**LIBRARY OF CONGRESS****Copyright Office**

[Docket No. 2010-4]

**Federal Copyright Protection of Sound Recordings Fixed Before February 15, 1972**

**AGENCY:** Copyright Office, Library of Congress.

**ACTION:** Notice of inquiry: Extension of comment period; extension of reply comment period.

**SUMMARY:** The Copyright Office of the Library of Congress is extending the time in which comments and reply comments can be filed in response to its Notice of Inquiry requesting public input on the desirability and means of bringing sound recordings fixed before February 15, 1972, under Federal jurisdiction.

**DATES:** Initial written comments must be received in the Office of the General Counsel of the Copyright Office no later than January 31, 2011. Reply comments must be received in the Office of the General Counsel of the Copyright Office no later than March 2, 2011.

**ADDRESSES:** The Copyright Office strongly prefers that comments be submitted electronically. A comment page containing a comment form is posted on the Copyright Office Web site at <http://www.copyright.gov/docs/sound/comments/comment-submission-index.html>. The Web site interface requires submitters to complete a form specifying name and organization, as applicable, and to upload comments as

an attachment via a browse button. To meet accessibility standards, each comment must be uploaded in a single file in either the Adobe Portable Document File (PDF) format that contains searchable, accessible text (not an image); Microsoft Word; WordPerfect; Rich Text Format (RTF); or ASCII text file format (not a scanned document). The maximum file size is 6 megabytes (MB). The name of the submitter and organization should appear on both the form and the face of the comments. All comments will be posted on the Copyright Office Web site, along with names and organizations.

If electronic submission of comments is not feasible, comments may be delivered in hard copy. If hand delivered by a private party, an original and five copies of a comment or reply comment should be brought to the Library of Congress, U.S. Copyright Office, Room LM-401, James Madison Building, 101 Independence Ave., SE., Washington, DC 20559, between 8:30 a.m. and 5 p.m. The envelope should be addressed as follows: Office of the General Counsel, U.S. Copyright Office.

If delivered by a commercial courier, an original and five copies of a comment or reply comment must be delivered to the Congressional Courier Acceptance Site ("CCAS") located at 2nd and D Streets, SE., Washington, DC between 8:30 a.m. and 4 p.m. The envelope should be addressed as follows: Office of the General Counsel, U.S. Copyright Office, LM-403, James Madison Building, 101 Independence Avenue, SE., Washington, DC 20559. Please note that CCAS will not accept delivery by means of overnight delivery services such as Federal Express, United Parcel Service or DHL.

If sent by mail (including overnight delivery using U.S. Postal Service Express Mail), an original and five copies of a comment or reply comment should be addressed to U.S. Copyright Office, Copyright GC/I&R, P.O. Box 70400, Washington, DC 20024.

**FOR FURTHER INFORMATION CONTACT:** David O. Carson, General Counsel, or Chris Weston, Attorney Advisor, Copyright GC/I&R, P.O. Box 70400, Washington, DC 20024. Telephone: (202) 707-8380. Telefax: (202) 707-8366.

**SUPPLEMENTARY INFORMATION:** To assist in the preparation of its study on federal protection for pre-1972 sound recordings, the Office published a Notice of Inquiry seeking comments on many detailed questions regarding various aspects of the study. See 75 FR 67777 (November 3, 2010). Initial

comments were due to be filed by December 20, 2010; reply comments were due to be filed by January 19, 2011.

The Copyright Office has received a request from the Recording Industry Association of America to extend the comment period to January 31, 2011, in order to allow sufficient time to gather relevant information from its member companies and to provide the Office with comprehensive comments. Given the need for more factual data regarding pre-1972 sound recordings, and the complexity of the issues raised by the Notice of Inquiry, the Office has decided to extend the deadline for filing comments by a period of 42 days, making initial comments due by January 31, 2011. The period for filing reply comments will be similarly extended, making reply comments due by March 2, 2011.

Dated: November 24, 2010.

