverage as of the date of enactment or who is no longer enrolled on the date of enactment, for example, because the beneficiary was unable to continue paying the premium.</p> <p>Note—Individuals need not apply for this subsidy prospectively. Beginning March 1st, qualified recipients who elect COBRA coverage should see the subsidy reflected in their monthly COBRA bill. The subsidy will be available for the next nine months, but is only available to individuals (1) who involuntarily lost their jobs, (2) whose AGI is less than \$12,000 in 2009, and (3) who have not been offered insurance from a subsequent employer.</p>
Description:	Recession-related job loss threatens health coverage for many families. This provision is intended to provide targeted assistance to individuals and families who have been involuntarily terminated to enable them to afford premium payments for health insurance coverage under COBRA. The Joint Committee on Taxation estimates that this provision would help 7 million people maintain their health insurance by providing a vital bridge for workers who have been forced out of their jobs in this recession.
