

retired member to convert to dependent-only coverage.

Provisions of the Final Rule

The final rule is consistent with the proposed rule.

III. Rulemaking Procedures

Executive Order 12866 requires certain regulatory assessments for any "significant regulatory action," defined as one that would result in an annual effect on the economy of \$100 million or more, or have other substantial impacts.

The Regulatory Flexibility Act (RFA) requires that each federal agency prepare, and make available for public comment, a regulatory flexibility analysis when the agency issues a regulation which would have a significant impact on a substantial number of small entities.

This rule is not a significant regulatory action under the provisions of Executive Order 12866, and it would not have a significant impact on a substantial number of small entities.

This rule will not impose additional information collection requirements on the public under the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

(iv) Eligible dependents of a member described in paragraph (d)(1)(i) or paragraph (d)(1)(ii) of this section when the member is not enrolled in the

program and the member meets at least one of the conditions in paragraphs (d)(1)(iv)(A) through (C) of this section. Already enrolled members must satisfy any remaining enrollment commitment prior to enrollment of dependents becoming effective under this paragraph, at which time the dependent-only enrollment will continue on a voluntary, month-to-month basis as specified in paragraph (d)(4) of this section. Members must provide documentation to the TRDP contractor giving evidence of compliance with paragraphs (d)(1)(iv)(A), (B), or (C) of this section at the time of application for enrollment of their dependents under this paragraph.

Enrollment in this dental plan and the exclusion of dependents from enrollment in the plan must be confirmed by documentation from the member's employer or the dental plan's administrator.

(C) The member is prevented by a current and enduring medical or dental condition from being able to obtain benefits under the TRDP. The specific medical or dental condition and reason for the inability to use the program's benefits over time, if not apparent based on the condition, must be documented by the member's physician or dentist.

(3) Election of coverage. In order to initiate dental coverage, election to enroll must be made by the retired member or eligible dependent. Enrollment in the TRICARE Retiree Dental Program is voluntary and will be accomplished by submission of an application to the TRDP contractor.

(4) Enrollment periods. Initial enrollment shall be for a period of 24 months followed by month-to-month enrollment as long as the enrollee chooses to continue enrollment. An enrollee's disenrollment from the TRDP at any time for any reason is subject to a lock-out period of 12 months. After

any lock-out period, eligible individuals may elect to reenroll and are subject to a new initial 24-month enrollment period.

Amendments to Standards of Performance for New Stationary Sources; Monitoring Requirements

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The EPA is issuing revisions to the monitoring requirements to Performance Specification 1 (PS-1) of appendix B to part 60. The revisions

clarify and update requirements for source owners and operators who must install and use continuous stack or duct opacity monitoring equipment. The revisions also update design and performance validation requirements for continuous opacity monitoring system (COMS) equipment in appendix B, PS-1. These revisions do not change an affected facility’s applicable emission standards or requirements to monitor opacity. However, the revisions do the following: clarify the obligations of owners, operators, and opacity monitor vendors; reaffirm and update COMS design and performance requirements by incorporating by reference American Society for Testing and Materials (ASTM) D 6216-98 (approved February 10, 1998); provide EPA and affected facilities with equipment assurances for carrying out effective monitoring.

DATES: This rule is effective February 6, 2001. The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of February 6, 2001.

Overview. The preamble summarizes the legal authority for these revisions, background information, technical and economic methodology used by the Agency to develop these revisions, impacts of these revisions, regulatory implementation, responses to public comments, and the availability of supporting documents.

Regulated Entities. These revisions apply to certain facilities, and they may apply to others.

(a) The revisions apply to any facility that is:

(1) Required to install a new COMS, relocate an existing COMS, replace an existing COMS.

(2) Required to recertify an existing COMS that has undergone substantial

refurbishing (in the opinion of the enforcing agency).

(3) Specifically required to recertify the COMS, as required in the Code of Federal Regulations (CFR).

(b) These requirements may also apply to stationary sources located in a State, District, Reservation, or Territory that has adopted these revisions into its implementation plan.

Background Documentation. The following is a list of background documents pertaining to this rulemaking:
