## Administrative Information

### Provenance

The papers of Gifford Pinchot, conservationist, chief forester in the United States Department of Agriculture, professor of forestry at Yale University, and governor of Pennsylvania, were given to the Library of Congress by Gifford Pinchot, Cornelia Pinchot and the Pinchot family in several installments between 1941 and 1953. Additional material has been received through gift and transfer, 1955-1990.

### Processing History

Upon arrival in the Library of Congress, the Gifford Pinchot Papers were placed in manuscript containers, with a descriptive container listing providing the only access to the collection. Substantial portions of the papers were reorganized in 1973 into a more coherent arrangement, and new series were created to bring similar material together.

In 1989 the Library of Congress, in conjunction with the United States Forest Service, undertook a cooperative project to organize and describe those portions of the Pinchot Papers that concerned the early period of the conservation movement and the first five years of the Forest Service from 1890 to 1910. Selected records and files were rearranged to document Pinchot's contribution to the founding of the conservation movement. Due to the interfiling, transposition, and removal of material that resulted from this reorganization, gaps occurred in the former sequence of arrangement of the manuscript containers. These gaps are identified in the container list by the statement "removed from collection." Final processing of this segment of the Pinchot Papers was completed in 1991.

In addition to the rearrangement of a portion of the collection between 1989 and 1991, new material was appended in 1985 and 1998. Other revisions were made in 2007, and the finding aid was revised again in 2011.

## Transfers

Architectural drawings, blueprints, maps, and photographs have been transferred to the Prints and Photographs Division and Geography and Map Division of the Library of Congress where they are identified as part of these papers. Selected financial documents, legal papers, memorabilia, photographs, and printed matter, identified by Jean Pablo during her reorganization of the Pinchot Papers, have been transferred to the Department of Agriculture.

## Scope and Content Note

The papers of Gifford Pinchot (1865-1946) span the years 1770 to 1972 with the bulk of material dating from 1870 to 1946. The papers reflect Pinchot's activities and interests as a conservationist, professor of forestry, chief forester in the Department of Agriculture, two-term governor of Pennsylvania, labor arbitrator, and author. Additions to the papers were appended in 1985 and 1998. The collection consists of fourteen series: [Diaries, Engagements and Appointment Books, Notebooks, and Journals](#); [Family Papers](#); [General Correspondence](#); [Subject File](#); [Speech File](#); [Article File](#); [Books and Miscellaneous Writings File](#); [Political Campaign File](#); [Governorship: First Administration](#); [Governorship: Second Administration](#); [Special Collections](#); [Miscellany](#); [Addition I](#); and [Addition II](#).

Much of the collection is composed of correspondence files, while most of the remainder consists of subject files. Records concerning Pinchot's second administration as governor of Pennsylvania are voluminous. Although both the [Family Papers](#) and [General Correspondence](#) series are arranged chronologically, only the latter is further organized alphabetically by correspondent within the chronological sequence.

Gifford Pinchot's diaries span the years 1872-1946, and his forestry journals cover the period from 1889 to 1907. Diaries of his mother, Mary Eno Pinchot, and one of his father, James W. Pinchot, are in the [Family Papers](#). This series also contains his parents correspondence and two groups of letters from William T. Sherman to Pinchot's father. Correspondence from Sherman to Pinchot's mother is in [Addition II](#). Correspondence of Pinchot family members is filed in the [Family Papers](#) series, though letters exchanged between Gifford Pinchot and the members of his immediate family are also located throughout the [General Correspondence](#) series.

The [General Correspondence](#) contains material on the formation of the National Progressive Republican League, Pinchot's support of Theodore Roosevelt and Robert M. La Follette for president, the Progressive Party, progressivism in Pennsylvania, and Pinchot's dispute with Richard Ballinger, secretary of the interior, in 1909, which resulted in Pinchot's dismissal as chief forester.

The [Subject File](#) includes material on many organizations, such as the American Farm Bureau Federation, the American Federation of Labor, the American Legion, and the American Liberty League. There is a considerable amount of material on forests and forestry, conservation, flood control, and public utilities. Pinchot's interest in prohibition is also reflected in material contained in this series.

Pinchot amassed material on many public figures, including William Edgar Borah, Louis Dembitz Brandeis, William Jennings Bryan, Thomas A. Edison, Henry Ford, John Charles Frémont, and William Randolph Hearst, as well as various presidents and cabinet members. He kept abundant notes on his trip to the South Seas in 1935, as evidenced in his diaries, and on a trip to Russia in 1902, reflected in the [Subject File](#) series. The [Subject File](#) also contains material revealing Pinchot's deep interest in the Church of God and his service on the Commission for Relief in Belgium, 1914-1915.

The [Special Collections](#) series contains the records of several Pinchot associates, including [Eugene S. Bruce](#); Pinchot's secretary, [Morris E. Gregg](#); [Herbert A. Smith](#); and [Philip P. Wells](#). Bruce worked in the Adirondack Preserve and in the Bureau of Forestry, and was responsible for selecting Chippewa Indian Reservations in Northern Minnesota for inclusion in the National Forest Reserve, 1903. Smith was a classmate of Pinchot at Yale University. In 1901 he became editor of Forest Service publications and later was responsible for the agency's public relations. Smith drafted Pinchot's annual reports to the secretary of agriculture as well as many other papers and assisted Pinchot in the preparation of *Breaking New Ground*. Philip P. Wells, assistant to George Woodruff of the Forest Service, 1901-1910, was an authority on water power policy and public utilities. He served as chief law officer of the Reclamation Service, 1911-1913, counsel to the National Conservation Association, deputy attorney general of Pennsylvania, 1923-1927, and chairman of Pennsylvania's Giant Power Board, 1925-1926.

Research files accumulated by Gifford Pinchot during the preparation of his book *Breaking New Ground*, a personal memoir detailing his efforts at establishing and promoting the principles of scientific forest management and conservation in this country, were originally chosen by Pinchot and his assistants from both the [General Correspondence](#) and [Subject File](#) series. As such they supplement these series, and, because they represent a selection, may reflect Pinchot's personal choice of the most important documents in those series. The files concerning *Breaking New Ground* are located in the [Books and Miscellaneous Writings File](#).

The [Miscellany](#) contains real estate matter, and photographs as well as research notes, material relating to Pinchot's second gubernatorial administration, and indexes to speeches and news releases.

Two additions to the Pinchot Papers include family papers, correspondence, diaries, estate papers, real estate deeds, and scrapbooks. Financial papers of Amos R. Eno, New York City real estate developer and Pinchot's maternal grandfather, and the Civil War correspondence of John Phelps and Mary Phelps are in [Addition II](#). The [General Correspondence](#) of Addition II includes Pinchot's correspondence campaign to organize opposition to the proposal to move the Forest Service into the Department of the Interior, 1921-1922. The [Subject File](#) of Addition II contains correspondence with various European foresters in 1929 concerning European forest legislation.