## NUCLEAR REGULATORY COMMISSION

[EA-10-152; Project No. 52-0001; NRC-2010-0368]

### In the Matter of Toshiba America Nuclear Energy Corporation and All Other Persons Who Seek or Obtain Access to Safeguards Information Described Herein; Order Imposing Safeguards Information Protection Requirements for Access to Safeguards Information (Effective Immediately)

I

On June 12, 2009, the U.S. Nuclear Regulatory Commission (the Commission or NRC) published a rulemaking in the **Federal Register** (74 FR 28112), that requires applicants for a variety of licensing activities, including nuclear power plant designers, to perform a design-specific assessment of the effects of a large, commercial aircraft impact and to incorporate design features and functional capabilities into the nuclear power plant design to provide additional inherent protection with reduced operator actions. Section V of the **Federal Register** notice contains specific requirements for applicants for new nuclear power reactors. To assist designers in completing this assessment, the Commission has decided to provide the detailed aircraft impact

characteristics that reactor vendors and architect/engineers who have the need to know and who meet the NRC's requirements for the disclosure of such information should use as reasonable input in studies of the inherent capabilities of their designs.

The NRC derived these characteristics from agency analyses performed on operating reactors to support, in part, the development of a broadly effective set of mitigation strategies to combat fires and explosions from a spectrum of hypothetical aircraft impacts. Although the NRC did not select these detailed characteristics as a basis for designing new reactors, the staff is suggesting that designers use them as a starting point for aircraft impact assessments. As stated in the rulemaking, the Commission will specify, in a safeguards information (SGI) guidance document, the detailed aircraft impact characteristics that should be used in a required assessment of the new reactor designs. The agency is working to finalize the form and values of those detailed characteristics. On July 10, 2009, the NRC issued Draft Regulatory Guide (DG)-1176, "Guidance for the Assessment of Beyond-Design-Basis Aircraft Impacts," to assist applicants in the completion of the assessment. The agency did not receive any comments on DG-1176. The staff is currently finalizing the regulatory guide. In addition, the staff recognizes that no national or international consensus has been reached on the selection of appropriate characteristics for such analyses. Therefore, applicants should consider the information preliminary and subject to authorized stakeholder comment. The detailed aircraft characteristics that are the subject of this Order are hereby designated as SGI,<sup>1</sup> in accordance with Section 147 of the Atomic Energy Act of 1954, as amended (AEA).

On October 24, 2008, the NRC revised Title 10 of the *Code of Federal Regulations* (10 CFR) Part 73, § 73.21, "Protection of Safeguards Information: Performance Requirements," to include applicants in the list of entities required to protect SGI (73 FR 63546). The NRC is issuing this Order to Toshiba America Nuclear Energy Corporation (TANE) to impose requirements for the protection of SGI in addition to the requirements in the revised 10 CFR 73.21. These additional requirements include nomination of a reviewing official,

restrictions on the storage of SGI, and access to SGI by certain individuals.

To implement this Order, TANE must nominate an individual, known as the "reviewing official," who will review the results of the Federal Bureau of Investigation (FBI) criminal history records check to make SGI access determinations. The reviewing official must be someone who seeks access to SGI. Based on the results of the FBI criminal history records check, the NRC staff will determine whether this individual may have access to SGI. If the NRC determines that the individual may not be granted access to SGI, the enclosed Order prohibits that individual from obtaining access to any SGI. Once the NRC determines that the nominated individual may have access to SGI, and after TANE has completed the background check on the reviewing official and has determined that he or she is trustworthy and reliable, and has approved the individual as the reviewing official, that reviewing official, and only that reviewing official, can make SGI access determinations for other individuals who have been identified by TANE as having a need to know SGI and who have been fingerprinted and have had a criminal history records check in accordance with this Order. The reviewing official can only make SGI access determinations for other individuals; he or she cannot approve other individuals to act as reviewing officials. If TANE wishes to nominate a new or additional reviewing official, the NRC must first determine whether that individual may have access to SGI before he or she can act in the capacity of a reviewing official.

The regulations at 10 CFR 73.59, "Relief from Fingerprinting, Identification and Criminal History Records Checks and Other Elements of Background Checks for Designated Categories of Individuals," relieve certain categories of individuals from fingerprinting requirements. Those individuals include: (1) Federal, State, and local law enforcement personnel, (2) Agreement State inspectors who conduct security inspections on behalf of the NRC, (3) members of Congress, (4) employees of members of Congress or congressional committees who have undergone fingerprinting for a prior U.S. Government criminal history check, and (5) certain representatives of the International Atomic Energy Agency or certain foreign government organizations. In addition, the NRC has determined that individuals who have had a Favorably-decided U.S. Government criminal history check within the last 5 years or individuals

<sup>1</sup> SGI is a form of sensitive, unclassified, security-related information that the Commission has the authority to designate and protect under Section 147 of the AEA.
